Let us save some time

Not all of these are linked to the optimal viewing site. For example, Desolate Era would be better to read at readmanga.today (without a manga extension like chromes mangaviewer) but with an extension it is better to read at mangareader than mangahere. Just use the links as a name and summary guide. All of these have been hand selected, but that being said these are not all that I have but just what I can gather up on the top of my head.

with the manga you listed it looks like you are going for something that is more action heavy with
light romance / random undertones, correct?

Tower of God might be a little bit shounen for your taste, but check it out anyways, it's a long story
and you might like it. Give it 30 or something chapters before making a decision.

@alexander gremory

shoutout to The New Gate, has an amazing light novel.

I'm actually surprised Zhan Long isn't on that list, have you heard of it?

Yes I have and I completely forgot to list it. It is now in the shoutouts and level up section. Thanks

for reminding me.

Also, The New Gate is an amazing manga and also an amazing light novel. Sadly I just am not interested in light novels. It makes me sad because all my favorites are amazing light novels... I want to read them but can't :/. Thank you for mentioning the LN, it reminded me of an amazing, fucking amazing, light novel and an above average manga:

http://www.mangahere.co/manga/gunota_ga_mahou_sekai_ni_tensei_shitara_gendai_heiki_de_gun_tai_harem_o_tsukucchaimashita/

I have added this to my biggest shoutouts and would like you to check it out, either at a manga site or just read the light novel at wuxia, regardless a fantastic story.

Lost +Brain

Genres: Mystery, Psychological, School Life, Shounen

Synopsis:

Spoiler ([Click to View](#))

[quote]

This is the story of a very smart student called Hiram Ren who is used to always getting the top results in his school, and is the chairman of the student's council. One day, he walks past a group of bullies and asks them to leave--and because of that, they decide to teach him a lesson. They decide to beat up a couple of guys and they reported it to the teachers, blaming him.

Hiram becomes enraged by it and so he decides to attain some power that could allow him to change the world to a world that he wanted; one without such pathetic people.

Coincidentally, his vice-chairperson called him and asked if he was fine with her inviting a hypnotist for some event at school to hype up the school population. Thinking that the ability of hypnotism is just what he was looking for, he agrees to it. During the "trial" test of the hypnotist's ability, he set up some plan and later on used it to test if hypnosis was able to hypnotise people who were avoiding it.

With his new found knowledge, how will Hirama use this new power to reshape the world?[/quote]

I'll give it a try.

im looking for a : Manga(s)

my favorite genre / tags : Romance, Shonen, Seinen, Slice of Life, Highschool, Harem, Ecchi, Hentai (not plain hentai, I want it to be a complete Manga, have a plot, etc. like Nozoki Ana).

i want something like : Domestic na Kanojo, Nozo x Kimi, SE, Usotsuki Paradox, Imasugu Oniichan ni Imouto da tte litai!, etc. Basically, anything that fits in my MAL list.

i dislike these genre / tags : I don't really dislike any genre as long as it comes with other genres I like.

i like short / long stories / one shots : I prefer Medium/Long stories. If there's like 15-20 chapters, but it's 40 pages per chapter, I'm okay with that as well.

mal / other mangalist link : <http://myanimelist.net/mangalist/Aura>

I know a lot of the Manga I listed have a shitload of Ecchi/Hentai, but I really don't care as long as there's a whole story behind (mostly Slice of Life aspects, reflexion on life, etc.). I'm also reading them in bed before going to sleep or else to relax.

I am looking for a: Manga

Favorite Genre: Haven't read much manga, however generally I'm up for anything that has a good story, character development, and the in-between. I guess specifics if it will help could be sci-fi, psychological, action, etc (I'm up for anything really except hentai manga)
