I never made a post in the section yet so i'm not sure if it's as simple as post what you want and some how magically receive your gfx but so far i'm under the impression that's how it works...

So lets get started....

I'm looking for it to some how have my team name in it eXplode maybe my gt if it looks right? If I could get personal gfx for my account that would be dope and would want my gt in it some how for sure, but my personal gfx is not necessary considering I'm already asking for 3 things so that's up to whom ever is willing to help me.

Avatar - Size: 64x64

Team logo - Size: 250x200

Team Background - Max size: 1920x1080, 500 KB

I already have 4 trophies in black ops 3 on the xbox 1 so I think it's safe to say it's worth it :d feel free to hmu on xbl just pm me your gt.

If you want someone to make graphics for you, please provide the size it needs to be in pixels (1920x1080) as an example. Also provide which color's you prefer, layout. Anything to help this go more smoothly. Since people are doing this for free, it is preferred that you list as many details as possible.
