Thread: [\[Video Tutorial\] Choosing your Prey](#)

Oddissee - January 7, 2016, 11:10 pm

Difficult Level: 6/10

Requirements: Finding out their age

Finding what they do .

Convincing them you're real.

Explaining them on how to pay

This is my second video tutorial! In this video I will be showing you who to target and how to get rid of them as well if they are "bad" prey!

Haha! This video is more like a "recorded" stream, it wasn't really direct but gave some helpful tips!

Feel free to comment on this thread on how I can improve my further videos.

Honestly I didn't get money from either, I was surprised.

How do I know if the version I have is OK? I have the latest KIK and fake camera and it seems like it loading normally. Should I downgrade to 7?

Thank for sharing interesting to watch.I think its a bad idea to send naked pics for free, defeats the whole purpose of them actually sending you money.Most 2 minute men will just orgasm and move along after 2 free samples that are that revealing.

Send underwear or something that is a major tease, make them NEED to see whats underneath don't give up the money shot so easily.

Looking forward to more of your videos.

lewwi1599 - January 11, 2016, 1:44 pm

Can you help me a little ?

It is safe to do?

Do you have any new video?

After they pay for the pics and vids you send it to them or just block them ?

It's safe to do it.

Unfortunately I haven't had a chance to make any videos. Will start again soon.

No don't block them after, give them what they wanted, you can ask them for more \$ later!

Not broken, I'll re-do some videos very soon.
Only works on some windows PC.
My old PC was really slow and I could only use that recording software.
