flipping shoes is basically common knowledge, don't see the point of making a e-book out of it

no it's not lol , you know how many people here bashed me for buying the yeezys. They replied why would someone buy these shoes etc..... people dont know there is money is involved

?ICE? - December 25, 2015, 11:38 am

I'll take a review copy if you have another, hopefully will be a good and thoughtful read.

Sparky - December 25, 2015, 12:11 pm

I'll take a review copy. But like that dude said, selling shoes is common sense lmao.

lmao yes reselling is common sense. You buy low and sell high duh, you are telling me someone who sells cars/houses etc..... are going to tell you all their secrets to making them successful. This is not an ebook to buying a usb from aliexpress and reselling them on ebay for more(that shit is common sense). If you don't know about shoes then you simply can't resell shoes.

frowneyface - December 25, 2015, 2:14 pm

As others mentioned, I'd take a vouch copy if you're giving them out.

I differ from the rest as I am apart of the sneaker resell community. I can send you my tagged photos of my yeezy 750, Jordan PSNY 12's or Jordan 11's. I have BNB, Sole+Nike Slayer and ANB AIO.

- 1.) Buy a shoe bot.
- 2.) Resell new releases on Kixify or eBay.
- 3.) Profit??

Lmk if you're giving any more vouch copies.

If you have ways of getting the upcoming 350s without camping out or using a bot then I'd be interested.

First of all this was a school project , this is not my business . I don't hope to make a bunch of sales nor do I care; I just don't mind giving some knowledge away . I make tons off doing something else . Everything is trial and error .

Got a snippet of the eBook and I have to say, it is very informal compared to what I was expecting, with clear sections and easy to follow. The only thing I would suggest is a little bit more spacing between lines to make it easier to read, but other than that seems like a great buy, glws op!

They're right, you act like it's not common knowledge to resell shoes because people thought you were buying them for yourself.

When it is common knowledge, it's the same as selling a public method really.

resell in general is common knowledge , buy low and sell high . You obviously haven't seen my ebook , sold 4 but i left it alone. Didnt even know people bumped this . This is not a simple method , it's an actual book that goes in depth about reselling and how to profit. You should see my rep
