Thread: [Imminent VS luminosity](#)

axmaxmax - January 2, 2016, 4:33 am

I'm curious, which one is better out of the two?

What are the advantage and disadvantage

ToeCrusher - January 2, 2016, 4:37 am

Luminosity would be the better one because of the array of features and especially the RdP feature.

The only advantage of im4 over luminosity is the remote desktop which is incredibly fast and smooth.

axmaxmax - January 2, 2016, 4:55 am

ok thank you for your response has made it his her you find different

talal33 - January 2, 2016, 12:24 pm

Luminosity Link is AK-47 of RATs

?Syria - January 2, 2016, 4:40 pm

Both rats are good but IM4 is better trust me take it from someone who has all the RATS on HF

Root - January 2, 2016, 4:42 pm

Imminent is wayyyy better then LL.

iNeed Sleep - January 2, 2016, 6:17 pm

I'd have to agree with Valentino, Luminosity has a wide array of features and especially is very fast an efficient. That's what I'd use.

Gameh3x - January 2, 2016, 7:50 pm

Imminents password stealer never seems to work for me.

?Syria - January 2, 2016, 8:09 pm

Hey yeah, pretty sure he does. I even tried using it on myself and it didn't work. Dont know what could be the issue.

Brutal Chaos - January 2, 2016, 8:38 pm

I have both and I'd say luminosity is better, IM4 has a great live keylogger though.

uDes - January 2, 2016, 8:40 pm

You're joking right?

Hello Buddy - January 2, 2016, 10:58 pm

I'd pick LL after having experience with both of them.

?Syria - January 3, 2016, 7:58 am

(Jan 2, 2016 09:40 PM)uDes Wrote: [\[CITE\]](#) You're joking right?

No he's not I have bought every RAT that has existed on HF and IM4 is the best

Root - January 3, 2016, 8:08 pm

I do not think I am a Comic do you?

I would not joke about this because there is no reason to do so!

IM3-4 Are way better then shitty LL. Yes LL has bunch of functions but who cares?

I can make all those functions with plugins easy!

?

iLogic™ - January 4, 2016, 7:12 am

LL is better and it has got great support.

Armada - January 4, 2016, 7:30 am

I swear, I am going to start reporting these Rat v. Rat threads as LQ spam soon.

Seriously, you new users need to learn to read the forums before ever hitting that new thread button.

This question get asked ATLEAST 3-5 times a day.

The answers dont change either. They both boast a robust set of features, standard and unique. It boils down to personal choice. Pick your poison, and stop opening useless threads.

Mr.Luce - January 4, 2016, 7:36 am

Luminosity all the way,IM is not worth it.

enigma125 - January 4, 2016, 10:40 pm

IM sucks in support, owner doesn't care to reply customer query's.

Do you have a copy of Imminent Monitor 5.0.0.89 and/or LuminosityLink Workstation?!
