You're stupid. You're harassing me over PM asking me to prove myself to you. I'm in the process of getting that false report fixed so quit bringing up the past when you don't know me or have no clue on what that situation was.

Not to mention you interfering in my business; this is why you're poor and was begging me for financial help the other week, because you focus too much on others, rather than yourself.

Fucking community alert. Are you for real?

Dude if he was a nobody and he didn't bother you, why would you send those PMs? It's pretty obvious that you're harassing him at this point. I see no harassment from him, from any perspective. I looked at it from how you feel, obviously bothered. So why not solve it in a civilized way? From his perspective, he's just thinking what's best and I applaud him for that.

Very mature, I am upset. And I admit it, you use your high rep to make others look bad when you are insulted. It hurts deals I do on this site and I don't fond being 'sketchy'. If you are going to neg me can you place another reason on it instead of saying i'm sketchy and no one should do transactions? You have 2.7k rep and people will take your word over mine even if it's a neg because you are upset yourself.

Last few days all i've done here is cause drama? Or maybe I just put people in the light and call people out. I aint scared to call niggas like you out I don't suck anyones dicks. Aurora - December 29, 2015, 9:11 am

Honestly, it's your fault OP for getting into drama. I don't see the point of calling someone out if YOU weren't affected.

If you weren't affected, it's none of your business.

Not taking any sides, but you could have avoid all of this if you didn't get yourself involved.

Inveno - December 29, 2015, 9:13 am

This entire thread is pointless and is just a burden to me. At the time of sending that PM, it was 7AM in the morning, and I was at the end of my line with you and had other plans, not doxing or harassing IRL, like other members say; now, I really couldn't care, although when you keep interfering in my ordeals, you are just fueling me to actually do something, but right now, I really couldn't give a shit, so stop.

You're causing unnecessary drama because you love the attention.

P.S - You're probably a multi, why don't you unblock me and let me find out?

EDIT - Just noticed he is now interfering with yet MORE of my business. Replying to the Onu.im thread telling members not to use it. I'm sorry, but this is just out of order. STOP causing drama, it's an annoyance to everyone around.

I don't really know what's going on between all you guys, I am just saying there is no way the user can deny he threatened you. All you are doing by keeping this thread open is feeding the people who call you a drama queen. Close this -maybe change the title to 'Staff Please Read', report it and move on.

stick to one story and go with it

where did this ddos come from

It doesn't matter if he skype bombed, or DDOS'd you. You can't prove he sent the attacks.

But if you actually sent him threats, and sent his dox to him and his proof is real. Then you should face the consequences.

People get killed and seriously injured when kids SWAT people, when cops come kicking down doors thinking there is a real threat.

It shouldn't ever be tolerated, even in a playful manner.

Both of you have the chance of being closed. I would recommend you both (Inveno & Antediluvian) just junk both your threads or close and edit all the information of it and move on.

I think that resolution is better than the high chances that both of you could get closed. Be mature?

Young Donald - December 31, 2015, 12:21 pm

Junking the thread at this point will do nothing.

I've already seen Rogers Waters reading this, and Omni will probably read it since its the hottest thread on HF at the moment.

I fucking hate scammers, I fucking hate liars who use their connections and notoriety to kick others down.

Zayzo what did I do to deserve a closure thoYou are a multi - however just being a multi won't get you closed. The fact that you are creating as much drama as you did on your past account may get you closed.

There is a chance there, and if you truly don't think so you need to re-evaluate. I'm not taking sides but both of you surely can realize that there are things you've done recently that give you a chance of being closed.

Why not just be mature, settle your differences and try to agree with Inveno to junk his thread and you'll do the same?

If you resolve your differences - Omniscient won't have to intervene. I don't think you have much time left to resolve. Probably less than an hour.

Why do you keep on threatening the OP?

Just forget about it, you are just giving him and staff more ammo to exile you.

And OP, stop posting rap links and irrelevant replies if you want to be listened to.

Regardless of whoever started this, it takes 2 to do the tango.

And even after this much time, you both has demonstrated that neither of you are big enough to just

ignore the other person.

This isn't even a scam report, or deal dispute, yet you guys are bickering like you lost something.

Whats the end result here? To get the other user banned? It might backfire and blow up in both of your faces, as I have personally seen it happen before.

you want someone to dox you and coerce you into doing things you dont want?
because thats what he did

1. Members are not allowed to engage in threatening behavior toward other members. This includes flaming. Also threats to steal accounts, dox, or swat. This includes any on-site material such as posts, PMs, or profiles.

pretty sure the pm hes sent me justifies all of this

If he sent you a PM that broke the rules.

Why are you making a thread?

This isn't a public court of opinion. Message Omniscient with your claim, like everyone else does, and move on.

If your allegations are true, he will be dealt with.

Community alerts are for site-wide warnings, for scammers, and fraudulent activity.

Hackforum does not need to be alerted of a personal dispute that turned ugly.
