(Jan 19, 2016 06:31 AM)ITMaster Wrote: [\[CITE\]](#) I've bought this 3 days ago, I was fairly unlucky my first day but then I've used some common sense (yes sonex tells you through whole eBook to use common sense) and I know it sounds weird but it's true, I cant say exactly how but you just have to be yourself and that's it, "just follow his steps". This is so easy to do that I almost laughed while reading it, I cant believe I never thought about this. Overall this eBook is easy to do and it's fairly simple, sonex shows you all steps including screenshots as well. I'm not good at writing reviews but I want to let people know how I made 200\$ in just 2 days, I've spent around 3h, I did it 2 times, first time I've failed(I wasnt paying attention to what sonex suggests), 2nd time I did it "just like sonex described and here are my results". Oh and support is great so far, he's busy but he always finds time to reply, even those 15 mins talking to him is more than anyone else could offer in 15 hours.

Results :

(Jan 28, 2016 07:56 AM)SoLong Wrote: [\[CITE\]](#) This is my feedback, I've set it up last night and woke up to this.

"2 sales in less than 12h", this is really interesting guide though. I can see what he meant by "easy", although I did fail myself yesterday because I tried to literally copy what sonex suggests you, point is to use his steps but change one part, and that's not to use his example but to use your own and to "make" your own you'll be given 100 "ideas", so that part is even easier lol, you just pick one. As far

as how easy it is, it took me 20 minutes to set it up, "you're basically doing copy/paste" and then you just let it sit, hopefully I'll make even more money from this one-time. "You can do this all over again", forgot to mention that as well. I highly recommend this product to anyone! Vouch for sonex and thank you.

(Jan 21, 2016 09:03 AM)-CyberSnake- Wrote: [\[CITE\]](#) Is made my first earnings after 2/3 day's it takes some work, but i am sure i "will make lots more money" with this method!

I cant post links(will upgrade once I withdraw from your method) but hopefully you'll see it! Good work sonex!

(Jan 8, 2016 01:45 PM)V T P Wrote: [\[CITE\]](#) Here's my review.

I purchased this yesterday and been trying it last night for like 2 hours. I can clearly see what sonex meant when he said "you can do this all over again", I've made 72\$ so far and I did it one time only, I'll probably make few more bucks from this one time. I'll keep doing it this weekend as well and then hopefully post a new proof. As far as "newbie friendly" goes, this is pretty easy and do-able by literally anyone, I didnt even have to ask for any support even though sonex was nice and offered it right away.

(Jan 28, 2016 06:27 PM)nettsincome Wrote: [\[CITE\]](#) I have not set this up yet because been sick here the past week but I will be diving in this as soon as better. "Sonex makes this drop dead easy." I know I will make money from this and being consistent with it too. I love the layout and Sonex will surely have more responses from me in the very near future about my success with this awesome system he has constructed!

(Jan 24, 2016 12:39 PM)jameshaswon Wrote: [\[CITE\]](#) Huge vouch for Sonex, this is the "best and only working eBook I've ever purchased"! Mate, you have changed my life with this!

(Jan 11, 2016 02:40 PM)Hyperbolic Wrote: [\[CITE\]](#) IMO I can see how this method will be very effective when utilized properly and it is very "simple" and "fast" to set up.

Nice method, "never seen before!!" Thanks Sonex!!

(Jan 18, 2016 06:24 AM)DaRealMVP Wrote: [\[CITE\]](#) So after thoroughly reading this here is my short review.

P.S I don't need to test this ik it works. but will post payments when i start doing it.

"This ebook is very userfriendly" i don't know anything about affiliate marketing i was just searching for a new field to make income off, and affiliate marketing is what appealed to me, most of the methods require small investments which pay off easily and are recommended if you want to make bank off affiliates. However Sonex's ebook has a "very unique and easy method", like another previous customer who reviewed this i also knew exactly what it was going to be after reading the first line from one section. And i shit you not this is a VERY good method if you have no money to invest.

(Jan 17, 2016 03:48 AM)Ross Geller Wrote: [\[CITE\]](#) Vouch! This ebook is really good! Sonex knows his shit and buying an ebook from one of the best marketers on the forums can't go wrong. He is the only guy I would buy an ebook from here. His ideas are bright, innovating and can definitely "make you some money".

But what struck me the most, while reading this and any other previous ebook he wrote, is the style of writing. And I'm not talking about grammar (which is perfect btw, I don't think you'll find any spelling mistakes), im talking about the way he writes. He puts himself into the position of a potential customer, so he knows exactly what they want, where they can find it and what to do to make a sale. That's the same way I think about everything on the internet, so I really enjoyed reading it.

The method itself is new to me, although when I read the first few sentences of an ebook I knew exactly what the rest of it will be. And it's one of those things that were there all the time, "you just didn't think about it". Luckily, Sonex did.

sonex - January 6, 2016, 10:28 am

How long does it take to set up?

It can range anywhere from 1 hour to 3 hours at most.

Is there any additional work after setting up?

Not at all, once you set this up you can move on and do other things, no need to worry about anything, this system is completely autopilot.

Do I need to be online every day?

No, you dont. Once set up you can basically forget about it and just check the results.

Affiliate Marketing requires niches?

Yes it does, but what if I told you that I added 100 of them in the PDF? I've done whole "idea" thing for you, you just need to act on it by following my steps. Its that easy.

How hard is it?

This cant be hard even if we tried to make it "hard". There are few simple steps that I walk you through so you should be up and running in no time.

Do I need to use Clickbank?

No you dont, as you could see from my video proof, I've cashed out on PayPal from other network, I've added all those networks in PDF so you can basically pick any.

Can it get saturated? Is there any competition?

I guarantee you, only competition you'll find out there is me. None does this, at least not the way I do and the way you'll be taught.

Is it legal/moral?

Yes, this is perfectly legal.

Does this have anything to do with paying for ads or Facebook?

Absolutely not, not even remotely close.

I live in "xxx" and I'm "xx" old?

This method works everywhere as long as you have internet connection, and there's no age limit either.

Do I have to talk to people?

No talking whatsoever.

Is it about buying low/selling high aka Arbitrage?

Not even remotely close, you havent seen this.

Is it about Craigslist/Fiverr and similar sites?

Not even close.

Is it done online or offline?

Only online.

Does it have anything to do with articles writing?

Nope.

Is it about selling accounts/netflix etc.?

Not even remotely close.

Do you provide support?

Yes I do, Email, Skype, PM's whatever you prefer.

How can I contact you?

You cant, unless you're a customer. Once you open PDF you'll see all my contact informations as well as our support team.

Does it work on Mac/Windows?

It's PDF, you can open it on both.

Is there any investment?

No investment whatsoever.

How much can I earn?

Depends how badly you want the money? If you purchase this guide and go straight at setting it up, in a week from now you could have a 1000\$ in your PayPal account. I'm not joking around or bullshitting, you'll see why.

How do I get payed and when?

You can get payed through PayPal, Bank Account or cheque. PayPal payments are done 2 times a month, on 1st and 16th, or you can get payed once a month through Bank Account/Cheque.

Do you offer refunds?

As always if you manage not to make money through 30 days you're getting a refund, however it's practically impossible not to make money.

Why should I buy from you and not others?

Quite common question I'm faced with. Well, unlike others I've been here for almost 5 years, sold 4 products so far and each and every one of them was success, you can see for yourself. I'm your go-to guy when it comes to money making.

Can I purchase with Bitcoin/Skrill/Payza?

Yes you can, either click the Buy Now button above or simply go here - <http://affiliate-marketing-twist.sonex-products.info>

Thanks Omni. Sales are officially OPEN, you can purchase the product by clicking buy now button. Bear in mind price is as low as 17.99\$ for only a few days since sales started, as always as soon as first customers start posting payment proofs, price goes up 2 times, at around 35\$.

Its been 14h since sales started ... Its practically impossible to have any yet(1 is just above though), unless they are of course fake. Hence the reason I set price two times cheaper to get more people to buy it and post their thoughts, once they do it goes back to what its really worth. I'm not a guy who gives away free shit so no vouch/review copies means shit to me, or others since most are biased just because its "free". Thanks for your interest btw.

I see why people constantly ask this. You're used to seeing shit ton of reviews/proofs when in reality product has been up for ONLY 48h, who exactly you're asking to post? If you want fake reviews and proofs go somewhere else. Dont put pressure to people, they first want to try it. And for the record I gave a similar reply just yesterday, hopefully you'll understand the difference here.

(Jan 9, 2016 10:32 AM)sonex Wrote: [\[CITE\]](#) Thanks.

I see why people constantly ask this. You're used to seeing shit ton of reviews/proofs when in reality product has been up for ONLY 48h, who exactly you're asking to post? If you want fake reviews and proofs go somewhere else. Dont put pressure to people, they first want to try it. And for the record I gave a similar reply just yesterday, hopefully you'll understand the difference here.

Its been 14h since sales started ... Its practially impossible to have any yet(1 is just above though), unless they are of course fake. Hence the reason I set price two times cheaper to get more people to buy it and post their thoughts, once they do it goes back to what its really worth. I'm not a guy who gives away free shit so no vouch/review copies means shit to me, or others since most are biased just because its "free". Thanks for your interest btw.

Its been 3 days no? Im not expecting something definitive, or even extensive, but something that shows buyer security, and promise.

Full detailed Review.

Hey guys so I purchased this, and I thought I would write my full detailed review on this.

This product does require some work and some technical knowledge (Making various accounts for websites) , it does not require any investment of any sort and is extremely unsaturated, again this method may be reused but if you put in work you will get results, don't expect magic results with no work/effort put in. You need to put in work and when you do the results should in theory be good (haven't had time to try the method, I only looked it over) The support I got from sonex was really good and quick, however yo be honest if sonex sells a lot of copies(200+) this may become saturated, if you are really bad at picking things he has included help in the book for choosing the valid option, payouts will be every 2 weeks however don't let that put you down as it has a lot of earning potential. The book is also crystal clear in the methods, and he has reasonably secured the book albeit the encryption is a little bit annoying. Most ebooks on hackforums.net are shit to be honest however this one as mentioned a million times is really good

I would give this book an 95/100 or a low A+ (It is a steal at this price tbh)

This review is unbiased in anyway shape or form as I have purchased the product myself with my own funds

Yea, I see what you mean. I do badly want to start making some money online. IMO I can see how this method will be very effective when utilized properly and it is very simple and fast to set up.

That said, I could use some help. Sending a PM now.

Thank you for your kind words, I do truly believe people actually realize how simple yet effective this is when they actually read it and apply it.

I've replied, you're welcome to ask for any kind of help, I even made a whole page in PDF explaining how we could make support both faster and more efficient.

I'm completely new to affiliate marketing, have no experience with sites like Clickbank or anything. Will I still be able to earn with this? I use a Mac, will that cause any conflict? You make quality eBooks, I've bought one before.

Yes you will, theres nothing to have experience with, this method is dead simple for anyone, and as I previously said, its better if you have no idea, I'll teach you from the start. This is a PDF so it works perfectly on Mac.

From 1 to 3 hours, although people are able to set it up within 30 minutes, literally.

Vouch! This ebook is really good! Sonex knows his shit and buying an ebook from one of the best marketers on the forums can't go wrong. He is the only guy I would buy an ebook from here. His ideas are bright, innovating and can definitely make you some money.

But what struck me the most, while reading this and any other previous ebook he wrote, is the style of writing. And I'm not talking about grammar (which is perfect btw, I don't think you'll find any spelling mistakes), im talking about the way he writes. He puts himself into the position of a potential customer, so he knows exactly what they want, where they can find it and what to do to make a sale. That's the same way I think about everything on the internet, so I really enjoyed reading it.

The method itself is new to me, although when I read the first few sentences of an ebook I knew exactly what the rest of it will be. And it's one of those things that were there all the time, you just didn't think about it. Luckily, Sonex did.

I just read the ebook last night, I will try it today or tomorrow and post my results.

Once again, vouch for my man Sonex and this great ebook!

Just bought this, will send you PM now. Excited to try out this new field hope everything goes well.

UPDATE So after thoroughly reading this here is my short review.

P.S I don't need to test this ik it works. but will post payments when i start doing it.

This ebook is very userfriendly i don't know anything about affiliate marketing i was just searching for a new field to make income off, and affiliate marketing is what appealed to me, most of the methods require small investments which pay off easily and are recommended if you want to make bank off affiliates. However Sonex's ebook has a very unique and easy method, like another previous customer who reviewed this i also knew exactly what it was going to be after reading the first line from one section. And i shit you not this is a VERY good method if you have no money to invest. Only thing i would suggest Sonex is to use HQ Images in the ebook it's just my personal opinion.

In terms of making money this ebook is the "shizz"

When i get into something i totally get into it i'll be posting results soon possible in bragging rights section ;)

ITMaster - January 19, 2016, 5:31 am

I've bought this 3 days ago, I was fairly unlucky my first day but then I've used some common sense (yes sonex tells you through whole eBook to use common sense) and I know it sounds weird but it's true, I cant say exactly how but you just have to be yourself and that's it, just follow his steps. This is so easy to do that I almost laughed while reading it, I cant believe I never thought about this. Overall this eBook is easy to do and it's fairly simple, sonex shows you all steps including screenshots as well. I'm not good at writing reviews but I want to let people know how I made 200\$ in just 2 days, I've spent around 3h, I did it 2 times, first time I've failed(I wasnt paying attention to what sonex suggests), 2nd time I did it just like sonex described and here are my results. Oh and support is great so far, he's busy but he always finds time to reply, even those 15 mins talking to him is more than anyone else could offer in 15 hours.

This is my feedback, I've set it up last night and woke up to this.

2 sales in less than 12h, this is really interesting guide though. I can see what he meant by "easy", although I did fail myself yesterday because I tried to literally copy what sonex suggests you, point is to use his steps but change one part, and that's not to use his example but to use your own and to "make" your own you'll be given 100 "ideas", so that part is even easier lol, you just pick one. As far as how easy it is, it took me 20 minutes to set it up, you're basically doing copy/paste and then you just let it sit, hopefully I'll make even more money from this one-time. You can do this all over again, forgot to mention that as well. I highly recommend this product to anyone! Vouch for sonex and thank you.

Ok, I have purchased this one. As I am very sceptical about this stuff, I have never ever purchased an ebook or such for "money-making" etc... So this is my first one and it's because I trust you (if you want to know why I trusted you, PM me), so if I don't manage to earn money I will ask for moneyback as promised in your thread. If I manage to earn money as I expect to, I will make a thread about your book encouraging people to make decision as I did and to try out your ebook.

I am excited and I hope I will be satisfied as well.

Just bought this product because of the amazing reviews and reputable seller!

I'm looking forward to trying out this amazing technique. From what I've read this is the best and damn near only viable technique for making good, steady money with little effort other than setup!

Looking forward to raking in the dough thanks to our good friend Sonex!

sonex - April 2, 2016, 4:42 am

> > > ONLY LIMITED AMOUNT OF COPIES LEFT AT THE PRICE OF 17,99\$. < < <

This product has received insanely feedback lately as you can see below, within few days I'll raise the price back to original 35\$ just like I promised when I first launched this product, so if you wish to get it for as low as 17\$, I suggest you to hurry up. And yes it includes lifetime support. Dont ask for 17\$ copies once price goes to 35\$, I did notice everyone beforehand. Thank you.

(Jan 19, 2016 06:31 AM)ITMaster Wrote: [\[CITE\]](#) I've bought this 3 days ago, I was fairly unlucky my first day but then I've used some common sense (yes sonex tells you through whole eBook to use common sense) and I know it sounds weird but it's true, I cant say exactly how but you just have to be yourself and that's it, "just follow his steps". This is so easy to do that I almost laughed while reading it, I cant believe I never thought about this. Overall this eBook is easy to do and it's fairly simple, sonex shows you all steps including screenshots as well. I'm not good at writing reviews but I want to let people know how I made 200\$ in just 2 days, I've spent around 3h, I did it 2 times, first time I've failed(I wasnt paying attention to what sonex suggests), 2nd time I did it "just like sonex described and here are my results". Oh and support is great so far, he's busy but he always finds

time to reply, even those 15 mins talking to him is more than anyone else could offer in 15 hours.

Results :

(Jan 28, 2016 07:56 AM)SoLong Wrote: [\[CITE\]](#) This is my feedback, I've set it up last night and woke up to this.

"2 sales in less than 12h", this is really interesting guide though. I can see what he meant by "easy", although I did fail myself yesterday because I tried to literally copy what sonex suggests you, point is to use his steps but change one part, and that's not to use his example but to use your own and to "make" your own you'll be given 100 "ideas", so that part is even easier lol, you just pick one. As far as how easy it is, it took me 20 minutes to set it up, "you're basically doing copy/paste" and then you just let it sit, hopefully I'll make even more money from this one-time. "You can do this all over again", forgot to mention that as well. I highly recommend this product to anyone! Vouch for sonex and thank you.

(Jan 8, 2016 01:45 PM)V T P Wrote: [\[CITE\]](#) Here's my review.

I purchased this yesterday and been trying it last night for like 2 hours. I can clearly see what sonex meant when he said "you can do this all over again", I've made 72\$ so far and I did it one time only, I'll probably make few more bucks from this one time. I'll keep doing it this weekend as well and then hopefully post a new proof. As far as "newbie friendly" goes, this is pretty easy and do-able by literally anyone, I didnt even have to ask for any support even though sonex was nice and offered it right away.

(Jan 24, 2016 09:14 AM)Marta_XX Wrote: [\[CITE\]](#) This is what Ive made in 3 days and i spend only 30 minutes, "this ebook is a goldmine" lol. I recommend it for everyone! Its easy and simple, i'm from non-english speaking country and I understand it perfectly.

I cant post links(will upgrade once I withdraw from your method) but hopefully you'll see it! Good work sonex!

Thank you for your review!

(Jan 24, 2016 12:39 PM)jameshaswon Wrote: [\[CITE\]](#) Huge vouch for Sonex, this is the "best and only working eBook I've ever purchased"! Mate, you have changed my life with this!

(Jan 18, 2016 06:24 AM)DaRealMVP Wrote: [\[CITE\]](#) So after thoroughly reading this here is my short review.

P.S I don't need to test this ik it works. but will post payments when i start doing it.

"This ebook is very userfriendly" i don't know anything about affiliate marketing i was just searching for a new field to make income off, and affiliate marketing is what appealed to me, most of the methods require small investments which pay off easily and are recommended if you want to make bank off affiliates. However Sonex's ebook has a "very unique and easy method", like another previous customer who reviewed this i also knew exactly what it was going to be after reading the first line from one section. And i shit you not this is a VERY good method if you have no money to invest.

(Jan 17, 2016 03:48 AM)Ross Geller Wrote: [\[CITE\]](#) Vouch! This ebook is really good! Sonex knows his shit and buying an ebook from one of the best marketers on the forums can't go wrong. He is the only guy I would buy an ebook from here. His ideas are bright, innovating and can definitely "make you some money".

But what struck me the most, while reading this and any other previous ebook he wrote, is the style of writing. And I'm not talking about grammar (which is perfect btw, I don't think you'll find any spelling mistakes), im talking about the way he writes. He puts himself into the position of a potential customer, so he knows exactly what they want, where they can find it and what to do to make a sale. That's the same way I think about everything on the internet, so I really enjoyed reading it.

The method itself is new to me, although when I read the first few sentences of an ebook I knew exactly what the rest of it will be. And it's one of those things that were there all the time, "you just didn't think about it". Luckily, Sonex did.

(Jan 11, 2016 02:40 PM)Hyperbolic Wrote: [\[CITE\]](#) IMO I can see how this method will be very effective when utilized properly and it is very "simple" and "fast" to set up.
