Your Malware SetUp Service

I saw many expensive services providing different setups for any kinds of malwares such Rats , Botnets , Stealers , keyloggers and any others malwares....

As i have a quite long experience , nearly 10 years now in the use of this kind of softwares , i have a huge and quite exhaustive list of malwares to set up , including OF COURSE , all the malwares sold here on HF

As you can imagine , some of them are free , some others are cracked , tested and 100% working , but i can also setup any official malware you bought !

RATS SETUP:

My Rat setup service includes all the process regarding the RAT 's use , portforwarding (routeur or VPN) , the build of your server including the explanation on how to build it by yourself and of course , if you do not have yours , the RAT will be provided , DDoSers (rats dedicated to send DDoS attacks) are also concerning by my service

Botnets SETUP:

My service ONLY concerns Http Botnets (not IRC) ddos botnets , loaders and all http based botnets could be setted up , you just have to know that many of them requires some additionnals softwares to be installed like ioncube loader etc...as i DO NOT PROVIDES hosting , you will need to have yours (paid) and these softwares will need to be installed and running if you choose a botnet that requires them such b***bot !

If you do not have hosting , i will set up your botnet on some free host , as my service is made for beginners in botnets , it will not be a problem , you will , of course , not be able to host huge botnets on a free host ^^

List of malwares i can setup :

As i said at the top of this thread , 99% of the malware can be setted up , ESPECIALLY , the ones sold here on HF

we will simply discuss about what you are looking for or what you need and choose the best solution for you !

you will also receive with your malware , your full set up , a FREE CRYPT some tools to help you in spreading , some tips and advices i learnt after almost 10 years of using malwares !

Pricing :

- RATS/DDoSers = 3 dollars (setup + 1 crypt + tips/advice)
- Stealers/keyloggers = 3 dollars (setup + 1 crypt + tips/advice)
- Botnets = 10 to 15 dollars (depending on the bot you choose+ setup + 1 crypt + tips/advice)

Only accepting BT and PM as payment method , Paypal could be also accepted under special conditions

ALMOST everything can be done , so what are you waiting ?

Best Regards

kickrocks - March 28, 2016, 2:41 pm

BIG UPDATE :

- new botnets added
- locker/ransomware available
- spreading service added and running :
 - 40 dollars a week
 - 70 dollars 2 weeks
 - 120 dollars a month

HQ spreading 100 % manually using many different methods
possibility to get ONLY specific/targetted bots , anything will be discussed regarding your goal
