May I know what :

"5. If you are a l33t member please leave the scammer feedback even if it's neutral."

Especially "scammer feedback"

means ? I am a little bit confused. Thank you !

0 rep them call them a scammer and link to YOUR OWN scam report on that person not someone else's

if you get scammed. dont be afraid to leave a netural rep even though it has no effect on there rep number.

If somebody has scammed you and stolen your money, leave them a neutral reputation point (0 rep point, not +1 or +3/-3 etc) saying they are a scammer and put a link to the scam report.

If you're going to leave a rep on someone's profile claiming them to be a scammer, you need to leave a thread link that's either a community alert or deal dispute that can effectively support your "scammer" rep.

That's what it is about.

Alright, thanks to you all. I thought that it's something I have to do every single time I buy make a deal.
