Just PM me your download link in this format:

Code DIRECT_DOWNLOAD_LINKDo not use botkiller please. Your server must be near FUD :)

How many bots you will give out, and how can I be sure that you are not from the FEDs?

taco=4 letters

FEDs=4 letters

Taco is FED confirmed.

Yes of course. I always have unnecessary bots. Just hit me up with your download link and i will test your file.

I just found my old DNS with 50 bots, its 6 months old. I got it in Imminent Monitor 3.9 encrypted with Cryptex Reborn, that was the best crypter.
