Lit up version ([Click to View](#))

[Video: <https://www.youtube.com/watch?v=saa0mMwe91o>]

Tommy Shelby - December 26, 2015, 5:43 pm

10/10

how did you do this?

does it light up?

Major League - December 26, 2015, 6:28 pm

Can this be made into a GIF with actual neon color and different lettering?? If so I'd be interested for my signature.

1700block - December 26, 2015, 6:29 pm

That's fucking awesome. Would be dope like that member said if it lit up.

goldenarms_ - December 26, 2015, 6:34 pm

Edit: updated OP with a lit up version.

????? lol.

THC - December 26, 2015, 10:50 pm

Nice, not sure if you can edit this manually but the lightup version is a little too uniform, the shadows are a little unrealistic in some spots. Other than that, 10/10.

????? lol.

didn't follow any tutorials for this, nor did I use either of those programs lol. nice try noob

edit: after watching a clip of one of those videos, we don't even do it the same way

?onday - December 27, 2015, 7:21 am

Nice job!

What did you use to model this in?

HighK - December 27, 2015, 1:08 pm

How is this even possible... how..

vxct - December 27, 2015, 1:28 pm

Wow, OP. This stuff is absolutely amazing. I'd be interested in a tutorial.

Modeled in blender, materials and post in blender cycles. Each word is all one mesh.

Ah, makes sense.

Blender is too confusing for me >.<

I prefer C4D, even though it's a bit limiting.

rapidfire08 - December 27, 2015, 2:04 pm

Kesey you should definitely participate in that \$100 logo contest.

been meaning to try out blender, been using c4d and looking to try some new shit.

was it hard to get used to when you first started?

Uberful - December 29, 2015, 8:03 am

Wow this a really cool idea 10/10

no, i followed alot of blender basics and shit for a couple months

Lost Hope - January 14, 2016, 12:31 pm

looks very nice, keep up the good work! ;)

Caffrey - January 15, 2016, 12:58 pm

Looks really nice man, I think the unlit version a lot more though, a lot more, maybe the lit one should fade out more?? But really nice man!

Agitator - January 15, 2016, 1:56 pm

Kesey you're still a douche bag and a tree hugger <3

gacel - January 15, 2016, 4:38 pm

Wow :D Where you bought this neons?

ussef.rekkas - January 24, 2016, 12:05 pm

WOOOOOOOOOOOOOOOOOW
amazing work

Rivalry - January 25, 2016, 5:28 am

Reckon you could do this in Photoshop? Worth a try? Hmmm might give it a go and see how far I can get...

ussef.rekkas - January 25, 2016, 6:00 am

20/20 realy it s a fantastic work ?

ahmedcute - January 25, 2016, 9:24 am

light it with green , it would be so nice

There is no way to do this in photoshop as far as i know

?MIN?M - January 30, 2016, 2:55 am

wow dude I don't even know.. Is that real or not?!

mthejoke - January 30, 2016, 6:08 pm

holy shit this is something I've been looking for.

goldanimal4 - January 30, 2016, 6:23 pm

if you want my honest opinion i would make the wires thinner or make the glass a different color maybe turn up the opacity if possible other than that nice job

no just put a hue on it.

Rasta - February 3, 2016, 8:54 am

These look dope. Love both versions (lit up and non lit up).

Love the version with a hue on it, am a green lover.

Excellent job OP!

ussef.rekkas - February 3, 2016, 1:03 pm

you do this with photoshop or other programme
