Obi-Wan Cannabis - December 25, 2015, 11:59 am

My girlfriend is turning 20 on January and I need to get her a present.
I thought about filling a box with 20 different presents she would enjoy.
Could you give me some ideas of presents to put in the box?

Stuff I have already:

1. Dinner for two on her birthday;
2. Movie Tickets (one for me one for her);
3. A scratch card and a coin;
4. Chocolates;
5. Two movies she wanted;
6. A book;
7. A pot filled with 365 cards and she takes one per day for a year. << pretty cliché but I feel like she would like it

Still missing 13 presents.
Give ideas!

Good list OP but ditch the scratch card as those things provide only frustration. You can scratch it yourself and give her any money you won but you probly won't win so you can avoid her becoming momentarily depressed. If you know what I mean. Keep it upbeat.

And now I exit stage left (too much drink, ignore my post for its negativity)

That's why I leave the coin too. If she doesn't get any prize, she gets to keep the coin. ?

How long have you been together?

Don't you think this is kinda excessive?

4 years in April. It's been a while. Not really. I just thought it would be fun, since you don't turn 20 every day.
