Thread: [Make your server FUD 100%\(crypting service\)](#)

Miss_intengible - December 25, 2015, 5:06 am

Hello boys ?

Before one week i ended up with my crypter which he tortured me about a month ..

actually is my first and i think anyone from you if you wanted to make a crypter and it was the first you will not

selling it even for 1 million(you know the passion)..... So now i decide to do fud crypts for 5\$ per crypt.

BUT REMEMBER THE FIRST CRYPT IS FREE. So if somone doesn't like it, simply will never buy

BTW I WILL NOT INFECT YOUR STUB the first time .. FOR god shake .jesus!

Stub Options:

Language Coded : C/C++

Compatibility : Crypts everything like rats,botnets and other malicious expects .net ... (e.g Immundet monitor)

Depentancies: No

Runtime/Scantime : yes

Fud time : I spread and scan about 5-6 days and still remain FUD

Unique:Every time will recompile it and i am using inside rand() function to regenerate random strings and arrays which will expand the original. So every stub are different from the other.

Contact:

Skype name :miss.intengible

Pay Methods:

Bitcoin , Paypal
