Thread: [1 day contest! \\$3.50 - One winner :D](#)

SIM-2306826 - *January 2, 2016, 1:50 am*

I'm holding a basic contest. It will end today at 8PM EST, or if somebody wins. I need a new username.

I'm going to start modding with my new RGH so I would like my name to be something sleek and cool that could possibly have the word Mods after it. I also like to do web programming.

Suggest anything and we'll see!

Winner paid in PP.

ABC Mods and things like that.. The names are so annoying and unorginal. You have to create your own style. Like you're a person and not a robot.

Everything that ends on -vic, -os or -vn sounds and looks great.
