Thread: [Fast Question about https://www.cloudflare.com](https://www.cloudflare.com)

Root - January 2, 2016, 10:08 am

So I hacked someones www.cloudflare.com how can I take down his webs and make it that shows my index?

I heard you can do that with cloudflare.com changing index or making it redirect to another page.

Guy stole my work and my design ;(
