Grammer 10/10

Easy of use: 10/10

Skid Friendly: 10/10

This eBook covers everything you need to start spreading some very nice methods however there is a couple of really saturated methods in there, eBook goes into depth on how to hide files and further more trick people into downloading your infected file.

Once this comes out for general purchase, I will be paying for this copy I believe this eBook is of good quality and I believe this user has put a lot of time and effort into this eBook and therefore I should be paid for it.

***** THIS IS A MUST HAVE ****

Thanks

Quote>Edit: Really nicely designed and completely readable eBook. No spelling mistakes at all. Some methods I already knew, super helpful to a beginner though. The other ones I never heard or thought of, completely fresh methods. Doing method 4 and 5 right now, will edit later at how many bots I've gained from them.

Long story short: This is a 10/10 eBook and I super recommend it to both new and old spreaders.

Quote:I received a vouch copy of the Premium version of Solar Spreading. Here is my review:

Originality: (8.5/10)

Most experienced in spreading will know the first few methods. It's the last method that's the kicker. OP came up with it on his own, and it's really impressive to be quite honest.

Grammar: (7.5/10)

For the most part it was easy to follow and understand, but a few slip of the fingers resulted in spelling errors.

Layout: (9/10)

There were pictures where needed to assist you, but not excessive. OP doesn't try to extend the length of the ebook with useless pictures and graphics. It is straight forward and to the point.

Overall: (9/10)

For beginners in spreading, this ebook will be perfect for you. It walks you through step by step each method. For those experienced in spreading, buy the premium version, the last method included with it is worth the price alone. I'm really impressed with this Ebook overall and would definitely recommend purchasing it.

I find the Quality on this e-book quite good love the pictures and how it looks.

-All Together-

I really like this e-book.

It is easy to read and to understand, also there are some great spreading techniques in there that i have never even thought of!

all in all i must give a very big vouch to ~Solar~,

This was a great e-book and i saw that much effort and experience was put into this e-book.

I find the prices for the different e-books are just right , i would definitely buy this great spreading guide!

Eru Chitanda - January 4, 2016, 7:51 pm

First of all thanks for giving me a vouch copy, and I wish you the best of luck for your sales!

Originality: (9/10)

One of the best ideas to spread your rats, never actually thought about it.

Grammar: (8/10)

For me whole the ebook is fine but there's some errors in spelling and stuffs but the content is still good

Layout: (9/10)

Picture for easier understanding and will lead to success, and for \$10 normal version and \$20 for premium its worth it, definitely trust me

Overall: (10/10)

Its a must buy to all beginners who wants to be successful in the fields of RATS/Botnets and stuff, easy to follow, picture guides cool support and one of the cool guy in forums. lightning fast support aswell.
