Thread: [\[#2\] L33T Upgrade Contest](#)

Krave - January 7, 2016, 5:22 pm

Unlike my other contests, this one isn't going to be random. I will be upgrading a regular user to L33T. I will choose a winner in 24 hours. I have been doing a large amount of giveaways and random upgrades lately because I have finally become very financially secure.

To enter, please post on why you would like to become a L33T member, and what you've done to assist other HF members.

I will be choosing the member who appeals to me most. Good luck everyone! ?

Deno - January 7, 2016, 5:53 pm

Its my first day here and i want to learn hacking rightaway. More features more knowledge. I have no knowledge to help hf yet but maybe one day, i can contribute here something unimaginable. Why not take the risk?

?MIN?M - January 7, 2016, 6:35 pm

I want to become a l33t member so I have more permission, I'll be on HF for a long time I hope so it will be of good use. I haven't assisted much people on HF because i'm here to learn, but I do help people out in the ways I can.

Cost - January 7, 2016, 6:58 pm

I have a couple of reasons as to why I would like l33t. One reason would be because of the amount of deals I do daily on this site. I get many pm's and it's difficult for me to organize everything when I am only allowed to have 50 pm's in total. Another reason would be for the permissions. I would love to browse the upgraded forums as well as stand out a bit more. I have been a member for 3 years, and to experience l33t would be great. I appreciate you doing this giveaway man, thanks for the opportunity!

Tay™ - January 7, 2016, 7:20 pm

I'll be honest, I'd like to become leet so I can change my name aha. But id also like to be able to give rep to the people who have helped me on hackforums and that have taught me new things. I'd also like to browse the member only forums. Whenever I'm able to help I try to help people, and do things for others. I've been entering contest and don't seem to have any luck aha but it's not surprising lol. Anyways this is extremely kind of you to do and Goodluck to all participants :) thanks for the contest Krave :)

XIHackerJpIX - January 7, 2016, 10:38 pm

I would like to become l33t to fully be able to help out the community the best way possible, i joined back in 2010 looking for a way to learn to hack back then i was like 15 i was young haha at he end i learn to hack i learn to also protect my computers and made money in real life using cracking virus protectionng programs for others, My low post count has just been to the lack of interaction just recently i decided to interact more and i feel as i can find my way around here i try my best to assis people with real life issues but im also trying to develope a good business plan here as of now im still limited to so much but i hope thru time i get where i want to be on this forum. I wish u all the best and thank you for the contest :)

I Am Kira - January 7, 2016, 11:14 pm

I'm entering for L33T.

I'd love l33t because it will want me to contribute and help the community a bit more and better not that I don't already. I love hackforums and always wanted l33t but unfortunately I cannot do so. Being l33t would make people take me a bit more seriously. Therefore I can sell and share more products with HF.

If I do win L33T I'll release a free spreading method I use of my own.

Cheers, OP.

Zefox - January 7, 2016, 11:48 pm

Hey Krave,

I'm posting to enter your contest for the chance to get upgraded on the site. I'm extremely knew to the site, however in such a small amount of time I'm starting to learn many things and starting to make my way into the community. So far, I haven't done much for the website or assisted many members, but everyone has to start somewhere I guess. I believe getting the change to be

upgraded will help me more to pursue my urge to helping others and making a name for myself.

Good luck to other contestants. Thanks. ?

Wow, I really do appreciate the people like you that give back to the community.
Even if I don't win, you're still a great person for doing this.

Why do you deserve an upgrade?

-I really need to get more experienced in the field on hacking and i really do wanna dedicate myself into this.

-This Upgrade can help me so much by giving me more space in my pm box cause everyday I have to make room for more space, I would like to have a ability to rep people that have helped me and told them I would rep them once I get L33T cause they have contributed the forum a lot and they are L33T's or and UB3R and to get this would be a great honor for me so If I got this upgrade it would mean a lot to me.

what you've done to assist other HF members.

-I helped some of the user with gaming stuff like dota2,csgo,cod,etc.

-I helped so many user with steam.

-If i get upgrade i will look forward to help as much as i can.

Good luck to all and thanks for this great contest.

Why i want l33t?

Its simple, i am a member of hackforums since 2012 and i still can't afford to buy it my self...

How i assisted HF members?

Well i made some really good and hq shares, i helped members directly over pm. I have done some exchanges and trades.

Nice HQ guy! Helped me several times.. Good luck

Yunatic_500 - January 8, 2016, 7:11 am

Hi,

I'll take my chance to win this although maybe someone else deserves to get this. Why I would like to get I33t is obviously the upgrade advantages of being I33t. Need the PM space, had to delete and clean it often. Rep people who have helped me and so on.

My main reason to really want I33t is so I can post on Innuendo so I can calm those heartbroken teens who just broke up and need advice. It sucks that I had to pm one by one to give my honest advice. I'm currently not at the right state to help people on hacking/IT related. So, offtopic sections seem good to me. I could care less on Science, Religion, and Politics section cus everyone are just biased and think that their opinions are facts.

It feels bad to brag =/ in terms of financial, I can't even afford alot for myself irl but sometimes I have spare 1-5\$ to help people on "Rewards and small favors" section. That's probably the least i can do

at the moment.
(English is my 2nd language)

GL everyone :)

Quinn. - January 8, 2016, 7:40 am

I would love to get the l33t update as I'm only a normal member.

I've been helping many members on this site where it's advice or a little bit of change (BTC/PP). I'm still hosting a giveaway of RS Chronicle BETA keys.

and I've never won an award contest yet! I love you to the moon and back you are my one and only.

PS. Thanks for contest and GL to all members entering.

Krave - January 8, 2016, 9:43 am

Thanks for the entries so far! Good news, I'll be upgrading several users as I like a lot of apps at the moment! :)

Contest is over. Upgrading member(s) shortly after I read all entries properly. Will edit this post linking to the winners after!

I have upgraded:
