Thread: [Shark's 5 Year Feedback](#)

**Agent Shark** - December 28, 2015, 10:28 pm

Hey everyone,

You all probably have NO IDEA who I am but I just wanted to give my feedback on HF. I know my time is off ( I believe I'm a little over 5 years? ) but I think it's time for me to give some feedback.

The primary reason I joined HF was because I got a virus on my machine by a user from HF (who is here to this day). This member and I worked together for Xbox modded lobbies. He was my partner until he stole my money and wouldn't give it back till I had to take action into my own hand and seek help from the community. Sure enough, I got my money back and fixed my computer. That's what sparked my interest in security.

So I began to heavily read the White Hat Help forum and the HiJack This forum gaining bits of knowledge of how the HJT Team handled security. After a while of reading, I decided I'd help out in the WHH forum. I received guidance from many incredible HJT people that deserve recognition:

Shink

Tha Sneak

Valiant

Cyrus

Corso

RCDC (forgot his name)

Para

D3xus

There are more but these are the ones I can think of off the top of my head. Shink dealt with me the most. Him and I would CONSTANTLY debate approaches to malicious situations and what to do. We had our arguments but I loved helping.

Although Valiant stole my money after he told me to donate to get into the team, I still respect him because he built quite an incredible group. The idea of being able to read the HJT Team private forum and follow along with how to use certain tools was a huge help in developing my knowledge.

After a while I decided to apply for Ub3r. Once I became Ub3r, things became so different. The ability to access forums of genius content and awesome stuff helped keep my interest. Being upgraded also gave me motives to remain on the site. I do not regret being an Ub3r member and I think I've made tons of money thanks to being an Ub3r. The value of Ub3r is way more than it is set to be.

Groups that I've been a part of:Infamous

Techsperts

Graphic Masters

The Empire

The Brotherhood

The Angels

The Informer

Malvager [old IRC group]

RATs Crew

The Alliance  
NEXUS  
The Black Knights  
Reverence  
Eminence  
Gamers Crew  
Propitious  
Blackshades  
Rhythm  
Respawn

Some groups that I'd like to give a shoutout to: Techsperts: This was one of the first groups I ever became a part of. This was my family when it came to HF. I loved every member who stepped in. Being on Skype with the group till late nights, I learned what I wanted to do with HF and where I stood on HF. After a while, I became a leader of the group and that was an incredible process of its own. I have no bad things to say about this group. I cherish it to this day. Thank you Positive for giving me the leadership opportunity.

Infamous: Similar to Techsperts, I loved this group. This group was another family. Everyone in this group as far as I know, had genuine ideas and aimed to improve HF in the most efficient and productive way possible. To this day I still stay in contact with some of the members and try to reach out to others I remember. If you're apart of this group, say hello! I'd love to chat.

The Brotherhood: Cool group. Got to know Aura and Nas off of it and that was probably the best part.

The Alliance: Teh Hacker and Para made this group incredible and miss it still.

The Angels: Sandshrew ruined it but it was a fun ride.

So where do I see myself in the future? Right here. HF has been a great part of my life and has done nothing but enhanced my knowledge with general day to day functions and I value it for that reason. I hope to see this forum grow more and more. I've seen a lot of things happen on this forum. This forum never seems to get boring with how many situations go on.

Here is just a little shout out to some members that have made this journey worth it:

Corso  
Aura  
Tha Sneak  
Paradoxum  
T3h Hacker (apologize if wrong spelling)  
Positive  
D3xus  
Cameron  
Renowned  
Shink  
Vinnie  
Soldier of Fortune  
Hexicidal  
Viral Dragon  
Xerotic  
Verilog  
Mark Webber  
Xypher  
iNviZ  
TheHackersLove  
Codevade

Roger Waters

If your name isn't on here and you're wondering what I think of you, just ask ?. I don't mind. I also forget a lot of people because of how many interactions I've made on here.

Regards,  
Shark
