glitchgxd - December 26, 2015, 12:30 pm

UPDATE #2

So I peaked at around 35 BTC btw, but I ended up with 20 BTC going to my account. Considering I started with 2, and made 1000% profit, I'd say I made out really well. I'm going to take a break from gambling for a while.

Definitely one of my luckiest days so far gambling wise.

Screenshot proof:

UPDATE:

Just to answer a few common questions / PMs. The site I used was fortunejack-
<https://fortunejack.com/affiliate/204131/>

The link above is my affiliate link, so you can also just use <https://fortunejack.com/> but if you wanna help a nigga out, I'd appreciate it.

I was playing their "Live Roulette" game, which is just them streaming a live roulette table and you bet on what you want on the board.

All I did was bet on what seemed the most probable numbers. Most of my winnings come from the 3 sets (1-12, 13-24, 25-36). I bet a large amount if it hasn't been called in a while, and keep betting on that until it wins. I also track and play "hot" numbers, because they really do tend to hit a lot. I had two .1 BTC hits on a specific number, which won .9 BTC at a time, which is how I started getting over and doubling the 2 BTC I came in with (in combination with my 3s).

Then I did something crazy, and started betting 1 BTC at a time on the 3s, and eventually I was up to 15 BTC. Did one last leap and put 6 BTC on one, won it, and here we are.

I gambled away my starting 2 BTC and have over \$8k (20 BTC) transferring to my wallet right now. Getting out while I'm super ahead.

So I started BTC gambling today with around 1.9 BTC, and now I have 28+ BTC.

Essentially, I've turned \$850 into about \$12k so far.

This is insane. What have you guys won so far from BTC gambling?

?Hero - December 26, 2015, 12:31 pm

Congratulations, Glitch! I never won anything. Only lost...

Dredd - December 26, 2015, 12:34 pm

Trust me cash out while you're ahead I've lost loads from winning insane amounts then always think I can win more trust you'll end up losing it all or a huge portion of it.

Wireless Network - December 26, 2015, 12:36 pm

I've lost about \$50 so i've stopped. Don't lose all that money, learn to stop.

With him on this.

Cash out all the BTC except what you started with and start building that amount up again. Do not keep a large sum in your gambling account!

I'm going to take that advice now :)

bfreakz - December 26, 2015, 12:41 pm

I have never ever won anything in gambling. Only lost. I advise you to cashout everything except 2BTC which essentially equals your starting point and only risk this. Take my advice, please. Don't be like I was.

The Jacka - December 26, 2015, 12:41 pm

What can i do with about tree fitty

Omoi - December 26, 2015, 12:43 pm

From \$5 to \$400 then lost then did a \$100 to \$900 ish cashed out doing sports bets, what you gambling on

Sensual - December 26, 2015, 12:44 pm

Cash \$11.9k of that out, leave yourself \$100 to fuck around with. Take that from a gambling addict.

Good shit OP.

Roulette. I just betted my last 6 BTC (after withdrawing 20) and lost it, so I'm done for now.

I had a lot of fun though. Thanks for telling me to get out though guys. I'm going to transfer all my BTC now through coinbase and get all the cash in my bank account now.

Came out ahead with 20 BTC (+\$8k). No more gambling for a while.

My friends and I are definitely drinking tonight haha

I always make the mistake of carrying on and I don't like roulette always have a good few in a row then a big loss

'Cynical - December 26, 2015, 12:55 pm

That's fucking crazy, dude!

What site did you use?

You tryna spot me \$5? lol.

Inmodwetrust - December 26, 2015, 12:56 pm

BTC gambling? None

But I did win £30 on Roulette in a Casino last week.

Nice job, I hope whatever website you're using pays you out.

Juicy - December 26, 2015, 1:01 pm

What kind of gambling do you do?

Also, cash out your winnings and just keep your original investment in. Just to protect from losing it all

Root - December 26, 2015, 1:03 pm

Cash out everything wile you can.

PS Send me some:P

DOSH - December 26, 2015, 1:04 pm

Hey after a while I'm sure I will, but that's gonna be on my own time and when I can afford to. I make a modest salary as it is, so this was like a bonus on top of my first one, which is awesome but I'm not going to take it all back. I've already learned my lesson from the nearly ~\$2k I won and blew at the casino when I went with my friends before.

I already withdrew, and for now I'm done. If I do go back into it in the future, I might start with a couple hundred again like today, but probably won't happen anytime soon.

Idk didn't really think about it. I'm just sharing a story of winnings, and asking other people about their stories they have to share.

You could just report my initial post for wrong forum if you're really concerned about it instead of shitposting?

Thanks man, and I'm sure many more have won more. I didn't win much, so posting about it won't do much. But others that have won a lot more might not want to post about it because then it might get sketchy when people set them as a target.

Not a problem, man.

I went back into this again with a smaller investment (\$42 / 0.1 BTC), and I'm winning again (I'm at 0.5 BTC now). I might create an indepth guide / e-book explaining my process.

Taking a break for tonight. The 20 BTC I won is not going back into it. It's being transferred to my wallet, sold for USD, and into my bank account.

glitchgxd - December 29, 2015, 3:11 am

Went in with 0.5 BTC I had laying around today and came out with another 5.75...

I could probably make a living off of this method.

And by that, I mean I am one lucky motherfucker lol

Kujo - December 29, 2015, 4:31 pm

congrats man

don't lose it now
