Spoiler ([Click to View](#))

Are you sick of buying methods that make you no money at all that cost you \$50 a time? I was too! Then I developed my own method that made me \$1000 in November alone! This method is super noob friendly because I do all the work for you!

You're getting 2 methods for the price other sellers sell one!

Take a look below at my thread design and pricings

I just want to point something out.

I have OP on skype and he has asked me to vouch for this method declined because I stated I dont vouch for ebooks.

Recently he asked for a bump (no problem).

Thats not the issue.

I have OP on skype because he wants help earning and mentoring in the CPA/PPD field.

OP had problems buying a Domain and Hosting during my teachings. He presented two different excuses,

excuse 1: My paypal just got limited.

excuse 2: I lost my bank card.

You could be telling the truth, and if that's the case, sorry.

I then asked OP to show me proof of earnings over skype screenshare/join.me + Asked for a vouch copy and said if its a legit method, I will give a real vouch.

Our conversation was pretty live until I said that 10 minutes ago ^

Im not calling you a scammer, or your method fake. But surely Im curious why are you selling this method if you wanted assistance with CPA/PPD.

Sorry bro, Im not a deceptive guy, even if I do have you on skype ->Except for that rep I left you, which I need to change when the 24hour limit is up. Sorry bro
