I like the Glitch effect one. Maybe speed up the 'glitchy(ness)'. A bit slow. All the rest are good I guess.

Ummm, you didn't make the first two. You definitely made the thread design because I know for sure that the standard of work put into this is completely worse than the illustrations.

i wish i was this handy with this kind of things :(

MoabGFX - January 2, 2016, 10:09 am

Great work man! Props! I really like it :)

Then you need to specify. These people think you have made these from scratch. You're taking credit for work you haven't done, that's low.

Kind of ironic. Picasso didn't use stock images.
