Thread: [Scammed 200m OSRS \(\\$250+\) - Dami - 2966425](#)

TSM hi im gosu - December 25, 2015, 8:15 pm

Before even reading just look at the picture that says hes confirming the 200m then says the conversation goes: "(both of us)200m confirmed. (me) so now you send payment for 400m correct? (him)yeah address again?"

^the above even in a court of law would suffice as an admission of guilt---> he agrees that 200m was presented and then confirms it was exchanged by continuing to the next step in the agreement (ie: the 400m part where he was to pay me) and then i give him the remaining 400m and then he give me the the payment for the last 200m.

Spoiler ([Click to View](#))

<https://i.imgur.com/kecsowr.jpg>

read*--> i can send anyone that wants the chat logs and the above will make perfect sense and you'll bear witness to the hour long con this kid pulled on me. He is now claiming that i set him up... or some dumb shit but all u have to read is the pic above... and It shows him admitting to receiving the 200m and getting ready to take the next step in the trade but then (logs out)

added video of all the text and proving its his skype etc: <https://youtu.be/i77S10dn2gk>

I keep seeing posts saying that hes being framed... like i have nothing to gain by doing that... i didnt even want to make a fucking scam report and waste my fucking time... i don't buy and sell on here but a few times a year... but god damn this fucking kids a weasel and i'll give him that hes semi good at it impressing people that don't have enough intellect to even read what has been posted and compare it. including the things he has changed...

LIKE WHY THE FUCK WOULD I BE FRAMING HIM? IF ONE PERSON CAN COME UP WITH A LOGIC ANSWER TO THIS ILL GIVE YOU 100M RIGHT NOW.

-first he claims i was the one trying to scam him, removed it.

-then he claims im lying and have my friends(which i have none of on here) are the ones neg repping him and agreeing with me

-AND NOW all of a sudden hes being framed after just yesterday he confirmed LITERALLY EVERYTHING that has been stated her with the exception of me trading him the gold "and that i was mad that we couldn't come to make a deal" he said that not me.

-he just contradicts himself in and out and over and over again and you kids are just feeding the troll, i hope next time it's you getting the shit end of the stick and the people around you are just as ignorant and cant take 10minutes to review what actually happened prior to making a decision. Like its how the fuck does this forums exist when its held to this type of standard with and by the community itself?

??

Well before i follow the 4 bullets above, i would like to say that this user was in it for the long con. He helped me for nearly an hour helping me set up and learn BTC. Then continues to con me and after all he helped me with i figured fuck it ill just go first... as soon as i went first he logs out and then goes onto another skype account ~!~(he was the only person i gave this skype info too)~!~ and

tried to scam me further...

I can also provide the entire skype (text conversation) that took place for over an hour...

It was my fault for not recording but if you look at the pictures and take a look at whats going on etc its not hard to see he scammed...

- you can confirm its him through all his threads etc
- you can see us negotiating
- him agreeing to a price
- me showing the only name that i dueled and being level 34 like he asked
- him confirming that i was trading him
- him confirming the trade was complete(by asking my address after confirming it was him i dueled)
- my BTC transaction he confirmed he sent(the test) then him never sending the money i was owed(my current transactions shown).

PS: i took so long to put this up here... 1) been busy during the holidays (was why i was selling my personal gold) and 2) the kid has the audacity to leave me feedback saying i scammed him?
*mind=blown

--added id to title
---have to just ask other users to actually read and look into his responses cause lol, the manner in which they are written is self incriminating in and of themselves.

I completed a 300m deal successfully with this user (TSM hi im gosu) and he went first, traded me the 300m 07 gold with no issues at all. Good luck getting this resolved.

ya kinda sad to see people scam on christmas

TSM hi im gosu - December 25, 2015, 9:29 pm

yeah worst part is i was gonna use that money for xmas. like i dont buy/sell the gold for a business i just stake for fun and happened to be loaded around the holidays and sold off my excess to buy gifts and shit.

like i said above its life shit happens but when the kid started selling the shit he stole and then

made rep about me trying to scam him? nah i got my ass to a computer even during the holiday and made the report

Rigatoni - December 25, 2015, 9:51 pm

Damn, I dodged another bullet, actually added the user.

Looks like a legit report.

Hope this gets resolved.

Dami - December 26, 2015, 6:48 am

So I'll tell you first of all how I know this is a fake report.

I've had to put gold selling on hold due to this fake shit, so if I was a scammer don't you think I'd be trying to grab as much as I could?

<http://prntscr.com/9iprr5>

Yes this user added me wanting to sell 07GP, but he never actually gave me anything, instead he tried to scam me and failed, got his friends to neg me and goes on a little rant.

So he claims I am "Hulk" right?

Wrong.

Hulk is actually his friends account who was multiaccounting, the same friend he got to neutral me calling me a scammer.

Proof they're friends: <http://prntscr.com/9iq0qw>

Proof:

His friend leaving me a neutral: <http://prntscr.com/9ipnse>

Go on his friends rep and Omni repfucked him for multiaccounting Hulk: <http://prntscr.com/9ipo3l>

Link Omni put in the rep: <https://hackforums.net/member.php?action=profile&uid=1309398>

He also claims I scammed him on Xmas right?

Wrong again, this kid has been claiming I scammed him for a good week, and I already had one of his false reputations removed.

Proof:

<http://prntscr.com/9ipoms>

And if you look at the date on that PM it clearly states: 12-22-2015, 02:35 PM which is nowhere near Xmas day.

He's also been trying to sales trash my goldselling thread in which he claims I scammed him 200M (BEFORE XMAS)

Proof:

<http://prntscr.com/9ipppl>

Another thread where I had to have his and his friends posts deleted.

So basically, I was meant to buy 200M gold from this user, baring in mind I have over 1.5b to my name, sold to users with almost 2k+ rep for amounts of 500M+ and never gone first, and this kid thinks I'm going to scam him for 200M.

Pretty much he got mad that a deal didn't take place so has been trying to salestrash me for almost a week.

Disclaimer:

I'm not claiming I never spoke to this reject or we didn't try to strike a deal, all I'm trying to say NO gold was transferred between any of us, there's no proof of it and me asking for his BTC address was BEFORE he attempted to duel me (check time stamps).

This is the fakest report I've ever seen and it's pretty sad that you did this for what I seem to think would be NO REASON or because your failed scam attempt.

Good attempt, but in general you're a scumbag, this is the same user who tried posting my dox info on my goldselling thread which I had deleted too.

Oh and he also claims there is a vid?

<http://prntscr.com/9ipxwq>

Post it please you lying scumbag.

TSM hi im gosu - December 26, 2015, 7:41 am

i dont even need to read this to say that we did exchange gold... try and defend urself all you want but anyone even looking at ANYTHING that you posted vs what i posted will just know that you scammed.

but gz! keep up the good work

but actually i noticed a few things... i never said xmas day... its that time of the year... and have you actually gone through and read what you've typed here cause uh? it's what they call a "red hearing arguement" look it up

okay i lied i had to read through this obnoxious shit... just because this kid has turned disdain into a pure fucking hatred.

First picture? what the fuck is that have to do with anything?

Second picture? that fucking user tried to scam me by using a fake mm... he even did so in fucking

skype with me and meerkat(<https://hackforums.net/member.php?action=profile&uid=1758161>) in the conversation as a first hand witness.

Third- Fifth: Again saying the same stuff as above... nothing if it means getting this kid banned ill upload the skype interaction with this kid hes claiming my friend and you can cross check the times with the times in which this kid is claiming "my friend" (which was a scammer as well and not my friend) left this kid whatever feedback.

Sixth pic: what? thats ur fucking post? again what does that have to do with you refuting scamming me.. and on top of that its the 26th and id still call it christmas(its that time of year) use ur fucking head...

Seventh: its not sales trashing its me trying to get ppl to stop buying from you BECAUSE the gold you have you scammed. IDGAF if you don't scam when you sell.. shit i didnt even care that u scammed me until 1 hour later u were selling the gold you fucking stole.

You now have 1.5b before on both skype and in PM you claim to have no stock and thats why you wanted to buy all of mine. And bro i had dozens of ppl asking me to sell to them you just asked first and had the best price.. its just a pecking order had nothing to do with needing a deal.

the time stamps? you dumb ass you confirmed to be the person on the receiving end of the 200m... now ur claiming that you tried to duel me after that? you don't even read what you fucking write... i swear if i was still in the UK id beat the piss out of you.

Again reason it took so long i was hesitant because i didnt really care, Karma is a bitch... but then you basically throw it in my face and sell the shit you stole from me on the same forum like yeh bro it pissed me off duh? and yeah man i just got home from families houses... some of us arent 17 and don't still live with our parents "Mr. Baldwin"

Lmao some weak response, just as I expected, you truly are a scumbag.

Explain why you're claiming I'm a multiaccounter when all the profiles you listed are your friends, proven to be your friends, YOU AND YOU FRIEND left me bad feedback, then your FRIEND gets repfucked for multiaccounting all the accounts you claim IM MULTIACCOUNTING.

Not to mention that you can simply trust scan me and you'll see I'm not multiaccounting.

so you say this give me positive feedback... and then change it to negative. i just have one very simple question. Why would i frame him? ive been on this forum for over a year longer than him? i DO NOT run a business on here... shit im rarely ever on here.

Like i said only reason i didn't just leave it to karma was ppl asked me to make a scam report AND the kid made it personal by talking shit and reselling the gold he stole an hour after taking it.

You said there's a video, post it moron.

Oh and you claim you didn't say I "scammed" you on Xmas?

again its still xmas to me... i never said xmas day not once anywhere ur quoting someone else or something i dont even care. i told you there was a video right after u did it to try and get you to man up but you didnt and still won't i really give no fucks. the scam reports there youve not dis-proven anything i've claimed... and the feedback you left me claims that you said i tried to scam you lmfao like bro just piss off idc.

probs not coming back to this thread unless theres something worth reading here. the info is there for all to see both sides. theres 3 parts to an argument and the opposing side is about 2 parts short of refuting anything because he hasn't even attempted to debunk the proof i've shown.

Cheers happy holidays!

In other words your attempt to frame me failed so you're retiring back to your basement.

Merry Christmas retard.
