Thread: [\[AutoPilot\]AddMeFast Bot \(Thousands of followers/likes/tweets etc.. \)](#)

Hello HackForums!

In regarding of the post that has been made by Vali Lucifer in 2012..

Link: <https://hackforums.net/showthread.php?tid=3122753>

It hasn't been so up to date nor easy to find scripts online anymore.. so i found a bot that does the same thing faster and without opening windows and going around browser, it is just a program. It's a BETA however there might be a release soon of the official program, it works, has some bugs but works. I will update the thread if there is any update of the game or if the official one has been released.

I do not own the program it is made by someone called Parlez, however, since it is not on this Forum i thought i'd share it with you guys because some might find this helpful!

Post below or pm me for the link
