EDIT:

My review- This ebook is extremely easy to follow including the pictures throughout. It is easy to set up and start going. I have already received my first payment of \$50.00 on paypal only a few days after purchase and am extremely happy that it worked! I was surprised to see this ebook was about 20 pages of information! Rating 9.5 / 10

Hello,

Just bought the ebook and want to share my honest feelings about it. I'm sure i'll earn money and i'll share with you ASAP

First of all the Layout and the grammar of the book is very clear and easily understandable. There're plenty of pics so you don't have chance to lost in ebook.

Let's come in to method, to be honest i paid 10s of ebooks and read over 100s of ebooks but i never saw a method like this. I cannot say it's unique but the twist of the OP makes it different. I can clearly say that it wouldn't be saturated for years.

As said in the topic, it's not an automated and sit and wait method, you need to make setups but author describes every little detail for noobs so you don't need to worry about it.

You need to invest a little around 20 dollars but after your first returns you can understand that it's nothing !

Finally, the method itself very promising and if you follow and do each step correctly almost %100 you can earn good money !

Regards,

Review 4: (Sep 9, 2014 08:10 PM)Noose Wrote: [\[CITE\]](#) I have obtained the last review copy, will be updating this comment later!

EDIT:

GRAMMAR: Not the best, but was very easy to read and understand, the pictures helped too!

EFFECTIVENESS: This method can be extremely effective depending on certain circumstances which I am unable to disclose, all I can say is it is defiantly within your control.

CONTENT: Very thorough instructions, a couple broken links but its no big deal as names of linked sites were present. Again, the pictures helped me set things up and was a very simple process!

I CONCLUDE: I give this eBook a 4.5/5! Very simple method and it wont be saturated any time soon!

Update:

I read the Vouch Copy that the OP sent, the method seems pretty legit to me, it's definitely not something that I expected at all. Although I'm not sure if it's a known method, I don't think it is, seeing as if it was too popular it would get saturated for sure. I can see you making profit off of this for sure. The ebook is also well written, including pictures and links to where you need to go. I'm not too knowledgeable in the area this ebook focuses on, but I still got the idea on how to do it and I'm sure I could follow it with relative ease. You do require a small investment though.

Overall, I'd give it a 4/5, and with a money back guarantee I don't see how you could go wrong

@OP i meant to pm you back but you have pm's disabled, lol.

This method was a pleasant surprise. Above all else, I require ethics in my work. I just won't allow myself to do methods that trick people out of money, or give people false hope. I don't want my success to be to the detriment of someone else. Luckily, this method is clean and will keep your conscious clean.

The e-book is pretty fool-proof, so it's not hard to understand what he does. He's thorough in his explanations, and provides many pictures and break-downs of what he's talking about. Additionally, Aetu has been very responsive in his PMs. If you need help, Aetu will give you help.

I'd say that by looking at it, it does have the potential to become saturated. So the sooner you buy the method, the better the chance you'll have of receiving a profit. Like most things, the earlier you arrive, the better the chance you'll have of being successful.

Overall, if you're looking for a way to make some money, this is a fine choice. Good work, Aetu, I had never thought of doing what you described in your e-book. Best of luck with furthering your sales.

Disclaimer: I received a gift copy, and decided to do a review at my own discretion.
