Thread: [\[LEGENDS HELPDESK\] Residential, Private and Fast HTTP/Socks Proxies](#)

MafiaServ - January 2, 2016, 7:34 am

As the Title says, I am helping out members with "Residential, private, fast and clean HTTP/Socks Proxies".

Just post on this very thread, stating which city/state/country do you want, and I will hit you up with the HTTP/Socks proxies from the desired location(s). Please be specific with the location instead of requesting "South America", "North America" or "EU" etc.

This is not that scrapped public stuff, but obtained from private resources. So, what are you waiting for? Let's start this.

NOTE:

You can ask for a bunch of (5 max) HTTP/Socks proxies from random locations (of my choice) as well.

These are the Private HTTP/Socks proxies, don't ask for the "lists" please.

Everyone will be given out both HTTP and Socks proxies from the desired location(s).

You need to have at least 50 posts, if not an upgraded member.

You must have neutral or positive rep.

You must not have warning level above 50%.

Best Regards. ?

Just post on this very thread, stating which city/state/country do you want, and I will hit you up with the HTTP/Socks proxies from the desired location(s). Please be specific with the location instead of requesting "South America", "North America" or "EU" etc.

This is not that scrapped public stuff, but obtained from private resources. So, what are you waiting for? Let's start this.

NOTE:

You can ask for a bunch of (5 max) HTTP/Socks proxies from random locations (of my choice) as well.

These are the Private HTTP/Socks proxies, don't ask for the "lists" please.

Everyone will be given out both HTTP and Socks proxies from the desired location(s).

You need to have at least 50 posts, if not an upgraded member.

You must have neutral or positive rep.

You must not have warning level above 50%.

Best Regards. ?

Hey man I'm looking for a guide on SOCKS, what it does, how it works, and how to set it up properly. Do you think you could point me in the right direction? figured i'd come to HF before i go to youtube, you never know if people know what they're doing or not and could wind up fucking up your whole computer or getting a Virus.

Any help is appreciated
