Hello everybody, some of you know me well, and others, not so much. If you're interested and serious about making money online, then you have come to the right place. I will be offering myself as your mentor to help you earn money online. I will be giving you some private methods, that I use personally to earn online. We will have one-on-one mentoring a few times a week. This will go on for 1-2 months until I feel you are comfortable on your own with what I have taught you. I will guarantee you will make your money back while working with myself. The price for my mentorship is \$100 flat rate of Bitcoin only. If you have any questions, feel free to message me and I will get back to you as soon as I can. If you want this mentorship, fill out the form below and post it or message me it. Have a nice day ?

Cool idea in theory. Out of curiosity, how much are you guaranteeing your students will make? Also, your methods are white/grey/blackhat? More info would be cool. I have seen you around and do not have any doubts about your knowledge. Best of luck to you and your newly found service.

I can provide Whitehat and Grayhat, Blackhat is not allowed on this forum. I will guarantee my students at least \$200 per week, and by the time I'm done I want them to be making at least \$300 per day.

King?????? - January 7, 2016, 5:25 pm

If you're students can make 300\$/day with your method, then why the fuck do you sell it for 100\$?

Past Earnings? 2 40hr weeks got me about \$800-\$900.

Any certifications? I'd like to know what certifications matter. I'd get them if someone could explain them a bit.

I have a lot of marketable skills, and I just got done with High School. I'll have all the time we could need.

I'm in a rural region where there aren't jobs for a lot of the people, especially in winter when there is less oil and gas work. I live alone and I'd like to have more than just an unemployment check for \$427 every two weeks. Can you make this happen?

It'd be cool to hear from you soon. My skype is nesquikhf.

How do you make your money (no details just a general idea)? My real life job, exchanging, and Fanduel

Past Earnings? It fluctuates, I can make anyone from \$50-100 week extra online but its been a rough last couple weeks. Lost a ton of money.

Any certifications? I do not.

What do you mean by guarantee? Refund available? I purchased Grievous' mentorship a while back and he stop contacting me so I ended up losing about \$200 dollars. I would really love someone to work with me and not provide me with a list of methods to try and pretty much say "good luck". If you are actually going to teach me one on one and answer any questions, then I am interested. Also do any methods involve no investment at first? If I purchase this mentorship, it will mostly be all the cash I have left in paypal.
