Thread: [Anyone remember the infamous BooterDown by Orgy? LOL](#)

Loser Douche Bag #35 - January 2, 2016, 8:36 pm

Anyone remember that shit? It was from 2011 so I doubt most members here would remember but yeah. It was a thing which codevade I think and Orgy started where they defaced several shell booter websites and exposed their shells. I'm still to this day surprised about the amount of shit Orgy has done but never got in trouble for any of them. He is the only true seller who has truly survived HF without being closed (ex: vinnie, anonymous, etc.)

Doesn't have to be an HF user to know people or know what's happening on other boards

Xerotic - January 3, 2016, 12:34 am
That stuff was crazy. I wasn't involved in it, but it was insane watching it. People were getting shut down.

PVCK - January 3, 2016, 12:36 am

Weak copies trying to ride off of our success.

It got annoying being imitated so much.

JoshAllen - February 3, 2019, 4:57 pm
Is Orgy even on here anymore?

He's involved in a few projects off site and hasn't spent much time around here lately.
