doesn any one hear about this russian program its tool for hacking sites

this is it's website

<http://robosoft.su/brut.html>

and here cracked version

<http://rghost.net/6GDb8SYpR>

if any one know any info. about this program just reply here to share knowledge

hi dude //

not bad program bro ..

that program like a hackbar ... but acunetix and vega More powerful ...

PBS2 = normal hacking tools bro ..not Pro ..

and hack with tools = easy way and beginner options ...

you should work with your knowledge and make your own script for hacking ..

good luck ..

you mean this not hacking tools just vuln. scanner not hacking

i know that hacking is not the easy way

i just ant to ask if there is another ways to get sites databases than sqli cause my databse supplier told me he use exploits and get more good db like 5KK db list

what mean hacking tools exactly ?

hacking tools = help us for analyze target like Havij..

that tools = analyzer and help u for hack your Traget In less time//

Not bad ... just download and use it ..
