Thread: [SkidTools.NET - Advanced IP Logger w/ Porn Screamer + More!](#)

Oxyde - January 4, 2016, 9:36 am

NOTICE: The website is currently under development of adding more tools, so atm it's pretty empty however the IP Logger is completely done.

How to get access:

Simply visit: <http://skidtools.net/> & register, then that's it.

It also has a IP Storage, where you can store IP's along with a comment.

Current IP Logger Features: Custom HTML.

Deez Nuts (YouTube Video)

NSFW Porn Screamer (Very loud, you might of seen such on FB etc)

Redirect to URL

Invisible Image

Auto Geo IP Lookup

Auto Update (Gives a small pling sound once someone has been logged).

Shows OS & Browser, if available.

General Tools: Advanced CloudFlare Resolver

IP Storage

Instant Geo IP Lookup

TCP Port Scanner

The IP Logger is a prntscr clone domain, which is barely noticeable. If you have ideas to domains we can add, that are available i will buy/add them straight away. As well as extra IP Logger Features.

?Stark - January 4, 2016, 9:48 am

thanks

just registered :)

Gallant - January 4, 2016, 9:57 am

Vouch for his service. :Blackhat:

Thank you again for returning that service to life.

Support4You - January 4, 2016, 9:58 am

Just registred but is it also to change the skid link to another link so it wont be suspicious

ze aun - January 4, 2016, 10:01 am

i also just registered thank you for this site keep up the great work

I don't understand mate? ?

Support4You - January 4, 2016, 10:05 am

Srry my english is bad i mean the link is like http://prtnsrsrc right, but isnt there a way to make it show like youtube dot com or something

Oxyde - January 4, 2016, 10:24 am

No.

We would need to own the domain to do that, or a clone domain which is pretty hard when it comes to YouTube =(!

Caka - January 4, 2016, 1:17 pm

i need a tut for the iplogger can anywhere help me?

Llama™ - January 4, 2016, 1:22 pm

Pretty good stuff. I'm about to make a huge DB here.

Oxyde - January 4, 2016, 1:43 pm

No idea what you mean ?

Updated site with some more tools btw.

LustWare - January 4, 2016, 2:05 pm

unable to login for some reason, just keeps refreshing the login page.

Oxyde - January 4, 2016, 2:10 pm

(Jan 4, 2016 03:05 PM)Peakz Wrote: [\[CITE\]](#) unable to login for some reason, just keeps refreshing the login page.

Just updated the password algorithm to a more secure one, should work now! If not, lmk.

He meant that he is going to gather a huge database on your website. ?

Which is thanks to your tools.

Stashyy - January 4, 2016, 3:20 pm

Well this is a nice site op. ;)

Can't wait to start using it. P:

Oxyde - January 5, 2016, 3:06 am

I just checked the database, we have over 13,000 IP Logs.. What the fuck is going on? xD

Ok, cleared the user that had that many and added limit to max 250 IP's stored then you have to clear :)

HFZhyonn - January 5, 2016, 9:05 pm

For some reason when signing up I type a pass that is longer than 5 characters but the site disagrees

Oxyde - January 6, 2016, 5:44 am

Fixed the issue now, a coding issue. ?

????? - January 6, 2016, 6:25 am

Wow, thank you so much for this! Vouch from me.

Oxyde - January 6, 2016, 7:08 am

broke the register, however tested now and it works 10/10 lol

Alterations - January 6, 2016, 4:04 pm

This is actually pretty good. Thanks for this OP!

Oxyde - January 17, 2016, 8:34 am

Still working guis ?

DuguWudi - January 17, 2016, 9:32 am

Will check back later. Thanks.

TheUnknownPlague - January 17, 2016, 9:40 am

thanks for the site man just got my freind XD

Oxyde - January 19, 2016, 6:21 am

Cheers, site is still available!
