Thread: [\[JUST FOR FUN\] POST IF YOU AGREE WITH THE RESULTS \[JUST FOR FUN\]](#)

Brahma™ - January 5, 2016, 8:15 am

I don't believe in numerology but I find it amusing as it's connected with numbers and I love to play with numbers. Anyway, all you need to do is to sum up the digits of your UID and match it with the results posted next to the same number. Let us know if you agree with the result. Just for fun haha.?

PS: If the total of your UID is in two digits figure, add both the digits to get the single digit number.

Number: 1

Positive Characteristics: Individualistic and independent, showing leadership and drive. The 1 is masculine, focused, an originator and self-starter; it is also progressive, strong-willed, courageous, self-reliant and rebellious (in a constructive way).

Negative Characteristics: 1's can be stubborn, selfish, weak and undisciplined, or a pariah.

Number: 2

Positive Characteristics: Sensitive, tactful, diplomatic and cooperative. The 2s tend to be peacemakers and are loving, studious and patient. A 2 may express many musical or feminine qualities and also tends to be sensual and intuitive.

Negative Characteristics: 2's are often discontent and can be seen as spoiled or lazy. They can be careless, particularly with the truth, but when criticized for their faults are over-sensitive.

Number: 3

Positive Characteristics: 3's are imaginative, expressive communicators and artists. They are tolerant, joyful, optimistic, inspiring, talented, jovial, youthful, dynamic ... the list goes on and on!

Negative Characteristics: For as inspirational as 3's are, there is a price: they are often vain, extravagant and prone to complaining. Intolerance, hypocrisy, impatience and superficiality are par for the course when it comes to 3's.

Number: 4

Positive Characteristics: 4's are disciplined, strong, stable, pragmatic, down-to-earth, reliable, dependable, hard-working, extracting, precise, methodical, conscientious, frugal, devoted, patriotic and trustworthy!

Negative Characteristics: 4's pay for their stability and pragmatism by tending toward the boring side. This may express itself with a lack of imagination, emotions, empathy. 4's may not bother to put much care into their appearance, and their social awkwardness can make them seem vulgar, crude or jealous.

Number: 5

Positive Characteristics: 5's are energetic, adventurous, daring and freedom-loving. They also tend to be versatile, flexible, adaptable, curious, social, sensual, quick-thinking, witty, courageous and worldly.

Negative Characteristics: On the flip side, 5's can be unstable, chaotic, self-indulgent, irresponsible or careless. They should beware the consequences of drug abuse and unhealthy sexual tendencies.

Number: 6

Positive Characteristics: 6's are responsible, loving, self-sacrificing, protective, sympathetic and compassionate. These loyal, maternal figures are domestic, fair and idealistic healers or teachers.

Negative Characteristics: A 6 can overdo its inherent protectiveness and become anxious, worrisome, suspicious, paranoid, emotionally unstable, cynical or jealous. They tend toward the conventional side.

Number: 7

Positive Characteristics: 7 isn't just a lucky number. It's also spiritual, intelligent, analytical, focused, introspective, studious, intuitive, knowledgeable, contemplative, serious, persevering, refined, gracious and displays much inner wisdom.

Negative Characteristics: 7's can be aloof, distant, sarcastic, socially awkward, melancholic, cowardly and, when they're at their worst, back-stabbers.

Number: 8

Positive Characteristics: 8's are authoritative, business-minded leaders. They value control and tend to be powerful, but are also balanced, materially detached, successful and realistic. They end up in management positions, are efficient, capable, street-smart and good judges of character.

Negative Characteristics: The dark side of the 8 can be cruel, insensitive, violent, bullish or greedy. At their worst, 8's can become intolerant religious zealots.

Number: 9

Positive Characteristics: 9's are helpful, compassionate, aristocratic, sophisticated, charitable, generous, humanitarian, romantic, cooperative, creative, self-sufficient, proud and self-sacrificing.

Negative Characteristics: 9's can end up being egocentric, arrogant, self-pitying, sentimental, discontent, fickle, cold or mentally unstable.

'Ben - January 5, 2016, 8:42 am
1452306

$$1+4+5+2+3+0+6 = 21$$

$$2+1 = 3$$

That couldn't be more wrong.

Thanks for trying. This is just for fun.

Exodi - January 5, 2016, 8:45 am

Number 8 is mine. Kinda right lol....

Rose Pink Kit - May 2, 2016, 6:48 pm

$$3+1+2+4+8+2+8 = 28$$

$$2+8 = 10$$

$$1+0 = 1$$

I'm pleased with the results. I dont think it could be more accurate. This was fun. Thanks OP.
