Mr.Luce Guides.

Create an identity.

Start Notepad (or any other text editor) and write your new identity on there.

A good site to generate the identity is here: <http://fakenamegenerator.com>

Choose a young woman between 18 and 25 can pick the best one "young" names like "Jessica", "Courtney" or "Haley" (If it is to be a man, then simply adjust to a man.)

Do not forget to select a country or region.

When you find an address in your desired area, you write down the data in your identity document. (Editor)

Create e-mail addresses for your new identity. It's best to make 3 pieces to Yahoo or Gmail (Gmail Rather), because these providers have no limits.

These you also write in your identity document.

If you use different passwords, these also write into the document, so you do not mess later come or they do forget.

Skype is a very important tool for the E-Whoring. Sign in or create a Skype account, which is located in the region that you have chosen for your identity.

This also write in your identity document.

Now you have a new identity, but now comes the most important point, a picture! You need different photos & / or videos of women (or men). For photo packs I just say Google ... There you will find the one or other packaging. (<http://imgtfy.com/?q=E-Whoring+Pack>)

The E-Whoring begins

Most common methods:

There are some pages & methods for E-Whoring:

Images on chat sites sell (A list of some pages below)

Cam Shows sell (Performed by a VCW)

Sell photos & / or Cam Shows on Craigslist

... These are the most common methods for E-Whoring

Chatroom websites

On chat sites there are two ways your pictures / Cam shows for sale.

Spam - Go into the chat rooms, writing a message like "19F HOT selling nude pics, email me at [email@email.com]" (German: "19W sold HOT / GEILE pictures, write me an email [email @ email.com])).

Social Manipulation - This method requires a lot of time and patience, but give better results (and more money). Choose a nickname that is attractive and clean at the same time. Something like "F19FunGirl" or "NaughtyF19Babe".

You will receive immediately a lot of private chats. Filter out those that are not important to you.

Question "a / s / l?" (Age, gender, place.)

When Vic is a woman or under 18, you can close the chat ..

Use the Chat keywords like "babe, baby, hun" etc. Flirt quiet, but not too "dirty";)

If you play your cards right, then the Vics by itself will begin from the sex talk. The trick is to let the Vic you to respond to at nude pictures. Take a turn on arm.

You have problems like, your parents want you "throw out"

Your friend is "poor me" and you "need money to take off"

You are a student and live alone.

Just think of your own stories in order to achieve better results. Geb the Vics one or two of your naked pictures (If you want to start a cam show, playing the same game before you give your Skype name here. Give him the name and then change to Skype.)

Tell them that you give them your whole collection if you "help" with a small donation. If they ask for further examples, give them a more and if you still want one, you say something like "No baby, sorry .. If you really want them, please help me. I can not give you any more examples, Because I already gave you two. " (German: "I'm sorry baby, no .. If you the images really want, then help me please I can not give you more, because I have already given you. 2.")

If they ask AGAIN, just close the Chat.

Vics find on Craigslist

Craigslist is a huge money machine, if you play your cards right! First you create an account you there with one of the emails you've previously created.

Some pro tips

Here's an example. If you want to post ad in New York, then you will also need a US IP address.

Check to see your IP on a whois website to your present country.

I recommend buying a VPN with many servers. US accounts require verification via telephone, for this you can use the Pinger service.

Craigslist ad

Create a clean and clear display, but watch out for marks and distances! If you write in the title something like "Selling my nude" ("Sell my nude pictures") or "Looking for a man with money" ("looking for a man with money"), will display your tagged and removed quickly.

Here is a good example of what you can write:Quote:Hey boys! Thanks for reading my ad. (: Like what you see? Of course you do! hahaha You can see a lot more if you help me out... (; Here's the deal... I have a new hobby, but I'm in a bad situation. Maybe you can help me?

Get in touch! xoxoxo

(;

Quote:Heyyy! Thanks you for your reply to my Craigslist add! xxxxx
