Thread: [Exha's contest | L33T, UB3R, 3P1C, GIFT, EMERALD | 5+ WINNERS](#)

Exha - January 5, 2016, 7:34 am

Hey,

I've been [randomly giving away upgrades recently](#) and just thought: "Why not making a small contest?"

Announcement

Decided to shorten the deadline by 3 days. I've got around 45 entries in 5 hours, this is way more than expected.

I'll probably make other contests later, when I feel like.

Deadline

1/6/2016 at 4 pm UTC+1

Rules and process

Pick a number ranging from 0 to 100 and make a post including the number you picked and what prize you're entering for.

Don't worry if your number has already been picked. If a number gets generated, every people who picked it will win their prize.

I'll generate random numbers using [random.org](#) until five numbers that have been picked are generated.

If the same number has been picked twice, both people win. (inb4 10 ppl pick X and X gets generated)

If you're entering for Ub3r, make sure you've been approved for it.

One entry per person. (thanks [SocialStamp](#))

Requirements

Been on the forum for at least a month.

A positive reputation.

Have no IP matching another member. ([Example of a valid trust scan.](#))

Updates

Included 3P1C award.

Edited the rules. (One entry per person.)

Shortened the deadline.

Clarified rules.

Ub3r is like an upgraded version of L33t. You have to be L33t to apply for Ub3r and if you get approved by any chance, you will be able to buy the Ub3r upgrade.

Will get you L33t if you win.
