Hello does anyone bought it yet?

And can you tell me more about it, because I see those replies and they are pretty much all positive and they show their paypal payments.

If someone can give me more info about it, I'm probably gonna buy it.

Best chance to get more information on it is by PMing someone that posted on the thread.

Paypal payments are most likely inspected or purchased, tbh. I haven't seen someone take up my offer to refresh their paypal in years lol

I'll just tell you one thing.

If you are lazy and you aren't patient, then there's no point in buying this or any other e-book.

Actually there is no point in buying e-books at all, but w/e .
