The Town Where Only I Am MissingDescription courtesy of MAL News

Struggling manga author Satoru Fujinuma is beset by his fear to express himself. However, he has a supernatural ability of being forced to prevent deaths and catastrophes by being sent back in time before the incident occurred, repeating time until the accident is prevented. One day, he gets involved in an accident that has him framed as a murderer. Desperate to save the victim, he sends himself back in time only to find himself as a grade-schooler one month before fellow classmate Kayo Hinazuki went missing. If you haven't watched the first episode yet, I'd definitely recommend it. First episode was one of the best I've seen in a long time.

Duyere - January 7, 2016, 7:26 pm

This one sounds very interesting, really like the plot. I can already tell from these previews that it will be good.

Gonna watch episode 1 later.

Annoited - January 7, 2016, 8:09 pm

Just finished watching the first episode, seems really interesting, and the sound effects creep me out for some reason. I like it, I hope it turns out to be a good series ?

Diamondo - January 7, 2016, 8:39 pm

It looks very interesting to me. I'll let it to finish and I'll do a marathon. Even out of the Hackforums, everyone talks about this anime... I can't wait to watch it. ?

ankithosya - January 12, 2016, 6:54 am

JSTN - January 12, 2016, 9:50 pm

Reminds me of Steins Gate in a way.

Only for people that have finished the manga so far, don't click spoiler if you just started. This will spoil everything.

Spoiler [\(Click to View\)](#)

Well they skipped out a lot of the thought process, the protagonist didn't chase the culprit, nor did the mom have a flashback of the culprit who she has of course, met before.

They also cut out the part that actually lead to the flashback, which was the protagonist being chased down in an alley.

Let's hope they don't skip half of the story of the childhood re-live too. I'm doubtful that they can fit the entire plot up to the reveal of the culprit in 12 eps though.

Remaining hopeful for now.

Bit of a plot hole, wouldn't he be killing every homework assignment?

It was on the second episode where she asks for his hand and he gets flustered, I watch in

Last episode was pretty damn great as well. At this point I don't even know if it's okay that he actually seems to be into it as a 29 years old lol.

He's aware of the fact that he has to "Tone down" his intelligence. Hence the way he always says "Whoops, did I just say that out loud?" And nah, technically he's not 29 at the time. What I'm hoping for, is that he does change the future and they're a couple back in his time.

Pretty sure they are just baiting the audience to think it's him. I don't think the killer and the child abductor are the same person; I think it's a two man operation.

I think he's lying about the whole child protective services thing. He wants Satoru to believe he's on his side. I'm just not sure what his motives are.

Also, does anyone find it weird that Kenya seems way too mature and smart for his age? I get that he's the "smart" kid in the class but that doesn't explain his insightful observations. A 10 year old, even a smart one, shouldn't know the things he does.

Episode 10 ([Click to View](#))I knew it was Satoru's sensei. I suspected something was strange about him at first. Other than him being literally the only black haired male adult that looks similar to the said killer. Plus the more he spoke, the more his words started to sound slightly deranged. Was it really a waste of time? Even if the ending ends up being bad, they still managed to have a solid series that was well worth watching up until this point. And supposedly, the anime is going to have a different ending. But saying it was a "waste of time" is pretty stupid. I've seen shows that have been FAR worse. Even with a garbage ending, this show tops a lot of others in many aspects.

Like Angel said on the first page,

"If you haven't watched the first episode yet, I'd definitely recommend it. First episode was one of the best I've seen in a long time."

One of the best first episodes (Or heck, the whole series so far for me.) I've seen in a long time. I wouldn't call something like that garbage.

Indeed, I must agree it's one of the best 1st episode I have seen. I even gave me chills while watching. It's a pity that the story just went downhill for it's ending. Perhaps the author had to rush the ending for the anime adaptation or something. I was hoping for an ending of Code Geass level ?

You realize the manga is also ranked in the top 40 right? And there's nothing wrong with a series being only 12 episodes long.

I did not realize that. I just happened to notice it on the anime side. So manga ratings might not

drop but anime probably will. And I'm on the fence about that last statement. I've seen my fair share of good and bad 12 episode anime. I've seen that 12 episodes is often not enough to cover the full story. In this case 12 episodes would be appropriate because I assume it covered most of the manga.

I just feel like the author could have went a different route and made it a longer story.

But the same could be said about 24 episode series as well. I've watched plenty of shows that fall between both spectrums. A longer story does not always mean a better story.

Did you consider how the teacher was let off the hook because he technically didn't do anything aside from put him in the coma which it was implied he did not follow up on saying how he got into the comma which would of put the teacher in prison, instead he got off with attempted man slaughter which was probably dropped because he argued he was trying to save him from suicide but couldn't hold on. Real big loophole with the ending, how they showed the teacher being free and all.

The last 30 seconds were just icing on the cake though :')

My thoughts exactly. I'd rate it a 9/10 personally, and I don't understand all the hate. I guess people just expected too much.

Here's to hoping there's an OVA with Satoru and Airi though!

Spoiler ([Click to View](#)) Didn't like the final episode compared to the rest of the series. Amazing none the less, but I felt like it was missing something.

still r8 9/10, but I want to see more story about how revival works

Cloaked. - March 25, 2016, 10:39 am

I liked the ending. Overall really nice anime.

However, this will really be the last time I'll watch an airing anime. The waiting just hurts too much. It's bearable for TV shows but anime? Nahh.

Oh god i hope so too 1000/10 would want an OVA with that lol. I bet there will be but like at some random date probably like a year from now when we aren't expecting it when a random BD vol. comes out or some shit.

Varane - March 25, 2016, 11:35 am

I really didn't have any issues with the anime. Did i watch an edited episode because i saw some people on this thread say the teacher was released?

After reading around on Reddit, I wouldn't mind seeing him with Misato (whom they refer to as laxative girl Imao).

Hidden User - March 25, 2016, 12:52 pm

Personally, the ending was too good to be a true. I was hoping for something bad to happen, but overall the best 2016 winter anime that came out.

It went from perfection to meh easily :(

The thing about this show is that the subplot was better than the main plot. Kayo was an interesting character. And seeing her interactions with Satoru was what made the show for the most part. However, the main plot, that being the plot of "Who is the killer, what are his motives, etc." wasn't as good. So when the show went from the brilliant subplot, to the meh main plot, the overall show is seen as an average show. I still thought the whole thing was brilliant though. A-1 Pictures was able to do nicely with what time//resources they had.

First 8-10 eps were amazing just feels like they rushed the ending way too fast (last 2 eps). I still gave it a 9 however but just wish it ended differently.

Spoiler [\(Click to View\)](#)

why the fuck did he end up with a 17 year old when he's like 28? kayo was the same age as him and was obviously what everyone wanted, jesus that fucking annoyed me.

Yazz - March 27, 2016, 11:54 am

My best anime for this season

The Coma was just an unnecessary part of the plot.

Here how it should have happened.

>>Saves Kayo

>>Because he saves Kayo the Future has changed
>>Revival is finished so wakes up in his bed (wakes up thinking it was a dream)
>>Future has changed
>>Kayo is his wife
>>Is a successful manga artist

This way he did not have consciously redo the last 20 years, it just kind of happened.

Pretty cliché and I can see why the writer maybe wanted to do something different but, it's just an absolute bullshit ending that completely fucked nearly everyone over.

Elweth - March 27, 2016, 7:41 pm

Only Yashiro-sensei waited for him. This shows he's a better waifu than Kayo :3

As neightworks said the coma part shouldn't of been a part of the plot.

I just found it mind boggling how they would put a 17 year old with a 29 year old and put Kayo with someone she barely had a connection with at any part of the story.

Happeh - June 28, 2016, 7:33 pm

Very late to the party but just seen it. Glad it got he loved it deserved as I've seen similar anime get passed over here. One of my favourites of this year and although it could have been better in terms of character development (should of been one of those rare 13 ep anime) it was still great.

Fuck do I have pad bad lmao

Spoiler [\(Click to View\)](#)i was just as confused so did the research and supposably the reason she receives so much love is because in the manga she has many more scenes and lines and has a much deeper connection with Satoru. Also it was 2010 when they finally met again so she would of been 21 and him 33, still a huge gap but yeah, better.

That really hurt me. Kayo didn't have to wait, but she didn't have to marry and get knocked up either.

Almost done watching it and holy fuck... feels/10.

Spoiler ([Click to View](#))

That scene where Kayo breaks down in front of a homecooked breakfast...

Saw the first episode of this not too long after the series was released and was hooked, I too urge anime fans to watch this one.

Irresistible - July 25, 2016, 9:02 am

Watched this weekly when it was being released because of my high expectations (because I love time travel/mystery anime), yet it was way too boring and predictable.

Hakai - November 22, 2016, 7:43 pm

Wonderful anime, watched the 12 episodes back to back, thanks to whoever dropped that name in whatever thread i don't remember.

Taking a spot in my all time top 5.

I feel ashamed that our top box office movies/shows are about pathetic super heroes and dumb stories. And masterpiece like this aren't even known.

Not a reason to not believe in the future.?

robinho200 - November 30, 2016, 7:56 pm

I can really fuck with this Anime, First episode was amazing
