Thread: [JUNK: Free HF Upgrades/Awards \(35 members\) \[Contest Ended!\]](#)

glitchgxd - January 2, 2016, 10:17 pm

Everyone has been upgraded. Thank you for participating!

UPDATE #2 (01/22/2016):

I have already upgraded/awarded and sent PMs out to 16 members so far.

There is one member I've upgrade to UB3R who hasn't received the upgrade with all of the others yet for some reason, and two more that haven't received there awards yet with the others. I believe this to be a processing issue and will contact Omniscient about it if they don't resolve within 48h.

Another member should be upgraded to 3P1C soon, but I'm waiting for confirmations.

For the remaining 5 LTC award winners, these awards will come, but I can only do so many at a time due to CoinPayment restrictions (no more than 3 uncompleted transactions within a 24 hour period). Some transactions take upwards of an hour or more to receive all of their confirmations, and I'm still waiting for this 3P1C, so you can see where the delay is coming from. Rest assured these awards will be sent.

Again, congratulations to all of the winners and have a good weekend everyone!

UPDATE (01/21/2016):

The results are in! Congratulations to all of the winners. You will be notified upgraded within the next 24 hours.

Below contains the full set of results I compiled. I used random.org to select a number from 2 through 270. The number selected is pertinent to the post count of the user (at the time that I went through to choose them).

As you can see, there were actually 59 selected, but out of those 59, only 25 "won", whereas the other 34 either had an invalid format for their application, were a repeat, already had the prize, or were my own posts.

Again, congratulations to the winners. You should receive your prizes within the next 24 hours. I need to get some rest for tonight, so I'll try to get these upgrades done throughout the day.

Original post:

In light of my recent insane luck and success with gambling, I've decided to give back and upgrade members.

Read the entire post or you won't be entered. Many posts have already been ignored for not reading.

I have already upgraded the first 10 members who applied for L33T/Ub3r upgrades that read these rules. Their profiles are linked below this post.

To enter this contest, you will need to leave your UID, one reason you love HF, and the prize you want in a post. The prizes I will do are the Emerald, Gift, Litecoin awards, or upgrades for L33T/Ub3r/3p1c. There will be no monetary supplements.

I will be selecting 25 members randomly in a list I create (using random.org probably) by January 20th to upgrade. Upgrades will then be processed sometime between the 20th to the 31st of this month.

I will DQ anyone that doesn't seem fit to be upgraded. Members that I like or that have high rep/activity will be entered up to 2-3 times on my discretion (and possibly advice from other members). If you enter more than once yourself, you will be removed from the list. If you PM me asking for upgrades or free BTC/PayPal, you will be removed from the list. If you do not include your UID in your post, you will not be included in the list. I've upgraded multiple members before, and this is what I found to be the easiest way to upgrade mass amounts of users.

My main reason for doing this is that I would have never gotten into BTC or anything if I wasn't a part of HF. I'm glad you all introduced me into this online currency world.

Good luck!

Any 3pic? I would like that but have the others haha
Or maybe an award :p

Deany - January 2, 2016, 10:19 pm

Can I get an award instead?

For the second set of 25 members, I'll do 3pic upgrades, but I need to upgrade myself to 3pic first otherwise it wouldn't seem right.

Kaneki. - January 2, 2016, 10:19 pm

EDIT: jk, not approved for ub3r, thanks for contributing though.

Black??????????????? - January 2, 2016, 10:19 pm

i hope i am in the 10 /25 chars

Edit: Fortunately, I was one of the first 10. Thank you so much for doing this OP, I just got approved for ub3r (on the 29th of December) and I feel this would be a great way to start the year.

Happy New Year and may your year be filled with Happiness and prosperity ?

Clean Gurn - January 2, 2016, 10:19 pm

I'd love to be upgraded man, not sure if I reach the requirements though...
If I don't then good luck to everyone else and happy new years:D

King of Diamonds - January 2, 2016, 10:19 pm

Doing any for awards? haha

Y?ung Thug - January 2, 2016, 10:19 pm

I'd love epic if you would be so kind

Make's sense. Any awards in exchange for the rank since they are about the same price?

76ers - January 2, 2016, 10:20 pm

I would love to get Ub3r :D (Still waiting for a response)
I would appreciate a gift or emerald award or 3p1c if I can't get ub3r :)

If i didn't make the 10:

UID=1427039 , I love HF because the community is so diverse with people of different skill sets.
This is also the best forum I have ever signed up for because there is actually a community whom strives to help each other.

n3y4k0 - January 2, 2016, 10:21 pm

I'd love a gift or ep1c if I'm not too late, thanks. :o

glitchgxd - January 2, 2016, 10:21 pm

No one is following the rules lol, the first 10 slots are still all for grabs.

Reason I love HF: Well I may not have been here long or be the most HQ member but I like the community and had a great time on Tynychat tonight with Elegant and some other fun members. Just generally a good place to be with good, fun and kind people on it like you. Okay... Now it sounds like I'm kiss assing.

Thanks man!

Are you giving away awards? I already have 3p1c/l33t and my application for Ub3r hasn't been checked yet (it's in the queue)

An award of the same value would be fine if you are indeed giving out awards (uid=2901733)

edit: my reason: I love HackForums because it is mostly filled optimistic people and people that are fun to be around. I've made lots of friends on HF and I'm sure I will make more.

UID: 2601912 I love HF Because it has given me the opportunity to expand my knowledge to an unimaginable level. I have met so many people and had the chance to make a ton of money with the people from this forum. I hope you take this into consideration and let me have the award. Thankyou!

glitchgxd - January 2, 2016, 10:35 pm

I'm going to have to make an excel spreadsheet I think for this.

So far only one person made it in to the first 10, and they will be upgraded soon.

All 3p1c/award entries (that read the full post) have been noted and will be added to the contest for the 25 member drawing.

I will not be doing monetary supplements at this time.

Reason i love HF?

Well i love to test new games so everytime a new game comes out i always buy it. But HF is something else. I love to test new programs coded by HF members so reason im on this forum for this long is because many members are coding nice stuff and i always buy something that sounds interesting just like games.

Thanks for your giveaway i would like to win the EPIC upgrade or any award..

Reason why I'd like L33T: As you can probably tell I'm not exactly a long time user, I haven't been here since 05 like some... But I still plan to be HQ. I'm trying my best to be high quality at the moment and try and make each one of my posts helpful to other members, but as a regular user there's only so much I can do.

I'd like to be L33T because in general I like the HackForums community a lot already. I like the people in it and I like the way it is. The way everyone likes to have a laugh, how everyone had their own little celebration for Christmas and New Years and such. I love it!

I think HackForum's is a great place and there is still much more for me to learn, which I'm sure I will as time progresses.

Now, I'm not even sure if I'll still qualify for the first immediate 10 but if not I'll happily wait and see if I can possibly get in the lucky dip bag for the close of the month.

I think that's about all I have to say to be honest, apart from thanking you for hosting this competition. Not many users would do this, most would just brag of their earnings and that would be

that. But instead you've decided to give back to the community and rightfully so, as it's a great community!

I wish everyone else participating in the competition the best of luck and a happy new year to everyone, make it a good one!:)

I'd like to try for the emerald award (Second time lucky?)

UID: 2803019

Reason for Upgrade: I've been on this site for a while now and plan on doing business. Unfortunately people don't trust me enough and I end up going first. As a result, I end up getting scammed (got scammed by Languages for \$143, don't do deals with him) I feel that getting an award will make me more trusted as I am not going to mess up an account that has awards and stuff.

If I do win and you choose to ignore me because I already won once, I understand.

Good luck everyone ?

I would love to even get the opportunity to get l33t. I have come onto hackforums daily for the past half year and its one of my biggest New Year's resolutions is to become more active! I have it bookmarked on my phone and soon am going to start bringing HQ products to sell with the HF community. Im still loving this site more then any and for some reason im addicted. I have no idea how but it seems like hours fly by when im on here. Like today for example, I spent 4 Hours browsing and pming/replying to people and it seemed liked less than 20 minutes, I was in shock. I would l33t so I would be able to give rep's to those who deserve it and give back to the community + (a sexy sig as always !). Overall I would love to get an Upgrade to l33t and would forever so boost my motivation to contribute more and more. Thanks so much for this opportunity, ill ever be so grateful if i win. Thanks Again!!!!!!

I know, that was after you changed the requirements though and I really wanted a chance so I tried to get my posts up. I did make sure to make them as HQ and helpful as possible though, if that counts for anything. I was just excited, that's all.

If not I'll wait. Thanks man:)

Hi Sir,

Would love to go for a Award.

UID - 640835

Why I Love HF -

Joining HackForums was a fluke! Actually a Google search landed me here. But, it was love at first sight. You can very well identify a well moderated forum in a short time span.

The favourite thing I like about HF is the flood of knowledge that flows here that gives an opportunity to both LEARN & EARN. A vast community with open hands, a ton of people willing to be friends and very well know how to carry forward the friendship. So, for me it's the LEARNING & EARNING one can get in HackForums is the best that attracts me.

Right from the year 2011 (my joining year), there are countless moments that I have learned one thing or the other from this awesome community!

I love HF! ?

I would like to add that I have been contributing to the HF community from the very beginning of my tenure. It can be in the IT section, suggestions for improving HF, Giveaways, In lounge chatting with my friends, Gaming and last but not the least in the Monetizing section with some unique earning methods.

I earned L33T, UB3R & 3PIC by winning competitions only! I can easily say; HF is my second home now! ?

Last but not the least, a big thank you for this awesome contest.

iLogic™ - January 3, 2016, 2:15 am

I love HF because there are a lot of materials and you can learn from them. Also there is nice community. So that is why Im entering for L33T upgrade.

Stashy - January 3, 2016, 6:14 am

I think the one main reason I love Hack Forums is because of all the resources the community has to offer in all sorts of ways and for all sorts of hobbies and fields of work -- hacking, coding, news, editing, gaming, lounging, monetizing, and just pretty much anything you could imagine all on one website. From my very brief time here, I've learned some pretty useful things, and now I'm currently looking into getting better with Sony Vegas and Photoshop thanks to all of the information available in the GFX sub-forum.

I love HF because I guess it brings something new everyday. I've been a part of this forum for a long time, obviously not as long as some others but still.. and I feel like every day there is something new happening, anything from a troll or to some drama.. maybe it's a little thing but in the business of each and everyone of our daily lives, it's good to slow down sometimes and explore what this place has to offer.

I would love to be entered for the emerald award, thank you and good luck to everyone

I have just recently joined HF my friend showed me the site and I instantly fell in love. I believe there is lots for me to learn here and can't wait to dive in and build my reputation.

Don't think I qualify for an upgrade just yet so i'd like to ask for a gift award.

Thanks for the giveaway and GL to all those that enter.

I just want to thank you this. I love hack forums because of the endless possibilities it provides me with for my future. I'm going to college for computer science, and without Hack Forums I would not have gotten into this field, and most likely would not have come to know the things I know now. I love how friendly everyone is in providing feedback and support in any project I have, or any problems I encounter.

I would like the ep1c upgrade if I win! Thank you!!

Reason I love HF: I love HF because it connects people; it's not just a forum, it creates a community that acts like a family. Sure, there are a few fights here and there, but the love between members is astounding, and there's a vast wealth of knowledge available for members. Just look at the giveaways that people do, like this one!

I would very much like to get more engaged in the community and I feel restricted because of the PMs filling up my inbox, so that is the main reason why I wish to become l33t, second reason would be to look more trustworthy in means of my upcoming services, I may try to code more software and give it away(I like opensource) and to be able to do that I need members to trust me and I feel I would trust a L33t member more than a normal members and therfor I would love to become upgraded in this giveaway/contest.

Reason(s) I love HF: Many to be honest. Despite all the knowledge someone could easily get just by lurking around forums and sections and then finding his obsession that he never found before, there are certain things that makes HF a special place. It's a combination of the contest of the site with the community that is actively working on it of course with the help/assistance of the staff. You can always find people that would help you in no time, advise you or guide you through a lot of things. There will be always stories coming up, news poping up all around, hype and everything that will let someone kill his boredom off.

Prize: Personally, I would prefer the Emerald award.

Thank you very much for this contest. ?

Well initially I did plan on entering, but I just skipped over OP post and assumed either I just had to say I'd like to enter, or list some of my contributions to the community. one reason you love HF:

It has allowed me to learn a lot of things I wouldn't have otherwise been able to learn such as the mass variety of topics and discussions in the botnets section. I have been able to learn a lot from the free services section from hq ebooks and such that users giveaway. I came here to learn and I continue to do so everyday and I offer every bit of knowledge I have to anyone who seeks.

and the prize you want:

uber upgrade

I can tell you first hand that Knowledgeable has assisted me with a lot of my former projects.

Prize: emerald.

UID: 984082

Reason: I love HackForums because the site has led me to many opportunities educating myself on tech, programming, and even political views in life. Being here led me to meet many new friends and great business partners. If it wasn't for HackForums I don't think I would have a home online. This is the place I come to because I meet people with my same interest and I can learn from everyone.

Prize I want = Emerald Donator

Reason I love HF : It's because HF was my starting point of my journey of E-income & also I got many opportunities & respect from members in past for my talents in GFX & other stuff. I miss the groups I have been a member of: TechSperts, BlackKnights, The Wraith, Marketers & have got great love & respect from people of these groups. Overall I wouldn't be anywhere in tech world if I weren't a member of this awesome community. I learned 80% of what I am from here.

I am long here and i love HF because here is a lot unselfish guys who trying to help and to share cool stuff with us,give us ways to earn money and to get something free ! I wish on this forum to grow up !

Prize can be some from L33T/Ub3r/3p1c its on your choice...

I was never been upgraded on some forum and this can be first time :)

Romantic - January 16, 2016, 6:33 pm

I'm hoping to win the L33T Upgrade! I have been apart of the forums for a few months now and try my best to remain HQ! I am frequently in the marketplace and have made only safe trades up to this point! I have had no complaints with my trades and Also have a few items I would give away in a contest if upgraded! (I am unable to post in the member contest section at the moment)

I've recently discovered the "Small Favors and rewards" threads where I've been doing whatever I can to help out those members, upgraded or not!
