Thread: [TWITTER FOLLOW BOT | TWITTER TWEET BOT](#)

gongas19 - January 6, 2016, 6:15 pm

I've been making some usefull scripts to me lately, and i decided to share some simples 2 scripts ive created.

First script, tweets automaticly in every 12 minutes by order, messages in the txtfile:

bitbucket.org/G_9/auto-tweety-bot

The second script, is pratically the same thing, but instead it follows from a textfile, the users that are in there:

bitbucket.org/G_9/auto-follow-tweety-bot

Hope comes usefull for someone ?

No quite, if you look at the source code, youre project is more complex, i developed it in a simple script and tbh i did not even saw your script before has our twitter api is not even the same

I've just made a twitter bot using selenium. I'm just about to makea database for it because I've got other follow bots aswell.

G9Slim - January 12, 2016, 12:04 pm

Im new to the whole script thing. Im looking for a bot, that I can load a list of accounts into, and make it follow a targeted user, or RT and Like a targeted tweet. If you know anyone thats selling, let me know. I only send paypal

Acid0xff - January 13, 2016, 4:04 am

hello , can i buy this twitter bot

p9dro - March 6, 2016, 10:40 am

how do you make this work?

Spynit - April 2, 2016, 6:08 am

wow incredible :) I'll try it too :)
