Thread: [\[OFFICIAL\] Fusion Recruitment](#)

Raptor. - January 10, 2016, 5:36 am

This is our first recruitment. In it, we're searching for avid gamers for both consoles as well as PC. Our members should not only wish to interact with others in discussion and debate scenarios, but also should stay actively in touch with their fellow members whilst playing online. Our application does not have difficult requirements, nor does it bar non-upgraded members from applying. Our general information thread can be found [here](#), and our roadmap for the future can be found [here](#).

Please do not PM leaders to check the status of your application. Once applications for this first wave of recruits are closed, a post will be made stating such, however the thread will remain open, as the second wave will be added shortly after the first. Please keep this thread to just applications, any questions/queries/concerns can be posted on the general information thread.

Please use the below format for your application, or create your own - however all applications must answer the above questions.

Tell us a little about yourself:

I started gaming at a very young age and I used to participate in all kinds of sports. Even back then, I would always try to win. I have a very competitive nature in everything, gaming included. I strive to be the best at what I do.

Today, I'm an avid gamer who likes to waste his time browsing Hack Forums while playing online games. I don't usually play anything on my consoles unless I've got company over, or I really can't think of something better to do.

I take part in weightlifting to better myself, and one of my goals for this year is to become better than I've ever been before in this sport. Lifting on the side and doing cardio while browsing this forum is a daily routine of mine.

Current Favourite Games:

Nowadays, my time is predominantly spent playing Counter-Strike: Global Offensive and Transformice (a flash game, but one of my favourite games nonetheless). Fallout 4, GTA V, and Payday 2 were also pretty fun. On my consoles, I don't play much at all unless it's Super Smash Bros. Brawl.

Currently Played Multiplayer Games:

Counter-Strike: Global Offensive & Transformice some GTA V & Payday 2 on the side.

Throwback Favourites:

Oh man. Have you heard of Fatal Distractions? It was a disc with something like 150 games, I think I still have the original one. Tetris, Pong, and Pinball (yes, the one that came shipped with Windows!) were fun as well. Those were my childhood, along with games on my N64 and NDSLite.

I remember discovering that PCs could emulate the N64, so I downloaded Yoshi's Island on my first computer ever. I also have most of the original Pokemon chips for the NDS and GBA. My childhood was mostly filled with gaming, and boy, was it fun.

Why do you wish to join Fusion?

I want to join fusion because it's a nice group that appears to have lived up to its hype, with very capable leaders and servers that the group will use to come.

Hack Forums has never been too community-involved unless you were a part of a group, and I'd love to be invited to Fusion to be a larger part in HF's gaming sector.

What can you bring to Fusion?

I can bring my skills and knowledge in Minecraft & CS:GO to the group to give it a more competitive side. I'm Global Elite in CS:GO (deranked to supreme, but I'll get back up there) and have never used any cheats with the intention of winning it for my team. Truthfully, I've used them only to mess around with friends.

I cannot wait for the launch of the Minecraft server and the Teamspeak, and hope to be a part of the group.

Kify - January 10, 2016, 5:39 am

I'd apply if I was a gamer but I rarely game, goodluck to everyone who applies though

Zefox - January 10, 2016, 6:39 am

Basic Information:

Name: [Zefox](#), Aaron.

Nationality/Age: Italian, 18.

Location: Australia, OCE.

Interests: Basketball, socialising, making money and gaming.

Throw back Favs: First assassins creed and the old Pokèmons.

Extended Responses:

What are my most played games? I consider my gaming scene a very important part of my life, I'm a enthusiastic, competitive and all round skilled gamer. As CSGO being my top ranked game at this moment, I rack in around 2,000 hours and am ranked the second highest rank in match-making, SMFC. Over my time in the Counter-Strike scene I have been apart of the growth of a couple of minor, non-official, professional CS:GO teams in Australia. When drifting of from Counter-Strike, I consider my self a Minecraft legend. Some may say it's not something to be proud of. However, over my long, successful time in the game I've learnt many things, met friends I'll keep forever and made tremendous amounts of money.

Other games I enjoy: When it comes to console, you'll see me currently using a PS4. On this gaming platform I enjoy playing COD, Fallout 4, GTA V and Fifa. On the other hand, I play League of Legends and Nba on my PC.

Why should I be chosen to join Fusion? Heading away from my skills, I consider myself as being a great asset for Fusion in many other areas. In saying that, I believe my general game knowledge, likeable personality and enthusiasm to the things I like could encourage other members to try new things and expand there interest in gaming.

What can you bring to Fusion? What I can bring to Fusion is more then words can express. Hopefully If I get accepted into the group I will bring my knowledge, a positive attitude and a mind set to achieve high things amongst the group. I will strive to be the best I can when representing the group around the site.

Good luck to all other applicants.

Regards, Zefox ?

Throwback Favourites:

-Halo Games (OG Xbox / Xbox 360)

I chose this because this was a big part of my childhood, my very first game I ever got for any console was Halo: Combat Evolved AKA Halo 1. This game was my life I played it religiously. Along side my other friends in which made me pursue a more avid gaming lifestyle.

There are many more games I grew up on and had a blast playing them, but the series laid-out by Bugie has to be my all time favorites.

Why do you wish to join Fusion?

After being apart of Axiom, and realizing the perk of having a team. It made me realize how much fun gaming groups really are. I do not want to join fusion just to rep the UB but to actually participate in the ongoing activities to prolong the groups life. When I first joined HF I was surprised to find out that gaming wasn't as big as it is today. And to be apart of something that could better HF and make a more community focused agenda it allows me to do what I love and share that experience with others.

I am an 18 year old entrepreneur living in the USA. I have been playing video games ever since the PS2 dropped when I was young. I started off playing NFL street and had some of the most fun gaming on that PS2. I since have graduated to more complex games.

Current Favourite Games:

League of Legends, Hearthstone, BO3, NBA 2K, NHL, Madden

Currently Played Multiplayer Games:

BO3, League of Legends, Hearthstone, NBA 2K16

Throwback Favourites:

Any Spyro game I could get my hands on I played and loved, and like I stated above, good ole NFL street for the PS2 is my all time favorite game.

Why do you wish to join Fusion?

It seems it is going to be the only truly active gaming group, which I really would love to be a part of, not just for a userbar and status

What can you bring to Fusion?

Dedication, time, and effort. I'm always here when my fellow members need me, and will always be here whenever Fusion needs me. I am versatile and can play almost anything you need me to, and am more than willing to do whatever it takes to benefit the group.

I'm 25 Years old from Mexico, I'm kind of new to HackForums, before I was reading MPGH and

OwnedCore. I'm a "gamer enthusiast", and also a cheater. I admire the way coders exploit games with their cheats, and I think of cheats as game enhancers not as cheats. I cheat mostly in First Person Shooters. Of course I play other games legit, like car games such as Need For Speed or Dirt Rally, and I competitively play Vainglory on Android on my Samsung Galaxy S6.

Current Favourite Games:

Counter-Strike Global Offensive, Crossfire (NA), Vainglory.

Currently Played Multiplayer Games:

Said above

Throwback Favourites:

Call of Duty 1 and Far Cry 2

Why do you wish to join Fusion?

As far as I see the main theme of Fusion is a group for Gamers, And I'm a gamer enthusiast as I said. I would like to be as High Quality as possible, but sometimes It's hard to keep. I'm sure a Community like Fusion would help me enhance my "game taste" and get me into other Genres.

What can you bring to Fusion?

My current knowledge and experience in a lot of games I have played.

Tell us a little about yourself: I have a huge passion in gaming overall. I play games everyday for at least 3 hours.

I would say that im pretty decent on the games i play and im always open to get new games. I could play for fun and tryhard and really try to win if that is needed, i will always do my best though.

I am also a graphics designer, so if anyone is in need of thread design, signature or whatever they could always HMU.

Current Favourite Games: I'd say H1Z1, CS:GO and League of Legends.

Currently Played Multiplayer Games: Same as i stated on the question above.

Throwback Favourites: My all time favourite would be CoD 4 or MW2. Back when quickscoping just became a thing, that was really fun, getting in new clans, get to know new people etc. Then when trickshotting became a thing was also really really fun.

Everything changed and it was so fun.

Why do you wish to join Fusion? I would love to join fusion, what i've read about it now it seems to be a really nice and HQ to be in.

I've also been looking for a group for a while now that i can be in to get to know new people and do projects with.

What can you bring to Fusion? I can bring my self, really chill guy. I can also host small tournaments sometimes and have giveaways. As i said before also i can do some graphics.

Tell us a little about yourself: My alias is Litecoin. I decided to use this alias after I had a growing fascination with cryptocurrency. My interests in cryptocurrency, however, peaked a long time ago. I remember making a fairly decent amount of money by investing in BTC, but I also lost a fairly decent amount of money from doing that as well. I love gaming. Since I was little I always had a gaming system by my side. I grew up with a Playstation 1. I played games such as Spyro and Crash Bandicoot (two best games of all time I might add). A couple years later my parents invested in a Playstation 2 for me and my brother. That console was great. We played Starwars Battlefront: 2 day in and day out. We also enjoyed games like Killzone and Metal Gear Solid. Many, many, years after that I got a Playstation 3. I loved it a lot. Now, I have a Playstation 4, which was one of the best investments of my life.

Current Favourite Games: NBA 2k16 (PS4), CoD Black Ops 3 (PS4), Company of Heroes (PC),

Hearthstone (PC and Mobile), and many more.

Currently Played Multiplayer Games: NBA 2k16, Madden 16, CoD Black Ops 3, etc etc.

Throwback Favourites: I'm assuming for this question you're asking about old favorites that I still play? Alright then. I still occasionally hookup my PS2 and play some Starwars Battlefront 2 on it. I also still own my PS1 that I play Spyro on occasionally.

Why do you wish to join Fusion? I have seen gaming groups live a short life in the past, however I have talked to the owner (Raptor) and it seems he has an innovative idea to keep this group active for a very long time. I would love to be a part of this experience, especially with such a chill owner such as Raptor. The only reason I come on HF is for the groups, really. The only place I really ever post is in the group subforums. With Axiom on the verge of being sold, I wouldn't have any other group forum to make friends and post in, which would probably ultimately cause my activity on HF to be less and less until I no longer came online. I would love to be a part of the Fusion family so I can bring my activity and friendliness to it's subforum as well.

What can you bring to Fusion? A lot of activity and a friendly attitude. I have over 1k posts in Axiom and I post every day in the subforum (you can't see it in my recent posts if you're not in Axiom) I also like making friends within the SF

Why do you wish to join Fusion? I love to play games so naturally Fusion would be a group that fits me. It would fun to play games with everyone and get to know each member in the group a bit more.

What can you bring to Fusion? I'm also a very positive person when it comes to games you'll almost never see me flame, harass or be hostile towards someone. Outside that I can also create guides for games I have experience in like LoL or CS:GO and contribute towards tournament prizes and so on.

I'm looking to chat and make some new friends within the group to actually game with and just kick some ass. Also, I believe we could start partaking in esports and make Fusion an official thing in the competitive gaming scene.

What can you bring to Fusion?

I can bring my skills from gaming to non-gaming to fusion and I believe I can help out in anyway possible. Also, I sell games at discounted prices and I'd be willing to host giveaways for them under Fusion's name or just give it to a fellow member.

I'm 18 years of age, and I became a gamer around the age of 6-7. That was about the time I got my first Gamecube. Spent countless hours just playing the classics and learning the tricks to every game that I played. Mario Kart was my go-to game at the time. Pokemon was also one of my favorites due to me playing it on my Gameboy late at night. Time passed and I caught onto Star Wars Battlefront I & II when I first my got PlayStation 2 and from there on I was just amazed with first-person shooters. I drifted to the Call of Duty era when I got my PS3. I could say I'm a bit competitive and get very mad when ever I start to lose. Most of the time I play games listening to music just to feel relaxed.

TL;DR - I love games and I grew up with them, they were my childhood (literally).

Why do you wish to join Fusion?

I wish to join Fusion mainly because of it's gaming aspect. Sure the gaming sections of Hack Forums have some active members but a whole group centralized on JUST gaming? Well, that's a

wish come true to an avid gamer like myself! In reality I'm just looking for active members to play with. I usually play Destiny solo due to the lack of friends that play it on the PS4. Same thing goes with Black Ops III Zombies, I would LOVE to get to the higher rounds of Shadows of Evil or even do the main Easter egg.

What can you bring to Fusion?

I can bring to Fusion my enthusiasm for gaming and my passion of playing with others. I love working with others and can show the positive side to any situation. Whether it be in tournaments or just regular competitive games. I can also be a great asset when it comes to teamwork due to me being strategic and not playing with just my hands but with my mind as well.

Thank You for taking the time to read my application, best of luck to all other applicants. Game On ?

I am 15 years old gamer from germany. I started playing games at a young age on the crappy old pc of my parents. My first real game which I played was Minecraft, I bought it in the Alpha 1.2 (year 2010) before the game got popular. Now I stoped playing it 2 years ago because of the terrible community and because there are a lot of better games in my opinion. I have a really large collection of games in my steam account, now exactly 153.

Throwback Favourites:

I can definitely say my favorite game was Minecraft while the community was good and small. And my other favorite is Real of the Mad God, I think its the game I spent the most time ever. Its a small Perma-Death MMO, but the game basically died. And whats a MMo without other players? And of course Cvilisation V, in my opinion one of the best strategy games ever made.

Why do you wish to join Fusion?

I want some people to talk about games and meet new persons to play games together. And I also really like the tournament idea. I would love taking part in one (preferably a strategic game, for example RUSE or Wargame).

What can you bring to Fusion?

I can bring in a huge knowlegde of small indie games which rely on strategy and/or building. I also can start sharing links of steam giveaways again, I stoped it a month ago (<https://hackforums.net/showthread.php?tid=5026031> and a lot of other Threads, can be found at page 2 in my Thread list)

Why do you wish to join Fusion? Well, I've seen many gaming groups around and didn't feel that I'd apply to join any of them, but this one is different because the leader is friendly enough, and he seems to have a good solid plan for the group. Secondly, I want to gain friends that do play common online games, and I want to be active with something on the forum and it will definitely be this group!

What can you bring to Fusion? I can bring activity and dedication around, and in the sub-forum. I promise my activity within the group, and I will be joining all the future competition and I will be active as much as I can in the TS3 server. I can offer help to any player that is seeking it! I have knowledge in almost all games and I will be sharing my knowledge with the members.

What can I say? I'm an avid gamer and I like to game with members who have similar taste in games as me. I started my gaming "career" when I got my first GameCube at the age of 5 for my birthday. I played the hell out of that thing, and it still has a special place in my heart. When I was 11, my family got an Xbox 360, which I thought was the coolest thing since it had "good graphics" and MW2. I loved MW2 so much and got into trickshotting. (That's stupid, I know.) Many of my fellow trickshooters moved to PC since it was better and more insane shots could be pulled. When I was 13, my dad got me a CyberPowerPC so that I could play MW2 with my friends. The game was far from dead at the time, and still had a fairly active community on AlterIWNet. I logged over 2000 hours on MW2 PC version. I eventually built my own PC and the rest is history.

Tell us a little about yourself: I've been playing video games for quite a while now and I'm always showing passion for them. I started back when I had "Action Max" where I would use that gun like a baws! I switched many consoles when I was a child and I'm currently using the stuff I stated as my gaming platforms.

I love to communicate and would always love to talk about video games specifically FPS games like Counter Strike.

Current Favourite Games: I have many games that I like but in these 3-4 years I was mostly focusing on CS:GO. I'm not "glued" to one specific kind of games, I play what i like.

Few games that I played in 2015 and that I'm currently playing are - CS:GO, Binding of Isaac, and all Souls series games like DS2 and Bloodborne.

Currently Played Multiplayer Games: I have played CS:GO for over 500h and I'm currently playing BO3 on my PS4. If Dark Souls II can be considered as a Multiplayer game (taking PvP as a factor) I have around 100h there also.

Throwback Favourites: The first thing that I think off when I read this question was Crash Bandicoot. Back when I was grinding PS1 games I couldn't keep my hands off Crash Bandicoot, Crash Bash and the Crash Racing game - those games made some of my best memories for my gaming experience.

Why do you wish to join Fusion? I do not have a group that I'm a part of and I am looking for one that I can fully contribute to. I always show dedication and when I say for something that I'll do - I'll do it.

I can always leave time for this group whenever I'm busy or not and can always help in various ways.

What can you bring to Fusion? As stated in the previous question, I will show my full dedication and will try my best to write threads that will show the quality that Fusion has to offer.

Whenever it comes to writing a thread or hosting financial giveaways - that represents me no problem. ?

I'm currently 15 years old. I've been gaming since 6 - yes, 6. I received a Playstation 2 for Christmas and began playing sports games all the way up to a bit of Call of Duty - I specifically remember Call of Duty 2 or 3.

A few years later I received my first Playstation 3, which is when I began playing online. I started with Call of Duty 4, and remember being addicted. I was probably about 8 at the time, and I got to Prestige 10 level 55 in the matter of a week or two. I still own that same Playstation 3 System, and go to it whenever I'm feeling some Modern Warfare 2 and such.

I currently live in Ohio as stated before, and am a big sports fan. I play multiple sports as well as bet on a few and watch all of my hometown's Football/Baseball/Basketball games, that hometown being Cleveland (Damn Browns).

I'm only in 9th Grade, but I'm taking 11th-12th grade classes consisting of Calculus this semester and high level Science and such.

Why do you wish to join Fusion?

Well, if Raptor sees this application I'm sure you remember my previous PMs and may have even see my posts on a few threads. I've never really been into Groups much, although I have applied to 1-2 previously.

I want to join Fusion for a few reasons, those reasons being this. It's a GAMING group. I

want to join to meet new people while doing what I love - GAMING! Another reason being the fact that I'll have more motivation to devote time to contributing to HackForums.

If I'm going to be in a group, I want to be proud of it and make a good name for myself at the same time. Being in Fusion would make me want to do a lot toward HackForums to gain a great name towards itself. What can you bring to Fusion? Well, I'm a Gamer that you don't want to miss out on. I play both Competitively and Casually, and can bring a lot to the table when it comes to competitive gameplay. When myself and a few other members are playing Casually, I'm also quite fun to be around and will make sure to make the gameplay as fun as possible.

I also plan to contribute a lot to HackForums in the upcoming times, consisting of Tutorials, Giveaways, and much more. This will all be in Fusion's name!

Also, forgot to add this to my original post. I also read that Fusion will eventually be starting up a Minecraft Server! I have years of experience and have developed 10+ servers, and would love to join in on the project.

Thank you for reading through my application - I hope I am considered!

Tell us a little about yourself: Well I'm 20, every since I was a little kid I've been a gamer. I can remember playing N64 and moving to PS1. Most of my time was spent either on the first editions of GTA, Pokemon, or crash bandicoot. I moved to Xbox around 2009 and that's when I started to play competitively. I've been in some of the top ranked teams, used to be the top years ago, for competitive sniping. After I moved from comp sniping I started more in the GB community as there was a lot more skillful players to learn from, not long after that though I started working fulltime as a construction worker so I rarely got time off. Now that I'm on government contracts I get a lot of downtime so I'm ready to get back into gaming with some people that enjoy it just as much as I do.

Current Favourite Games: Series: Fallout, GTA, Battlefield, NFS, Forza, Dead Island, CoD, Midnight Club, and so so many singular titles. Impossible to have just a few favorites.

Currently Played Multiplayer Games: I'm pretty limited right now as I don't have many games, but if I had more people to play with then I'd gladly buy some more. Battlefield 4, The Crew, Black Ops 3, Forza Horizon 2, Dying Light, GTA V, Minecraft, and a couple more.

Throwback Favourites: Definitely have to be Mario, Pokemon, and Crash Bandicoot.

Why do you wish to join Fusion? I'm just looking for some fellow gamers as passionate about gaming as I am. Love making new friends.

What can you bring to Fusion? I can bring activity, a person to play with, and a true gamer to the group.

Why do you wish to join Fusion?

To share and discuss thoughts on gaming related topics. Not only that, but I believe I can meet a few people along the way and create relationships with on another. Not only that, but I feel as if Fusion could bring something to the HF community. Simply by hosting tournaments, writing game related tutorials, and so on. I'd like to be a part of that.

What can you bring to Fusion?

Well, to say the least, I would be able to write up tutorials for games, along with sharing my knowledge on certain games. To add to that, I hope to contribute as much as possible and assist with anything that may need it. I believe the whole point is to just have fun, after all we are discussing video games. Though while having fun, I have the ability to calm and collected.

I've always been a huge console guy. I've been gaming since I had my first gamecube. I'm passionate about console gaming, with emphasis on shooters, RPGs, and sports games. I just recently turned 19, and I'm born and raised in the US. I frequently browse the Call of Duty, Grand Theft Auto, and Fifa sections. Along with that I post a lot in the lounge and both Primary and Secondary Sellers Markets. I consider myself to be pretty outgoing, and I'm always open to outside views and opinions on any and all subjects. I'm a current member of Axiom, and I absolutely love all the guys that I talk to the most in there. I took a leave from HF for around 2 years, and recently came back to become extremely active in the last 2 months or so.

Why do you wish to join Fusion?

As I said before, gaming has always been my passion. There's a reason I joined and am so active in Axiom. Once it's group is gone, there wouldn't be a truly gaming centered group on HackForums if you hadn't come along. I was worried, well I think we all were. I want somewhere where I'm able to talk to people about things I'm truly interested on, rather than joining a group where I have to walk a tightrope worrying about not meeting standards. Every since my friends and I all split up to go off to college, I haven't had a solid group to play CoD with ever. It's terrible because as competitive as I am, I strongly prefer playing with buddies to going solo. We spoke via PM about whether a console gamer would fit in after you made it seem like the emphasis was solely on PC, and I was delighted when you responded that, although maybe a little delayed, console would see light and be a prominent part of the group. I believe that with my experience and expertise, Fusion is going to be the only group for me.

What can you bring to Fusion?

For starters, activity is key to any group leader who wants to run a successful group. I can

understand that. Since coming back from my leave, I am literally on HF all day. I can be an extremely positive representation in whatever section of the Forum I'm assigned, and can represent our group better than I can say most would. I hate that I will probably be set at a disadvantage because I don't have an enormous post count, or 500 rep. I'm far more active than a lot of members with a superior post count. I believe that if you're looking for members that can truly represent Fusion for the quality it is trying to achieve, I'm a top pick for that spot. Give me a shot, you won't be disappointed.

Why do you wish to join Fusion?

I've been waiting for a gaming group that has a solid plan and knows what they want to do, as well as a group that has an organized and fun environment. After seeing what Raptor has said about the group so far, I can already tell that this group is going to fit what I just said to a tee. Leadership skills, not just someone with money, is also needed to keep the group running successfully and I feel that Fusion has that characteristic.

What can you bring to Fusion?

I have ran many different accounts, forums, and servers before so I am good with management as

well as organization. I feel I would be a benefit when it comes to setting up and running either events or servers under the Fusion name. I have been planning to do my own giveaways in the near future, but I could always donate money and/or items towards a fusion giveaway instead if need-be. I am also fairly active on the forum (I get on everyday), so I would be posting in the fusion sub forum on a daily basis. Besides that I am just a laid back person who likes to game and gets along with basically everyone.

Thank you for taking the time to read this application and I hope I can get to be a part of this group!

In DOTA I just random a hero whenever I play.

Tell us a little about yourself: My name is Sean but on Hack Forums, people call me by my alias Phoenix. I'm an avid gamer and I have been for over twelve years. I peaked in gaming from 6th to 8th grade and constantly played Xbox 360 although within the past two years I've calmed down quite a bit, only averaging about 15-20 hours a week since I've been focusing on graphic design and school. Although I constantly find myself playing whenever I need a quick refresher after a long day. Gaming with friends is one of my favorite activities and I can't see that changing within the next few years.

Current Favourite Games: I've been playing a lot of H1Z1, mostly destroying other players in the "Battle Royale" game mode. I also recently got into fighting games like Mortal Kombat X although it's weird feel on the keyboard. I've been casually playing Grand Theft Auto V with my friends and I'm really enjoying the PC version a lot more than I did on console.

Currently Played Multiplayer Games: All of the games I listed in the previous answer are all the online games that I play currently.

Throwback Favourites: One of my favorite child hood games growing up was Super Smash Bros. Melee. I remember playing with my friends when we were younger and staying up all night doing versus battles in order to unlock new characters.

Why do you wish to join Fusion? I want to join Fusion because I think it will be a change in gaming groups. When gaming groups are discussed most veteran members instantly think of Instinct or Axiom which were horrible examples of what a gaming group should be since it seemed that the groups were based more on trolling than actually gaming. I'm hoping that Fusion will be different.

What can you bring to Fusion? Aside from another gaming member I can offer my design services to members who need it in order to host a gaming event or anything along those lines.

Currently my favorite games are CSGO and H1Z1. I've been playing CSGO for about two years now and I've gotten pretty good.

I play in multiple leagues like FACEIT and ESEA. I'm always trying to improve and be the best I can be.

Currently Played Multiplayer Games:

I'm not the type of person to play a huge variety of games.

As of right now the main games I play are,

? CSGO

? H1Z1

? GTA V

? Minecraft

Throwback Favourites:

Some of my favorites from way back when I used to play console would probably be Madden and Need For Speed.

I used to play those all the time on my PS2 when I was a young kid.

Why do you wish to join Fusion?

I would like to join Fusion for the same reason I would like to join any other gaming group.

It's always nice to play with people from this community and have a chance to create something with them, whether it be a fun night of gaming or a long term friendship. I saw on the information thread that the group was going to do some tournaments, a Minecraft and a CS tourney. I would love to be apart of both of those, it seems like that would be a lot of fun.

What can you bring to Fusion?

I can help people in CSGO with whatever they need. I have a lot of experience and I'm sure I could be helpful within the group. I can help out with pretty much anything regarding cs.

If you're into csgo gambling, trading, team play, improving your gameplay, etc.. I can help you improve. You ever wanted to achieve a higher rank in csgo, well I could play with members and help them get better. I also have been playing Minecraft for about a year or two and can maybe help people out with that.

Thanks for taking the time to review my application. I hope I have a chance of joining the group. ?

Tell us a little about yourself: I'm a person with entirely too much time on his hands. I spend most of this free time reading books, watching movies, and (of course) playing videogames. My first real experience with gaming was with the Gameboy Color when I was younger, with the only game I owned being Pokemon Crystal. Later I would get a Gameboy Advance and play Pokemon Emerald, Super Mario Bros 3, and Super Mario World 2. Those were my only platforms to game on until the Wii came out, on which I focused on Super Smash Bros Brawl and Guitar Hero III. I eventually saved up enough money to buy an Xbox 360, where I discovered the Call of Duty series, the Fallout series, and the Bioshock series. Soon I started to get more into PC gaming, playing really basic indie games on Steam since they were the only ones that my subpar computer could run. Eventually I'd upgrade my PC and then sell my Xbox 360 (along with a few other Xbox 360 consoles I'd bought for cheap and repaired) so that I could get an Xbox One. After discovering how much I liked Mortal Kombat X on the Xbox One I decided to start playing more fighting games on the PC, such as King of Fighters XIII and Skullgirls. I'd also started to play more and more shmup games such as the Raiden series, the Touhou series, and the titles produced by Cave co. I eventually found myself trying out MOBA type games such as League of Legends and Dota 2 due to their unusually high popularity; however, I discovered that I enjoyed RTS games but didn't like being confined to controlling a single champion in a game. I began pursuing other RTS type games such as the Dawn of War series and Starcraft II. My patience with the Call of Duty began to steadily decline, leading me to play more and more Counter Strike: GO on the PC, which is a game I play just about nightly now. It was with this continued interest in gaming that I maintained a position in the Writ3rs doing the gaming news for a few weeks and a position in The Alliance helping members with their issues with games and hardware on the Xbox 360. Along with videogames I've been working to develop my skills in games like Chess and Go using various websites and YouTube tutorials.

Current Favourite Games: Skullgirls and CS:GO.

Currently Played Multiplayer Games: CS:GO and Starcraft II.

Throwback Favourites: Pokemon Crystal and Super Mario World 2.

Why do you wish to join Fusion? I like talking about videogames and I'd like to be a part of any projects/events involving videogames that the group may decide to host.

I've got a lot of spare time, so I'm online the majority of the day. My HackForums activity has been drastically increasing recently, so I will be able to contribute quite a bit to he group.

Current Favourite Games: Probably Runescape or Minecraft (Well. It has a special place in my heart, although I haven't played it in 2 years. I started playing in Infdev, but played it so much afterwards that I can't stand it anymore).

Currently Played Multiplayer Games: Rainbow Six: Siege, Runescape, Black Ops 3, CS:GO and depending on your definition of multiplayer, Osu!.

Throwback Favourites: I love picking up UT: 2004 every now and again. It was the first game I played seriously.

Why do you wish to join Fusion?

Well, simply put, I'd love to finally be a part of a group on the forum. One of my few interests are gaming, so it'd be awesome to be around some likeminded people, who enjoy gaming as seriously as I do. I don't really have many people to discuss the topic with, as most of my friends are borderline illiterate and are unable to form a valid opinion (it could just be that I'm a condescending prick, but that's neither here nor there :P). I'd also love to get a few more friends on my list to play some games with. Especially Rainbow Six, as it's heavily team intensive.

What can you bring to Fusion? I'm not exactly sure. I've logged quite a few hours gaming, so I'm rather experienced. I'm also fairly well written, and would have no problem contributing to threads and giving a well written opinion. Other than that, I don't know what to say without sounding arrogant.

Why do you wish to join Fusion?

I would like to have a small community to talk about gaming and maybe playing together.

What can you bring to Fusion?

I could help people which aren't experienced in games like League of Legends or FIFA.

I used to play FIFA for a lot of years (like 8 years) so I guess I could help a lot if anyone has questions about it.

3 years ago I started playing League of Legends. During this time I reached the diamond division and gained a lot of experience with several champs (especially mid & top lane) so helping other members wouldn't be a problem.

Tell us a little about yourself: I started at a young age on the PS2, playing games like madden, and ncaa. I never really was into FPS games back then. Gaming is a hobby for me alongside school, work, sports, family and friends. I like to play video games competitively, and just for fun with friends.

Current Favorite Games: COD BO3, CS:GO, BF4, BO2, GTA V

Currently Played Multiplayer Games: All the games listed above. Maybe some more I'm forgetting.

What can you bring to Fusion? Tough question. I'm not big on giveaways, or prizes. Probably wouldn't participate in much of that, but I would love to play with some of the fusion members, and be part of HF's best gaming group. I'd be more than willing to help members out with their issues, both personal and technical.

Tell us a little about yourself: I'm 16 years old and I've pretty much been a gamer as long as I can remember. Even when I was a little kid I would constantly be playing Ratchet and Clank on my PlayStation 2. To this day I still actively play and enjoy all forms of video games, and am always looking to play new ones. I enjoy conversing and befriending other gamers.

Current Favourite Games :CSGO, Star Wars: Jedi Knight Jedi Academy, Garry's Mod, COD Black Ops 1, GTA 5, Fallout 3 and Temple Run lol.

Currently Played Multiplayer Games: CSGO, GTA 5 and Garry's Mod

Throwback Favourites: All the Ratchet and Clank PS2 games and all COD's up to BO1

Why do you wish to join Fusion? To converse with people to further extend my gaming experience. I feel as though Fusion is an opportunity to reminisce and appreciate all forms of video games, all in one place. I feel that as an avid gamer, I belong in that place.

What can you bring to Fusion? Nostalgia. Help bring back memories of good times on classic games. I can also offer help for anyone new to games such as CSGO; I have had many hours of experience grinding the game and can easily teach other newer members about it. Most importantly, I feel as though I can bring a positive and chilled attitude for all my other gamer buddies.

Nationality/Age: American, 16.

Location: Australia, OCE.

Interests: Soccer, socializing, making money and gaming.

Throw back Favs: CS 1.6 and WoW Burning Crusade.

Extended Responses:

What are my most played games? I consider myself a competitive, enthusiastic and chilled back

gamer. I currently hit around 4,000 hours and rack the highest competitive rank, global elite in Counter Strike GO and have participated in numerous competitions and have taken many roles in small non-profit teams. I also lead of in a high degree to another well known PC game that I've estimated a total of 10,000 hours and that I've been actively playing since 2008, world of war craft.

Other games I enjoy: In the PC area I enjoy playing: H1Z1, League of Legends, Counter-Strike: Source, Garry's Mod, Grand Theft Auto V, World of Warcraft | Drifting over to PS4, I play: Call of Duty: Black Ops III, Battlefield 4, Fallout 4, Grand Theft Auto V, FIFA 16, Just Cause 3.

Why should I be chosen to join Fusion? Drifting away from my social life, I heavily love playing video games casually and competitively. The main reason you should accept me into Fusion is because I'm a avid and skilled gamer who is looking to participate more in the games I excel in; however, along with other members of HF who have the same interests as I do. I also am more then happy helping people amongst the group with the knowledge I have, I'll also strive to uphold the name of Fusion outside the SF. I also have high experience with gaming groups amongst the site, hence the fact I was involved in past groups such as; Instinct, Nightfall and Respawn. Therefore, I know what is expected of me from the leaders, members and the site as a whole.

What can you bring to Fusion? My actions speak louder then words, i'll let my actions speak for them self.

Good luck other participants.

Why do you wish to join Fusion?

I recently left a community (not related to HF) due to getting bored of the game it was focused around. Aside from programming homework, I also do programming for a minecraft server and on off times, programming for my game. I'm a dude with a lot of ideas so when it comes down to things I'm hardly organized with my work. I habitually work on the newest ideas over the coolest ideas because my motivation leans towards the newer ones. I'm getting better at managing that but it's still a work in progress.

When it comes to gaming, I've been a gamer since a kid. I was introduced to it by my father after observing him play Doom and Mario 64. Soon after I found myself playing Mario, and wanted to play Doom but he wouldn't let me.

Then one day I accidentally wiped the N64's memory. RIP the saves, and he never played games again. To make up for it I promised that I'll get all his stars back on Mario, which I did, 7 years later (I was 12 or something).

That's my brief history.

Current Favorite Games: If My Heart Had Wings (a damn good visual novel), CSGO, Elite Dangerous

Currently Played Multiplayer Games: CSGO, Elite Dangerous, GTA V

I have plenty others but I don't play them just because my friends don't play them.

Throwback Favourites: Mario 64, Starfox 64, Super Mario Sunshine, Legend of Zelda Ocarina of Time, and Four Swords, and Minish Cap.

Why do you wish to join Fusion? A lot of the time, my friends don't play when I do. It'd be great to have a larger community as well

What can you bring to Fusion? I have no clue. I mean, if anyone wants to make a minecraft server, I have a crap ton of knowledge on it to offer (when it comes to how to work with the community).

Why do you wish to join Fusion?

I wish to join fusion as it is one of the very few groups of HackForums that I've felt the urge to apply for. Most other groups are built upon marketing, money making and general talk. Fusion is different. Fusion is a group of gamers, people who are all in the same territory. We all love the day-to-day hobby of gaming, and I'd love to join Fusion to share my passion and enjoyment with fellow HF members.

What can you bring to Fusion?

Fusion is a group built upon gaming, something which I am passionate about. I'd love to be able to join in with contests, events and tournaments within the group and be able to socialise and interact with members who offer a similar interest to myself.

Thank you for the consideration!

Gaming Platform:

My preferred gaming platform is PS3 because it has the most fighting games, but I also occasionally play games on PC.

Region of Residence:

United States, East Coast

Tell us a little about yourself:

Well, for starters, I love video games as you'd expect. I recently turned 18 in November, and I'm out of high school and I'm not going to college for a while; I don't feel like I'm ready. I play video games 70% of my life, the rest I dedicate to sleep and other needless activities lmao. I build gunpla and collect action figures and other weeby activities. And I produce music for fun, but competitive fighting games is my true passion.

Current Favourite Games:

Ultra Street Fighter 4

I currently go to tournaments for this game. It's my favorite fighting game and the first one I really

got serious about and it got me into the FGC. I play it on both PS3 and PC.

Under Night In-Birth: EX Late

I play this game ever so often, but I'm not that good at it. It's the only anime fighter besides Aqua Pizzaz that I would put my time in because it has fewer characters and is more based in matchups and mindgames. I'm glad it's coming to Steam soon.

Ultimate Marvel vs. Capcom 3

I play this game often, but I'm horrible at it lmao. It's been out too long and the skill gap is way too high for me to try and get good, but I play it.

Street Fighter 3: Third Strike

It's an old game, but I'm starting to like it more than Ultra purely because it's less BS and it moves faster. I can't wait for Street Fighter V because it's so similar to 3S

Super Smash Brothers Melee

Another age old game that I still love and play a lot. Melee is such a good game to play because it's so open ended. In traditional fighters there's set combos and really only a couple ways to get around(walk, dash, walljump, teleport ect.), Melee has so many movement options and the combos aren't defined at all.

Currently Played Multiplayer Games:

Ultra Street Fighter 4

Under Night In-Birth: EX Late

Street Fighter 3: Third Strike

Throwback Favourites:

Most Capcom games, Crash Bandicoot, Gen 3 and below pokemon games lol, and Legend Of Zelda: Ocarina Of Time. My all time favorite though is probably Chrono Trigger.

Why do you wish to join Fusion?:

What really pulled me in about Fusion is the tournaments. There's nothing I love more than playing games, and specifically fighting games competitively. Of course there's other things like the people and interacting with more gamers and possibly getting people to make the fighting game community more apparent on this site, but the competitive aspect in my eyes trumps everything else.

What can you bring to Fusion?:

Massive amounts of competition and the endless desire to learn, grow and improve as a group and as a player. I'm sure almost everyone that wants to join Fusion is human, I hope lol. As being humans, we're inherently imperfect thus there's always room to improve on the simplest of details; where it be gameplay or how we interact with others, and I want to help with that. Previous gaming groups had events with competition, but none of them really did well or got a lot of attention as far as I know, and I don't really want that to happen with Fusion. I honestly really hope I get accepted.

Competitive Experience:

For probably the last year or so, me and my friends have all starting to get more deep into the competitive scene of games, and we even started our own team with a Fighting Game sector and FPS sector. Since I got into the scene, me and my friends have been going to almost every major fighting game tournament on the East Coast(shout out Big E) and we've been doing pretty good. My little brother got 5th place in SSBM, and my younger team member got 5th in UNIEL, both at Summer Jam 9. I myself haven't place anything note worthy purely because I'm coming in the USF4 scene super late, and there's a huge skill gap from me and a bunch of the other players, hopefully that'll change once SFV drops, because I can already tell that the competition is going to be fierce.

I am a student as well as a gamer, that has been playing for countless years. In my earlier years, I've gamed a huge amount, almost spending all of my time on video games. I later started getting into video games such as CS:GO, and from there, I learned about HackForums. Essentially, I've been gaming for a while, and most the time, I play by myself making it relatively boring. So this would be a great opening to gaming for me if I am accepted. ?

Fusion seems like a great group with an awesome community. Now that Axiom is being sold, I really have no place to be, to share and expand skills, and meet new people. I'm an avid gamer, and most of my free time is spent on video games or here on HF.

What can you bring to Fusion?

To an extent, I am able to help out with any graphics that are needed, or help with sales or anything in that nature. At times, I will be glad to host giveaways under the Fusion name, and help users with their skills in gaming. Occasionally, I like to get in a skype call, and just have a nice time. I could also help out with guides, or help administrate anything if needed. I may start to stream very soon as well, and thus if I am accepted, I will be sure to give the Fusion members any help / support with their channels and social media as I can. I am a very motivated individual, meaning if you have a task for me to do, I will get it done. I am relatively friendly, however at times, I do indeed crack some jokes. Overall, I hope I will be accepted. I thank you for taking your time to read my application, and I hope the next time you see this I will be one of your fellow members of the group!

I am currently doing a 3 A-Level Creative Media course, which includes being on a computer 24/7, writing essays, working with cameras, creating presentations, and my favorite, editing videos! Soon I will be purchasing a mac computer for the sole purpose of using Final Cut Pro. I plan to create funny videos which will mess around with your everyday TV show and just make them into one big meme. If that fails, or just as an extra, I will be running around my local area doing random and funny stuff like going in the library and eating some lettuce really loud. Trust me, I will do it. I will be going to university to further my career in Media once I complete my current course.

Current Favourite Games: For the Xbox One- Fifa 16, WWE 2K16, GTA V, Rare Replay. Mainly Fifa, I play that the most. PC- Warhammer, I have five different Warhammer games. My favorite is Dawn of War. If you enjoy playing any Warhammer game, you and I are gonna waste a lot of time playing co-op my friend.

Currently Played Multiplayer Games: I play Fifa 16 often. I am currently in the best club in the world on Pro Clubs. I am every year. I'm also in the 2nd division in seasons, I have got promoted on every attempt. I play all the other games rarely but still have fun when playing them, I'm not the best however.

Throwback Favourites: Playing pro clubs back on the Xbox 360 and owning both the 2nd and 4th best club in the world. I made a massive name for myself that year and became one of the best on the game. I became friends with every top Fifa pro clubs player and played for every big club to touch the game. My clubs often went from division 10 to division 1 only losing 10 games. I played both CB and CAM. I joined the Sir clan towards the end of the game and played CAM behind the best ST in the world for many months. I am just starting to play Fifa on the Xbox One again but have no doubt that I will be that big again. I am in the #1 club in the world already, after all. WWE on the 360 had many great moments for me too. From me going to #5 in the world, to becoming one of the most feared members on the game. I can load up that game and just say one word to people and they will instantly tremble at my feet. My old alias. Also Crash Bandicoot and Simpsons Hit & Run the PlayStation. Can't forget Mario Kart on the Nintendo DS either!

Why do you wish to join Fusion?: I love gaming! Even if we don't share the same interests, I can guarantee I will find something to enjoy with every member in the group. If there are any Fifa players, we would be the best of friends. Even WWE and GTA players, we would have a great time on those too!

What can you bring to Fusion? Honesty and loyalty. Also, fun. I can be fun with basically any human being, it's a skill really! I would help out the group in almost any way I could. I will not post Low Quality around the forum, as you can see from my previous responses over Religious debates and conspiracy theories.

I also have experience in all CoDs except W@W(Never played it, ever, sadly...) and I like to keep myself up to date on shooters. It was the best at the time and i used to play gta san andreas all day! Right now I recently got into pc gaming and just stopped playing xbox. I got a pretty sweet build and have been in love with pc gaming every since! I love CS:GO, i play it whenever i can. I'm a pretty chill guy that has a lot of enthusiasm!

Current Favourite Games:

GTA V, Just Cause 3, CS:GO, Rust, H1Z1, Fallout4, Rocket League, Halo 5 Guardians.

Currently Played Multiplayer Games:

Currently i play a shit ton of cs:go i used to be SMFC and had 1000 hours however that steam account i lost and i made a new one for the time being. Now i usually play CSGO with a mix of H1Z1 and some Just Cause 3 when I'm bored.

Throwback Favourites:

GTA San Andreas, GTA IV, GTA III, NBA 2k10, Super Mario Bros. (SNES Version), and Saints row 2.

Why do you wish to join Fusion?

I wish to join fusion to meet others that i play with and just overall have a fun time with. Also that user bar is very tempting!

I have played games for most of my childhood and even now because lots of my friends share the same interest as me and its always a blast to have them around. I am not much of a competitive player but hanging out with my friends in premades are so much more fun than playing seriously. Joking around and learning at the same time is my way of playing.

Current Favourite Games:

I play tons of Counter Strike Global Offensive and League of Legends. I play with my friends on there a ton with over 4k hours in each game and I haven't regretted any of it.

Currently Played Multiplayer Games:

Counter-Strike: Global Offensive, League of Legends, Left 4 Dead 2, Garry's Mod, Minecraft (rarely), Cards Against Humanity, Day of Defeat, and Running With Rifles and every single pokemon and call of duty game.

Throwback Favourites:

By far, my favorite throwbacks are when GTA 5 Online came out on the Xbox 360 and me and my friends had a blast on that game. Group bullying(sounds wrong but not literally) , Missions, Cars, everything in a sandbox game that you could ever want. Till... the titans reached wall marina. When I mean titans, I mean hackers lol. It kinda fucked up the economy and everyone had the same thing and it wasn't as fun anymore sadly.

Why do you wish to join Fusion?

I want to join fusion because it looks like everyone who has posted or applied are avid gamers and expanding my relationships with new gamers and bringing my knowledge of various games into the group would make my life in this online world even more fun.

What can you bring to Fusion?

I would like to bring my knowledge of CS:GO and League of Legends into the group in order to expand its horizons and give tips on how to improve while having fun at the same time. I hate it when I see people trying to just grind the ladders in these games and no one ever remembers to keep fun in the mix because it does not even become a game anymore. A game is meant to be enjoyable, not endless grinding non stop until you're "good".

I am currently Supreme Master First Class in CS:GO and Platinum 3 in Solo Queue and Diamond 1 in 3v3s (Its still preseason and I think it can only get better) in League of Legends. In all these games I play, I have never taken any of them seriously and I hope to teach this way of playing within Fusion.

Current Favourite Games: Don't hate, but I really enjoy first person shooter games, and these are premiere examples: Call of Duty 4 and on!

Battlefield 2 and on!

Yeah, I know that's not a large variety, but when I'm on PC I play basically any game. From

Payday 2 to League of Legends, all the way to Minecraft ;)

Currently Played Multiplayer Games: Entire multiplayer CoD series as well as League of Legends/Minecraft.

Throwback Favourites: To be honest, I really haven't played many really far thrown back games that I can honestly say astonish me. But, if Call of Duty 4 counts as a throw back, that's for sure a great game.

Tell us a little about yourself:

All of my life I have played different types of games, starting off with Runescape back in '04. This was the first game that got me into gaming. I played this game expensively and managed my own skilling clan to become lvl 99 in all skills. Back then there were no bots, only macros, so I started this as a way to keep everyone entertained while skilling so we would not get too bored. After a few years, I made a main and started PKing and joined many clans to run the wilderness.

After a few years, I reached out to Guild Wars which was a widely known RPG (the other WoW many would say) and started playing this. Dungeoning and PLvLing many players through the game. I joined a few clans in this and got active within the DLCs that were released in the years

following the games release.

RPGs were my favorite type of games at this point, but I wanted to reach further out into the world of gaming so I found a game called, "Combat Arms" which was an FPS game made by the greedy company of Nexon. The only reason I say that are greedy is because this game evolved so much into a pay to win which is why in the end I quit and moved onward to other games. While I was playing Combat Arms, I was in a clan called "Renegade Soldiers" which was widely known in its time and demolished the clan ladder rankings, but everyone grew apart and moved on.

After this, I joined the small community of Minecraft Alpha back in late '10, which I started my own community called OG, which later evolved into Vysx Gaming and this is one of the main reasons I joined HF back in 2011.

I have over 1,000 posts in the Minecraft section:

Spoiler [\(Click to View\)](#)

This was the start of my HF life, and has made me even more of a gamer, I found my Minecraft community partner on here and from back then to now, we have strived on a community but recently shut down due to real life education issues so now I only focus on games such as CS:GO and League of Legends [Diamond from S3 to Current].

Current Favourite Games:

My favorite games as of now are CS:GO and League of Legends because they have such an amazing sense of strategy behind them. They are so evolved around a team which I love and the only way to win is to work together. I mainly play with friends I know that are of equal skill level as me.

Currently Played Multiplayer Games:

I currently play League of Legends and CS:GO mainly, as they are my favourite as well as the reasons stated above.

Throwback Favourites:

My personal throwback favorite that will always stay with me is Runescape back in '04 to '07. This game is what introduced me to PvP features as well as an RPG and MMO aspect on gaming.

Why do you wish to join Fusion?

I will be a good addition to Fusion because I believe that I am a high quality member as I try and get along with members as much as I can and cooperate to learn as well as share my knowledge. I have not received a negative reputation in the little more than four years I have been on HF as well as not received a neutral rep in almost two years now!

What can you bring to Fusion?

I will be on everyday that I can and everytime that I am on HF, I will be checking in the Fusion

subforum as well as posting and talking to other members of Fusion. I can post tutorials for Fusion in the League of Legends section as well as the CS:GO section.

I also want to game with other Fusion members because I love meeting new people!

I'm a really nice dude in general. I'm 17 and I'm a sophomore in university.

I'm majoring in Legal Management, which means that I'm on my way to becoming a lawyer.

My friends and most of the people that I know irl describe me as "the cool, lead drum-playing, varsity debating, hard drinking, womanizing, Volkswagen-beetle driving nerd/smartass/bro".

I'm a high-ranking member of our university's varsity debating squad and I play tennis in my spare time. I'm also the lead drummer in a band that me and my mates formed back in high school.

I love intellectual conversations, especially ones about pancakes, Star Wars, and modern political theories. (and about games of course.)

I have a girlfriend named Vilma, and she's way hotter (and, surprisingly, nerdier) than me. I also have an unexplained addiction to pancakes.

Current Favourite Games: I play Counter-Strike alot, but lately i have been starting to play Hearthstone again. Also games like Payday 2, Heroes & Generals ect. I would love to get some company to play with.

Currently Played Multiplayer Games: CSGO, Payday2, TF2, H&G, Garrys mod.

Also plenty of other games, you can check my steam profile [here](#)

Throwback Favourites: I used to play alot of Pokemon on Nintendo, and still secretly actually do. I also loved OS Runescape and Nintendo games.

I also used to play COD 4 and MW2, best time ever.

Tell us a little about yourself: I started gaming at since childhood. Playing games is my everyday habit. I spend hours playing it. Playing games has become a passion for me. Now apart from playing games. I been working in designing the games and trying it. This practice is enhancing me day by day Unity and Cry Engines are the coolest stuff for games. The craze of playing games started with school mates in later became the a little Champ of it. Now like playing online games with the international players. And trying the best into it. Making the new high scores and breaking the old scores is my daily habit and I love doing it. Playing internationally an online games is the most favorite as their I get the platform to show and prove my real talent. And also learning new stuff and stunts is the awesome things.

Complete game and reaching the next level makes me feel cool. I completed "The Avator" game in 5 days. Made Vice City complete in 2 weeks. San Andreas in a month. Halo just in 2 days. Counter strike in 7 days. Residential Evil in a months. House of the Dead in a week. Spider man in 3 days. And Iron man in 4 days. Name lists of game played by me and its package is unlimited with me. And Sants raw not completed yet i am working on it would be completing it very soon.

You can give me any game to play If I once understands the theme I can complete it in no time. I am also an evil genius in cracking the game and configuring the games and its setup .

There are more than thousands of games which I completed in a days or 2-days.

Which I got completed without using any Codes or Trainers.

I like the shooting games a lots And if its about zombies then I just fall in love with the Game.

Current Favourite Games: Halo, Counter Strike, GTA 5, Saints raw, Iron Man(Favorite as I fly in this, Motal Combat (3,4,8), Spider man (favorite as I fly in this)

Currently Played Multiplayer Games: Halo (most favorite as multi player) , Counter Strike(most favorite as multi player), San Andreas(most favorite as multi player and I got chance to perform stunts),

Throwback Favourites: May be you will laugh at this but only this I remember currently. Since child I been playing Halo and Counter Strike regularly and still I prefer to use PC as now I got perfect in this.

Well playing so much games regularly has proved me a black sport on my right hand which happened due to playing shootings games. And also I have rainmeter installed with is totally based on IRON MAN and HALO themes and motivates me to play and programs the games more. And, I also edited Sandreas games and a total separate city of my locality.

Why do you wish to join Fusion? I wish to join this group as its #1 offline communities where all the talents are given the chance to show it whether its Graphics , codes etc. And its only group where I am suitable to shows my hidden talents. And will also get a good player who apart from hacking and other stuffs finds time like me to play Games.

What can you bring to Fusion? I will try my best to bring a fusion. As I also makes Games (using Unity, Cry engine etc) I am sure many other who are in the groups will like my skill and talents in the group and can be proven very helpful to each other.

Why do you wish to join Fusion? So I can literally get amongst all the gamers on HF and talk about gaming experiences. Maybe share some youtube content with each other. Gaming has been a large part of my life and I would love to share it with others on this site.

What can you bring to Fusion? A moderate amount of activity. I'm obviously not on this site all day every day (cause I'm either playing games or other stuff ?) I'll definitely be adding anyone who still plays the old Halo games and I would be happy to host any fun custom games on Reach if anyone

would be interested.

Tell us a little about yourself:

I am 22 years old this year. My gaming experience started from 8-bit NES which I played until I got my first PS1. Shortly after PS2 was released, but I wanted more.. Even PS2 would not satisfy me any longer.. This is when I found my true calling.. The Glorious PC Gaming Master Race.

I started my PC gaming very humble, Mainly experiencing the joys of RTS via Age of Emepires 1 & 2, and Age of Mythology. Eventually I wished something more flashy and moved to Garena for WC3 Dota lobbies (The wiki page is kinda false, garena client existed before the 2009 company in case anyone asks), Which I enjoyed until my true ascension.. This was the promised day Crysis series hit the shelves in our local market. I prepared just enough money to buy a budget enthusiast PC which was enough to run the game in "HIGH" detail @ 45fps.

At this moment I have my eyes set on VR.. This shall't be the future.

Current Favourite Games:
Age of <series>, Crysis series, Left 4 dead 2, CS:GO ZE Mods, Just Cause 2.

Currently Played Multiplayer Games:
Age of <series>, Left 4 dead 2, Rocket League, Just Cause 3, Phantasy Star Online 2

Throwback Favourites:

Pokemon Yellow @ gameboy color, Super Smash Bros @ my friends.

Why do you wish to join Fusion?

I wish to discuss the joys of gaming with similar minded people, and possibly learn new aspects of gaming and treasure the time spent as member.

What can you bring to Fusion?

While I'm a goal-oriented player who wish to win, I'm also a good loser. I play for fun, but I like to achieve something as well, whatever it would be simply some experience or even rating.

I have hosted srcds gameservers before, and I have intermediate knowledge about hosting gameservers in a windows/linux environment. Come and talk with me if you wish to setup L4D2/CS:S server, i'll gladly help you :)

Peace.

I was born in Kazakhstan before moving to the UK and currently studying and living here. I've had

my fair share of gaming experience and also running clans and servers.

When I used to play Combat Arms, I had a gaming clan and we used to play competitive.

Same with APB, had an enforcer clan that had good friends and we used to do missions together and have fun.

After that, owned a few minecraft servers that lasted a number of different years and with a fluctuating popularity.

Currently I'm interested in graphics and web design and have had many previous experiences in running my own forum/website.

Current Favourite Games: League of Legends

Battlefield 3

Currently Played Multiplayer Games: League of Legends Throwback Favourites: Old need for speed games that I used to play on the Gameboy

Why do you wish to join Fusion? I've been looking for a solid group to join after the fall of 'The Empire' and have been looking for a while. I'm intrested in Gaming and playing competitively as well as meeting new people on HF to play with this and engaging in the group subforum.

Fusion looks to be also a unique group or one that is on some what different scope to other buy ins and money focused groups which is nice to see and finally a change that HF needs What can you bring to Fusion?I saw in the planned Fusion roadmap that you are interested in hosting tournaments and also a minecraft server.

I've had many years of experience in running my own server and as such using the multicraft panel etc.

As well as running a forum/website for a server. I can help Moderator and I have had some experience of being a Moderator on an ex popular minecraft server (50-100 players at one time)

Furthermore, I see that you are planning on a gaming themes bulletin. I can also volunteer to help with that in writing articles.

Tell us a little about yourself:

I am Kurtis, or as most people will know me as, 'Inserenity'. I live on the Eastern Coast of Australia, born and raised. Just had my 15th Birthday on the 6th of January. I am an ex member of the group 'Nightfall', I was added in for free by 'Teh Afro' after helping him out with some imposters trying to scam people under his name. I am also approved for ub3r, which hopefully I will be purchasing soon. I honestly believe I am well ahead of my age, I have made \$500 AUD from eWhoring, almost \$700 AUD from CS:GO trading, etc. I found eWhoring morally difficult, but it helped in the long run as my parents then needed to borrow over \$900 from me for over 10 months. I love to play video games, but I also love doing anything extra I can do. CS:GO is a great example of this, I very much enjoy playing the game, although I love trading and playing on surf servers as well. I was first introduced to video games when I was about 4 or 5. I used to play on my dad's PS2 playing all the classics - Crash Bandicoot, GTA: SA, GTA: VC, and plenty more. I have a small skill set, but I believe what I can do, I can do very well.

Current Favourite Games:

With over 120 games in my Steam library it is hard to say. But currently I have really been enjoying - CS:GO, Grand Theft Auto: V, Fallout 4, The Witcher 3, Garry's Mod and Rust.

Currently Played Multiplayer Games:

Most of the games mentioned above, but I also enjoy MMORGs such as Runescape and World of Warcraft occasionally. I am almost able to play competitive again on CS:GO so once I get level 3 out of the way I will be playing that heaps more (~570 hours currently) Haven't played a lot in the past 6 months.

Throwback Favourites:

Crash Banicoot, Spyro, Spy vs. Spy, GTA: SA, GTA: VC, GTA: III, Need for Speed: Underground and basically every Pokemon game in existence. I also LOVED CoD: Black Ops, it was the first game I got for my Xbox 360 back in 2010.

Why do you wish to join Fusion?

Joining Fusion would be an awesome opportunity for me to meet and be able to play more games with more people. I think Fusion has a lot of potential as a great gaming community and I would absolutely love to be apart of that movement.

What can you bring to Fusion?

I believe I can bring extensive knowledge for a large variety of games if any other users need help with anything. I also obviously thoroughly enjoy playing video games and if any users need someone to play a match of CS:GO with or any other game I would be happy to join in. I used to do graphical effects and editing back in the 2012 area, so if it is needed I could start doing that again. I also just get random bits and bobs around the place, such as origin accounts, etc, so if I ever get some I can shout some of the users in the group!

All in all:

I would love the oppourtunity to be granted access to Fusion. I applied in the second wave but it was extremely rushed, hopefully this new application gives you an improved outlook on the type of person I am. Thank you for reading my application and good luck to everyone who applies, and of course congratulations to all the users who have already been accepted!

About Me!

Gaming Platform [PC/Xbox/PS4/Other]:
PC and PS4.

Region of Residence [NA/EU/OCE/CN/Other]:
EU or UK to be more precise.

Tell us a little about yourself:

Well I would like to start off by introducing myself to everyone at Fusion. I'm known as Jon Snow., and I'm 17 years old and from the UK. Ever since I was a child, I have always had a passion for video games, whether it was playing Atari and SEGA for the first time at the age of 4 years old, or whether it was yesterday night when I was playing some BO3 with my friends. I've been through loads of consoles over the years, which include XBOX 360, XBOX ONE, PS3, PS4, Nintendo DS Lite and the Nintendo DSi XL. However, as I like to only keep the best of the best consoles, as mentioned above, I've stuck with PC and PS4. More about myself as a person, I am a enthusiastic individual who loves socialising with other people who have similar interests to myself, and in this case, Fusion would be the perfect place for me as it is a group built up of Gamers.

Current Favourite Games:

Call of Duty BO3, Uncharted: The Nathan Drake Collection, GTA 5, CS:GO, Minecraft, Star Wars Battlefront and FIFA 16.

Currently Played Multiplayer Games:

I play a lot of Multiplayer games in comparison to campaign only games, because I enjoy sharing the fun experience with other gamers such as my friends and family. Some Multiplayer games which I currently love and am addicted to are BO3, Star Wars Battlefront and FIFA 16. However, even though I am only currently addicted to playing these three multiplayer games, I am easily influenced in to playing other games if I have other friends who play them too.

Throwback Favourites:

Just Cause 2, Saints Row: The Third, GTA: San Andreas, GTA: Vice City, Super Mario Bros. (For Nintendo DS) and finally Legend of Zelda: Ocarina of Time (Nintendo 64 and 3DS).

Why do you wish to join Fusion?

I would love to join Fusion for a variety of reasons, but I'll try to keep it short and snappy so you don't get bored of reading. Firstly, I've been looking for a HF Group to join for a long time now, since I haven't really been active for the past few months, but I am trying to get back in to the forum game, and am looking for some sort of a "family" to join.

I feel that Fusion is the correct group to apply for, and I don't wish to apply to many groups, as I

would like to keep my time and dedication to one, special group. I want to be able to share my fun and gaming experiences with other members of the group, and hopefully get together with lots of gamers and have "gaming nights" which would be a really cool and fun idea I believe.

What can you bring to Fusion?

In this section, I wasn't too sure what to originally write, but I know realise that Fusion isn't about just being constantly competitive only, it's about lots of gamers whom have similar interests having a lot of fun together, who are also allowed to compete against each other for FUN. If I were to be accepted in to Fusion, I believe I would bring a lot of Fun and Happiness to the group, along side being able to help organise certain events, and if were ever to have a big competition within the group, perhaps I could donate some prizes to be given away. Overall, I may not have any special "skill sets" such as being a GFX Artist, or being able to help mod etc., however I believe I am a good gamer, alongside being a fun and enthusiastic person, who will make sure everyone in the group comes together and plays together.

I would like to finally also say to the group leaders, thank you for allowing me to apply to be a part of this group, even if I am not accepted, it's been fun creating my application and thinking of loads of nostalgic games I used to play.

I've been fairly around HF for a long time right now. (4 years approx.) I've been a friendly and trustful member of the community during my stay and wishing to be the same for the upcoming years as well. I've also been a hardcore gamer since a long time.

The gaming life started way back when we had the little video game console as kids when we used to play Contra, Mario, Olympics, Circus, Adventure Island, Pokemon, Ninja Turtles, Pacman and all those other epic games. <3

Gaming has been a part of my life since forever. Currently I'm fully dedicated in playing League of Legends, Counter Strike: Global Offensive. I'm well experience on league because I've been playing for four seasons and have reached a decent rank of Platinum on two different accounts I played the

game on two different servers. New to Cs:Go, learning the ways of it. But not new to FPS games though. Been playing CoD 4 for 5+ years right now. Had like 4k or 5k gaming hours on X-Fire.

That's pretty much about me I guess.

Current Favourite Games: League Of Legends (4 seasons, Platinum II on NA and Platinum V on SG).

Counter Strike: Global Offensive (200 hours+ and Gold Nova III).

Dota 2 (Rarely played).

GTA V

Call of Duty 4: Promod (Yes, I still play this for the love <3)

Throwback Favourites: Original super smash bros games. Hmm. I thoroughly enjoyed Morrowind and Runescape as well back in the day.

I'm 20 years old, and I work a full-time job, but when I'm not working I'm home like a little nerd I am and on the computer 24/7. I love competitive gaming, I used to be in the group "Respawn" back in the day when Vinnie was the group owner. We used to play Gamebattles for Call of Duty, we played RuneScape and everything. I'm an avid gamer and always strive to be the best in every game I find myself into. We also used to play MineCraft and played on Omni's MineCraft server. I've been playing RuneScape for about 9 years, Call of Duty since COD 4, Halo since Halo 2, the first Gears of War, and all the games in between. I've been around games basically my whole life.

Current Favourite Games: RuneScape, Call of Duty, Halo, Gears of War, MineCraft, League of Legends, a few other games as well on steam, etc.

Currently Played Multiplayer Games: RuneScape, Minecraft, and Call of Duty

Throwback Favourites: I used to play Club Penguin, CounterStrike, Habbo Hotel, Call of Duty series.

Why do you wish to join Fusion? I want to help out the community of us gamers and bring us together to make a good team. I would like to learn more as well because I'm not the best but I would like to become better and share with others.

What can you bring to Fusion? I would like to put my gaming knowledge into Fusion and help other people out and make friends. I can teach people how to help better them in certain games. I've been gaming for over 10 years consecutively and want to bring Fusion into an alliance to become the best gaming group there is.

Why do you wish to join Fusion?

I want to join Fusion for the community. I want to be a part of a tight knit group that i could benifit from in many different ways, and to also find new friends to game and talk with.

What can you bring to Fusion?

I could contribute to the group by helping fellow members out with something i might have more knowledge in, and im also very friendly. I really like to do graphics so if any member of the group ever needs something i would be more than glad to help in that aspect. I could also contribute a lot by hosting giveaways and such under the fusion name.

Thank you a lot for looking this over and giving me the chance of joining the fusion family

Tell us a little about yourself:I'm a 17 year old guy that loves relaxing and playing video games with

friends. I've been gaming ever since I was young, when I sat next to my father while he played on our gamecube.

Current Favourite Games:CS:GO, Zelda: Ocarina of Time, TERA,Minecraft.

Currently Played Multiplayer Games:GTAV, CS:GO, LoL, Garry's Mod, Minecraft.

Throwback Favourites:Definitely would have to be Zelda: Ocarina of time. Its such an enjoyable game to play casually or speedrun.

Why do you wish to join Fusion? I'm looking for a group of like-minded individuals who share my passion for playing video games, and also people who I can get to know and chill with.

What can you bring to Fusion? I have extensive knowledge of CS:GO, as you can tell by my post sections, and I've also played minecraft for quite awhile. I think that I could be able to offer my skills to help lesser skilled members who play those games.

Tell us a little about yourself: I have been "gaming" for easily 6+ years. I am 14 right now, and have probably been an active game player since I was around 8.

Current Favourite Games: CS:GO mainly, bit of MC, too. I used to play LoL and HearthStone, but they got a bit boring. Looking to buy some more games soon, though.

Currently Played Multiplayer Games: CS:GO, while I don't play it as much as others, I still think it's a fun game. As well as a bit of MC as mentioned above.

Throwback Favourites: I don't do it anymore, but I used to troll on a smurf with my friends on CS:GO, doing stupid stuff.

Why do you wish to join Fusion? I'm looking to become more active on HF in general. At the moment, I feel like I'm not really as socially active on HF as I was on the old forum I used.

Tell us a little about yourself: Upon many other things I could begin this explanation with, I figured I'd start with what I'm able to do within my PC gaming expertise. By all means I'm not a big coder, or anything like that, however my management skills are precise and pristine. I will vouch for myself on that. Project management is something I've thrived off of being good at for years. All jobs I've held in real life have been based around customer service and project management. I run an online Habbo Hotel private server which peaks around 40-50 users online at the moment, bringing in a decent monthly revenue, and bringing users together in a comfortable MMO environment. I currently manage and run a Windows VPS company along with a Remote DDoS Protection company. This among all things, brings me to my final personal elaboration, which would be that I am a 19 year old male that fancies people, networking, gaming, and proper conversations.

Current Favourite Games: BO3, TW3, and of course the OG MW2.

Currently Played Multiplayer Games: The games in which I've listed above are mainly multiplayer. I also enjoy PC games such as Habbo Hotel, LoL, and WoW.

Throwback Favourites: Oh my! I used to be in love with the game Impossible Creatures when I was a child. If you're unaware of what that is, here's a link - <http://store.steampowered.com/app/324680/>

Why do you wish to join Fusion? I wish to join Fusion as I think that my project management, customer service, and people skills could really bring in a distinguishable difference among the groups of HackForums. A lot of groups focus on mainly being the "largest" or the "most powerful" but what if a group were to focus on what their original intent were? What if a group were to be known for being logical and educated but also able to have fun and enjoy a good MMO?

What can you bring to Fusion? Although I've incorporated this question in a majority of the answers above, I still feel as if my wisdom, businesses, and management skills could truly help Fusion thrive and become the best.

Thanks for reading.

I'd say in the most recent years I've become a true PC gamer. A little over a year ago I built my first pc, which in my opinion is when I officially made the switch over from console gaming. Building my own PC allowed me to create a gaming machine to suit my specific needs as a hobbyist; definitely

an experience I'll cherish for a lifetime. I still dust off the old Xbox 360 every once in a while though to play some Search & Destroy on Modern Warfare 2 or some Team Slayer on Halo 3 for the sake of nostalgia. However, as far as console gaming comes I mostly find myself on my Xbox One which offers a much more modern feel that I have become accustomed to as of late.

Region of Residence

NA.

Tell us a little about yourself:

The name is James and I am 20 years old. I've been a member here at HF for around 5 years, give or take. Back in the day I most used to utilize HF as a platform for finding friends with similar interest, but more than anything I use it as a learning tool and marketing platform now. I'd like to go back to my roots though, which is why I am applying here today. I've worked very hard to establish myself as a trusted and reputable member of this forum. I like consistency, which is why I have not changed many aspects of my profile such as my username in almost 4 years. I want people to know my brand and what I represent.

Current Favourite Games:

RuneScape, for sure. I'm a huge fan of MMORPGS, and RuneScape has been one game in particular which has grown on me. I first started playing in 2004, and have been playing almost regularly since then with a few breaks ranging from a few months to a few years due to real life responsibilities. It's been a big part of my life and I don't plan on quitting anytime soon.

Currently Played Multiplayer Games:

As stated above, RuneScape. It is an MMORPG after all, emphasis on the Massive Multiplayer part.

Throwback Favourites:

Halo 3, Fable II, and MW2. I have dedicated more hours playing these three games in my younger years than I think I have dedicated to any other aspect of my life (maybe even schooling, no shame).

Why do you wish to join Fusion?

I post regularly within the Gaming forums but it would be nice to be a part of a growing community of gaming enthusiasts.

What can you bring to Fusion?

Quality. I pride myself on my quality. I may not have the most posts or the most reputation points, but I put passion into each post and each reputation point earned. Almost every post I make includes a heartfelt authentic response, I never "post for the lulz". Additionally, most of my reputation points were earned through helping others or successful Marketplace transactions.

Also you already know I was a pro at saving hostages on Rainbow Six. Then I got an xbox, and I can't really remember what FPS I played. Probably Unreal Tournament and all Tom Clancy games. You can't forget about DOOM!! and HALO!!!!!! omg I'm feeling so nostalgic rn thinking back to the golden times... don't even start on playstation games, boy I can't even remember all the fun I had. I'm 18 years old, probably turning older sometime this year. I hope. I started out with an xbox one at the beginning of 2015, and ended with a PS4. I was forever a Microsoft fanboy, but PS4 is honestly where it's at. I've been playing Blops 3 and it's the first COD I've played since Blops 2. So I'm really rusty and I never commit to playing for hours since it just makes me so mad. No other COD has made me as angry as Black ops 3. Tell us a little about yourself:

I'm 17 years old and I wouldn't consider myself as a professional gamer, but I play a game to an extent where ranks and stats do matter to me. This is to show my opponents that they'll be up for a battle if they were to ever verse me in a match. Without gaming, I wouldn't survive school, whilst waiting in Modern Warfare 2 lobbies and dying in a round of Search and Destroy is when I use to complete my homework. I now currently have a part time job and still manage to game for more than 6 hours a day. I wouldn't call myself a nerd or a no life, It's just an interest that I enjoy doing.

Current Favourite Games:

My current favorite game is Halo Reach and Halo Master Chief Collection. MCC is because it brings back the good old halo vibes, and the way the game should have remained the same (Examples; H5 and H4 are terrible). Yet finding a game on MCC is frustrating but is definitely worth the wait. Halo Reach I enjoy playing is because it was Bungie's last Halo they released and is by far the best. Since Xbox released it for backwards compatibility I have been on it ever since the launch.

Currently Played Multiplayer Games:

Halo: MCC. Halo will always be known as the best multiplayer game, and has been ever since it was first introduced to multiplayer back in 2001-2004. BO3 is sometimes my go-to game if I'm in the mood, once you get to know the structures of the map, find your most suitable gun and not tend to rush in most situations, you'll be good at the game. Gears of War I only play for the campaign and Rainbow Six Siege is also another game I shall add to my list if I'm feeling the vibes and want to relax.

Throwback Favourites:

During my childhood I'd spend countless hours on the Xbox Original, back when they use to mod the Xbox so you could play burnt games, I use to go to the weekend markets with my father and

purchase close to 5 games and just complete the story modes and unlock achievements.

My favorite Xbox Original games:

Whacked
Halo CE and 2
Blinx the Time Sweeper
Buffy
Mad Dash
Munch's Odyssey

When the Xbox would be boring for me, I had the PlayStation 2 as a backup. Ratchet and Clank and Kingdom Hearts were the games I use to grind. I recently purchased Kingdom Hearts 2.5 Remix for my Ps3 just so I could bring back the memories and complete the story mode all over again. My favorite boss fight has to be Tarzan based one when killing the invisible bug/insect whatever it was.

Why do you wish to join Fusion?:

Not only would it be a great way for me to interact with users who share the same hobbies as me, it would make my matchmaking games more interesting and enjoyable if I'm playing with new team mates. Whether we're playing custom games on BO3 or doing 1v1's on other games, since I am Australian it would be nice to get to know people who might live in the same country as me, or different. Connection isn't an issue for me as my internet is superb, so lag is not an excuse for me to do terrible in a game. ;)

What can you bring to Fusion?

I can bring laughter and joy to the group. A better reputation for the groups image, I am somewhat active throughout the Marketplace (Online Accounts) section and every positive sale will increase the groups trust and reputation. I'm always down to talk to other members throughout the group sub-forum and join calls / parties with other members. The Gaming Section is also another sub-forum I tend to visit every now and then, and within that forum I'm most active in the Halo sub. I'm always willing to help other users, whether it's Gaming wise or personal issues.

I hope you consider my application and wouldn't mind having a Kangaroo be a part of your group. ?

I have access to both a PS3/PS4 and I also am an avid gamer on PC!

Region of Residence [NA/EU/OCE/CN/Other]:
Canberra, Australia! [OCE]

Tell us a little about yourself:

I've been gaming for quite a long time, just the technology side of things has been a real kicker for majority of my childhood and until the current date and continuing. I started off with the PS2 and then to the PS3 and went through that Call of Duty Clan Phase which majority of 7-12 year old's go through although my experience in it was quite successful, running a clan with over 40,000 subscribers at the time and also being a member in some big Australian Clans one being Lucky7 which is still running til this day!

Then I began to discover PC gaming, I'd always had a laptop and would explore the web and knew about it but I never thought it was big, that was until I found Minecraft and CS 1.6, since then I've loved PC Gaming extremely, I've played all the Counter Strike Series and multiple hours totalling upto 4000 hours. I've played in Semi-Pro teams both in Germany and in Australia and have quite a lot of experience in First Person Shooters in general! I am currently in the plans of forming a Counter Strike Team right now!

Besides gaming I have an extremely sporty life surprisingly! I train 4 nights a week playing Premier League Soccer for my State and local club. I recently was selected for U18's Premier League, actually this new years eve. We train 4 nights a week and play on a Sunday. I absolutely love sport, and despite all the time I put into it I always have time to game with friends and even enough time to run my own Youtube Channel!

Current Favourite Games:

My current favorite games would have to be, CS:GO, solely due to my love of the CS Series and I've just been playing it for a very long time.

Rocket League, this game is insane and I'm a footballer and just the aspect of cars and football strikes my attention!

FIFA 16, I've played FIFA on Console for a very long time, it's one of my all time favorite games and definitely is my favorite game on Console! I absolutely love smashing out Career Modes and forming my own dream squads in FIFA Ultimate Team! I actually am running a Career Mode on my Youtube Channel right now using my PVR I received for Christmas! It's featuring Chelsea! (I know... they suck, I don't support them but they still have a great side in FIFA 16 to mess around and sell players and make new signings with! c:)

Currently Played Multiplayer Games:

Currently played multiplayer games would have to be CS:GO, solely since its just such a team orientated game and requires a lot of skill and is awesome to play with a team or friends!

Secondly would have to be FIFA 16 and the FIFA Ultimate Team side of things, it's extremely fun

seeing other players teams and the players they have worked to purchase with there coins or packed from packs!

Third and finally would have to be League of Legends! I absolutely love this game and I always find myself playing it with friends, just the strategy and the fun involved is something I really enjoy!

Throwback Favourites:

Definitely would have to say Minecraft and the Call of Duty series, both I don't really play as often now but without them I probably wouldn't enjoy gaming as much as I do now! They opened me upto such awesome games which I play now and especially due to Call of Duty I have a lot of awesome friends and memories I can reflect on!

Why do you wish to join Fusion?

Just the imagery of Fusion and the whole meaning and passion for gaming of the group is something I'd die to be apart of. I love the sense of two sides combining and opening up to things, it resembles a team and that's something I love being apart of, teams.

With my passion for gaming and the other members, I know that I could make some awesome connections and open my gaming opportunities to even further possibilities, learning new things and experiencing new games and insane difficulties and challenges!

Personally I believe Fusion could provide all of that and that is why I am applying in hopes of joining the group!

What can you bring to Fusion?

I can bring a really happy and ecstatic personality that is fun to talk to, play games with and more! I'm really outgoing and I know how to have fun!

I'm a great team player and leader and I also have a really competitive side that I know I could share with the other competitive minded players in Fusion. I can share my experience and talent with CS:GO with others, play Pro Clubs with the FIFA Fanatics and share game news with those who are interested!

Considering I also just recently began Youtube, I think Fusion would be a brilliant place for me to look for possible collaboration opportunities and other video opportunities within the group and together we could share our love for games in general with the online community!

(You can find my channel here and here is episode one of the FIFA 16 Career Mode Series I've begun!)

[Video: <https://www.youtube.com/watch?v=UocrKk7kZsY>]

Hopefully I've really attracted the Leaders attention and I've sparked an interest in you recruiting me to Fusion! I can assure that I will not let you down if you decide to bring me to the team and I'm sure we could create some awesome memories!

Thanks and Best Regards! c:

My first console ever was Xbox. I played Halo 1 and 2 non stop... I don't have many memories because I have memory loss from such tragedy I endure. But everytime I see halo, I cry.

I started gaming when I was little, playing COD World at War on Xbox. My favorite game mode was Nazi Zombies. Pulled all nighters all the time with my cousin and we gamed till we slept. Fast forward, I got my first console, PS3, I bought Black Ops and no lifed all of the game playing SnD until max prestiged. I did the same for MW3. After MW3, I played competitive for Black Ops 2. I was in a top sponsored amateur team for quite a while until I was booted after I couldn't fly out to LAN. (We had to share a bed and mum said no).

After consoles, I decided to try some games on my PC. The first game was League of Legends. Oh, I didn't mention it, but I played Combat Arms before I started playing COD W@W. So, League, pretty great. I went from Bronze to Plat 1 in one season.

Then I tried CS:GO. Got Global and quit for life.

I also played Minecraft.

Tell us a little about yourself: I've been gaming since my grandparents first got me an original Nintendo back in 2000. Growing up, I always had the next gen console to play whether it was the PS2, PS3/Xbox360, or the current gen. I often played racing and fighting games until I picked up a copy of CoD: WaW. After that, I picked up every new CoD game getting into zombies, hardcore

gaming, trickshotting, and all of the news and excitement. I also enjoy the Halo series and have since Halo 3. Most of the games I play are FPS or Racing type games, though I enjoy most any kind of game. I just recently built a gaming computer and have a few games like StarCraft II, CSGO, and I was thinking of buying Rust. I also run just about every emulator to play my old games like Need for Speed Most Wanted (first one), Mario Party with the girl and family when they visit, and a lot more. I am often adding to my library of games so if I ever have a friend wanting to hop on another game in ready to play. As I said, I enjoy playing just about anything, but I like playing whatever it is with friends the most.

Tell us a little about yourself:

I'm a 15 year old guy from Virginia who has been gaming for quite some time. For all my life I've loved to play any types of games and not just video games. I enjoy playing sports, all kinds of video games, and anything else competitive or fun really. It's been a big part of me for all my life.

Current Favourite Games:

Right now I'd have to say my favorite game is fallout 4. It's sadly the first fallout game I have played and I'm definitely loving it and can't wait for DLC to be released and there be even more to play. I also enjoy a somewhat more older game called LOTR: War in the North which is quite fun really and hope to get Witcher 3 and Shadow of Mordor soon.

Currently Played Multiplayer Games:

Currently my multiplayer games are Black Ops 3, a bit of CS:GO but really not much but I hope to play more soon, and if War in the North can be considered multiplayer even though I play mainly solo them that too.

Throwback Favourites:

My throwback favorite without a doubt is Pokémon. Ever since I was a little kid I've always loved that game and still really love it today. Playing Leaf Green and emerald on my game boy was so much fun and brings so many good memories. Along with playing Diamond on my DS was so amazing especially with friends and at school when we would settle arguments in Pokémon battles.

Why do you wish to join Fusion?

I wish to join fusion because I know that just everyone in fusion shares the same love for games and the same interests as me. And taking about and playing games with other people who are actually cool and like the same things as us is always amazing and makes things much better.

What can you bring to Fusion?

Well, what I hope to bring is a new person who will love the group and take every chance I can to make friends and to talk and play games with others. I'll strive to help people when help is needed and have fun with them whenever possible. I also hope that when I start getting more money (hopefully) I will try and start doing giveaways on behalf of our group and for the members of our group. Giveaways such as CS:GO skins, keys, cases, etc. and whatever else people may want.

Tell us a little about yourself: I'm a gamer since 1995 +- when I got my first console, a Sega Saturn with the Dragon Ball Z game!!! I suck at football games like Fifa and I love Anime related games as I'm an Anime fan. Since PS3 and now PS4 I bought all almost all Anime games and if they get special editions with a figure toy and other extra stuff, I spend more money to buy them instead of buying the normal version.

Tell us a little about yourself: I've been gaming since my grandparents first got me an original Nintendo back in 2000. Growing up, I always had the next gen console to play whether it was the PS2, PS3/Xbox360, or the current gen. I often played racing and fighting games until I picked up a copy of CoD: WaW. After that, I picked up every new CoD game getting into zombies, hardcore gaming, trickshotting, and all of the news and excitement. I also enjoy the Halo series and have since Halo 3. Most of the games I play are FPS or Racing type games, though I enjoy most any kind of game. I just recently built a gaming computer and have a few games like StarCraft II, CSGO, and I was thinking of buying Rust. I also run just about every emulator to play my old games like Need for Speed Most Wanted (first one), Mario Party with the girl and family when they visit, and a lot more. I am often adding to my library of games so if I ever have a friend wanting to hop on another game in ready to play. As I said, I enjoy playing just about anything, but I like playing whatever it is with friends the most.

Current Favourite Games:• CoD BO3

Tell us a little about yourself:

I'm currently a 19 year old student from New Zealand. I applied for a Bachelor of Computing Systems (BCS), which I recently got a scholarship for. Will be starting the course very soon.

I am currently working part time and during my free time, I will either spend it playing matchmaking / surf on CSGO to playing Rush on Battlefield 4 with the OCE platoon "ReaperzZ". However, this is only a small number of the games I play, which I will list later during this application.

I've spent a numerous amount of years playing games, starting at a very young age playing Doom and Quake, which to this day are still some of the best games to this day as they brought a whole heap of fun to my childhood. My dad introduced me to those 2 games.

Current Favourite Games:

My current favourite games are Battlefield 4 and Counter Strike - Global Offensive and Oldschool Runescape.

I have recently bought Skyrim, The Witcher and Bioshock Infinite which I am starting to get into.

Currently Played Multiplayer Games:

I am currently playing the following Multiplayer Games: Battlefield 4, Counter Strike Global Offensive and Oldschool Runescape.

I have ArMA 3 which I recently installed but I haven't played much of it yet and I also have League of Legends which I haven't played in a while as it was too addicting. I would stay up all hours of the night playing that game.

Throwback Favourites:

My favourite game of all time would have to be Call of Duty 4 Modern Warfare, especially the mod Promod. I no longer have this installed as the OCE community stopped playing and moved onto other games such as CSGO and now Rocket League. I used to play Call of Duty 4 Modern Warfare every day, competing in competitive matches on [CyberGamer](#). The community was absolutely amazing, and being able to get along with most of the players was the best, which is rarely seen in games nowadays. There were a few cancerous players though which sometimes ruined the fun of it all.

Back when I had a PS2 and PS3, the throwbacks for me were;

- Crash Bandicoot
- Ratchet & Clank
- CoD MW2
- CoD BO1, which for me was the best Call of Duty on Console.

Why do you wish to join Fusion?

I would love to be in a gaming community. As you can tell, I love gaming and I love being around other people with the same interest as I have. Interacting with other members in Fusion would be the number one priority, as it makes gaming much more enjoyable. Imagine playing CSGO, BF4 or any other game and not being able to communicate with the people you are playing with. It doesn't make it fun, does it?

I can't wait until the TeamSpeak server launches, as I'm always active in TeamSpeak and would love to get to know everyone in Fusion.

What can you bring to Fusion?

If accepted to Fusion, I am able to bring a "funness" to the group. I'm able to be a part of discussions within the group with the possibility of tutorials and help members who are stuck with any questions about games.

I can bring my activeness within the gaming community to the group. That includes playing with members, and just being part of the events and discussions which I have already discuss.

I want to help the group expand and grow.

Tell us a little about yourself:

Hey guys, i am Vitani.

I am currently 18 years old. I am in university at the moment, but in my free time i am a coder a freelancer, and a gamer.

I started gaming at a very young age, and to be honest i always thought i was shit at games, probably because my brother was always better then me.

Over the years i kept gaming, from FPS games, to MMORPG, to strategy games. I have played on my Playstation, but mostly i play FPS games on my PC.

Current Favourite Games:

Counter-Strike: Global Offensive, Battlefront, Battlefield, Magicka and GTAV

Currently Played Multiplayer Games:

Counter-Strike: Global Offensive and GTAV

Throwback Favourites:

I love FPS games and strategy games, and currently i just had to play Star Wars Battlefront II again. The graphics are shit if you compare it to current games, but i just love playing in the Star Wars universe.

I also played Command and Conquer: Generals again a few days ago. It's a pain to get it working on anything higher then Windows XP, but totally worth the trouble.

Again, the graphics are nowhere near as good as current games, but man, this game is and will always be one of the best games i have ever played.

I have played this game for an endless amount of hours when i was younger, and i still enjoy playing it.

Building your own army, and attacking the enemy with your own strategy.

Why do you wish to join Fusion?

I want to join Fusion because the group seems genuinly fun to be in. The members in this group seem like fun, gaming with people within this group must be really fun aswell and this group seems really stable.

Fusion has a long term plan, and is pretty stable, unlike some other groups who have been sold time and time again.

Aside from that i enjoy Multiplayer Gaming, and Fusion is the group to join if you want to game with fellow HF members.

What can you bring to Fusion?

I can bring alot of fun within the group. I am a really nice guy, trustworthy aswell, and i always got time to help a fellow HF (Fusion) member.

Aside from that i have skills within the coding and networking area, aswell as skills in games ofcourse.

I'd really like the chance of showing you those skills.?

Tell us a little about yourself:

- Well, my names Ryan and I'm a 21 year old college student. I'm from New England and I'm an avid Football fan (Go Pats!). I've been gaming ever since I can remember. I know most users on this forum probably started out with the Nintendo 64 but my parents felt like being optimistic and started me with the Sega Genesis. I got my Sega Genesis when I was 4? years old on Christmas and it's still one of my favorite gifts every to this day, it introduced me to the scene. Some other fun facts about myself are that I won Class Clown in high school, I gave up swearing for lent, I have a vandalized Justin Bieber poster in my room and I have a 2.7 Modern Warfare 3 K/d ;)

Current Favourite Games:

- Smite
- Black Ops 3
- Fallout 4
- Q-Bert (?)
- League of Legends
- Random Indie Games are also enjoyable (?)

Currently Played Multiplayer Games:

- Smite
- Destiny
- Black Ops 3
- League of Legends
- CS:GO
- Minecraft
- Halo 5
- GTA V
- (Also really looking forward to Rocket League and Plants v Zombies Garden Warfare 2)

Throwback Favourites:

- There are too many to list. Animal Crossing in one of my all time favorite games. As far as throwbacks go though, I really loved the old Sonic the Hedgehog games. I also love Toejam and Earl, Rocket Knight Adventures, Pikmin, Halo 2, Half-Life 2 and way to many others to list. Gamecube probably was my all-time favorite console though. That console had plenty of games that left lasting impressions.

Why do you wish to join Fusion?

- It's a competitive/fun gamer group, It's basically word for word my exact interests. Legit user hosted tournaments and just being surrounded by active Gamers in a sub-forum is something I'd be really into. As far as groups go, I don't really have the credentials to get into many other groups nor

do I have the interest but Fusion is different. A large, fun gaming community is exactly what I need to complete my HackForums experience. I game constantly and need new players to game with and what better place to find those gamers than Fusion?

What can you bring to Fusion?

- I already have thread, tournament and giveaway ideas. I sign up for almost every beta even if I don't look forward to the game so I would always be willing to give my extra codes away to the members of the sub community. Also I spend a decent amount of money on indie games meaning I could make an in-depth guide on the Games, How easy the achievements are (For the achievement hunters of the group) How fun the game is vs the cost of the game (For the members who want the best deal at the best price) and unlike online reviews users could PM me with specific questions about the game which I would gladly answer. Lastly, I'm just an all around nice guy, I have my fair share of rage moment but as far as casual gaming goes I'm a SUPER funny just all around fun player to play with. On the flip side I do still get very very competitive as most of the games I am currently playing I do try very hard to come out on top which is just another reason I think Fusion tournaments would be so fun to be apart of.

I really hope you take my application into consideration. I guarantee you won't be disappointed with adding me to your group. Fusion is 100% the group for me and I really appreciate you taking the time to read through my application. Best of luck!

~ Ryan

Tell us a little about yourself: My name's Skumzy and I'm an avid gamer currently living in Melbourne, Australia. I've played games all my life, both on PC and console (PlayStation only, though). I think the earliest games I remember playing were Runescape back in the day, as well as Pokemon Red on my Gameboy Colour, which I loved to spend all day and night playing on. I then moved on to other multiplayer games for several years such as Sudden Attack (it wasn't too popular but I loved it) and of course World of Warcraft. However, I'm currently in my final year of high school so I'm unable to play games as much as I'd like to, but to make up for that I'm constantly discussing gaming here on HF.

Current Favourite Games: League of Legends, Hearthstone, CS:GO, Assassin's Creed (all of them, but 2 is my favourite) and Life is Strange (finished it a while ago but I still revisit it now and again)

Currently Played Multiplayer Games: League of Legends, Hearthstone

Throwback Favourites: Pokemon Red, Runescape, Sudden Attack (discontinued but oh well) and Smash Bros

Why do you wish to join Fusion? I'd love to join a group dedicated to gaming as it is an area that I'm passionate about and I'm always happy to discuss gaming with anyone, regardless of which console they play on or what type of games they play.

What can you bring to Fusion? I can bring my passion for gaming as well as my experience in popular games such as League of Legends (3+ years), Hearthstone (almost 2 years) and CS:GO (just over 1 year). Furthermore, I'd be happy to contribute to any discussions regarding any other games or just gaming in general, as I always find it interesting. Also, I heard you guys run gaming tournaments often so I'd love to participate in those and battle against my fellow HF members!

Thanks for this opportunity and good luck to all the other applicants!

Tell us a little about yourself: I've always been interested in gaming. Since a young age I would play competitively, I was obsessed with the Halo series and COD. I'd enter in PGL tournaments and local LAN's for fun and experience. Soon after Halo got a little tiring (after H3), I started playing GB's in COD until UMG came out and then I started playing wagers for each COD that came out. I've earned a total of about \$500 in wagers. Before I started playing competitively however, I loved playing Sonic, Crash Bandicoot, Mario, GTA and all kinds of games. I own about 200 hard copy games in total of Xbox/PS3 and about 15 games on Steam. Oh and I root for Cloud9, they're not the best but with a little bit of IGL help and setup change they can do it and provide victory for NA :)

Current Favourite Games: Mirror's Edge (hyped for Catalyst), RIFT, Path of Exile, occasionally Counter Strike with friends. I also enjoy various JRPGs

Currently Played Multiplayer Games: RIFT, CSGO with friends andosu!

Throwback Favourites: Mirror's Edge although it's not really that throwback, Final Fantasy 7, Diablo2.

Why do you wish to join Fusion? I mean I get a cool flair, and I think that's fantastic! No but seriously, I don't really have many people to play vidija with. It would be fantastic if I could play Counter strike without the same two people every time.

Mainly play on PC. Access to a PS4, Xbox 360, and DSLite. Experience on so many other consoles as well.

Region of Residence [NA/EU/OCE/CN/Other]: NA

Tell us a little about yourself:

Well I'm 18. Have a wide variety of games I like to play and a lot of experience in many different titles. I'm a friendly (as well as skilled) gamer who is very competitive and always looking to win. I'm funny like 65% of the time. My first console was the PS2 and then my brother went on to get the DSLite which we used to play every damn Pokemon game.

My primary game right now is CS:GO. I have clocked around 1700+ hours on it on all owned accounts combined. Due to this last ranking patch I did end up dropping from Global Elite to DMG but I'm doing my best to get back up. I normally keep an ESEA subscription so I can play with anyone who is down for that as well. I have 3 smurf accounts that I use when playing with lower ranked or irl friends. I played for a few small teams but I left as I saw they weren't really going anywhere. I love games that involve not only skill but strategy so that's why CS:GO appeals to me so much.

I am a computer enthusiast whether I'm dealing with hardware or software. I'm always trying to learn some new stuff about anything from anywhere. I just finished building this computer two months ago and I'm very proud of it's performance.

I have a strong sense of morals and I am very dedicated when I want to learn or be better at something. I practice all the time whether it's for a sport or raising my reaction time in a game.

People always tell me to stream and make videos out of the blue so I'm going to be giving it a shot soon.

Current Favourite Games: CS:GO

Currently Played Multiplayer Games:

CS:GO, Rocket League, GTA V, DayZ, Arma 2-3, Garry's Mod, H1Z1, Ark: Survival Evolved, Tera, Squad, Soldier Front, LoL, thinking of getting back into MC soon, and Tom Clancy's The Division.

Throwback Favourites:

I'd have to say all the Pokemon games on DS and Super Smash bros which I play time to time on my friends GameCube. (Still such a fun game)

Why do you wish to join Fusion?

My goal with joining Fusion is to connect with the members of HF much more closely as I've never really tried to get into any groups that much. This as well as making new friends who I can game with and just have fun. Finding members who are as competitive as me would be one hell of a dream come true as I don't have many right now. This is also the only HQ gaming group in my eyes that's worth joining so I'd like to be a part of it and make many contributions.

What can you bring to Fusion?

My experience, competitiveness, and energy. I'll be starting a CS:GO tutoring service soon and I can give free lessons to members.

- I save cases and do giveaways. (Locked thread currently has around 70 replies I believe)
- I'm an experienced trader and gambler. I have a 92% win percentage on all the CS:GO games that I bet on. I can offer trade advice and some bet tips.
- I have experience in running a decently popular MC server that generates a few hundred bucks a month so I could also help with my experience there.
- I can help members or anyone pick out parts for a computer that will suit their needs.
- I enjoy teaching so I'll be writing up many tutorials in the future along with some streams and videos.
- Besides all this I can be a skilled teammate in any of the games I've listed above so if you're ever down a person or whatever I'd be glad to hop in.

Then the days of PS2 gaming came along and I started playing games like Time Splitters, Tekken, SSX, Tony Hawk, GTA Andreas, vice city etc, Guitar Hero, and alot others..

Then I started getting a bit older and got my first own gaming PC and started playing World of warcraft and Counter Strike source ALOT.. I cant count how many hours I spend each day on thoose two games.. :D

Nowadays I play League of Legends and Counter Strike: Source on a daily basis on my PC, and alot of Battlefield 3 and a couple times a week I play GTA 5 and Fifa with friends on my PS3. (too broke to afford a ps4 yet) :(

I'm 19-years-old and a die hard Bethesda fan.

I've been gaming since I was around about the age of 4. I work a normal job like a lot of other on HF but when I get home I kick back, relax, and get gaming if I've nothing else to do.

I lost interest in it for a while and in about September began gaming all over again and well, it's been a journey to say the least.

Current Favorite Games

Fallout 4

Metro Redux

Far Cry 4/Primal

Currently Played Multiplayer Games

FIFA 16

Battlefield 4

Call of Duty: Advanced Warfare / Black Ops III

Grand Theft Auto V

Throwback Favorites

Fallout 3 then followed by Halo 2. Those are probably my favorite throwbacks of all time on gaming. They just had that feeling when you first played them.

Why do you wish to join Fusion?

I think it would be interesting to get in a gaming group on HF, maybe get a few games with some of the members and start a leaderboard/competition.

What can you bring to Fusion?

I am currently planning on some gaming threads which when created would be awesome to post in the name of Fusion, I can also bring giveaways for Steam games and things alike.

Why do you wish to join Fusion?

I wish to join Fusion because it has been quite a while since I have been completely active on hackforums and I am planning on making a come-back. The thing that has always made HF entertaining for me was playing games and talking to people, and I believe Fusion will allow me to do both of those in a more private basis, rather than the whole forum. As I said before I was previously in the Republic when it was around and it was the best time I ever had on this forum.

[img]http://i773.photobucket.com/albums/yy17/liakeyes/Divider_transparent-1_zps056572ff.png[/img]

A little boy who's been gaming since elementary school. I started off playing Splinter Cell, PES, FIFA, 007: Agent Under Fire and Beyond Good & Evil. I loved these games. When the PS3 had been released, my dad got it for me because my grades were doing pretty well. I got inFamous 2 with it, I played it and later bought inFamous 1. I ended both games on good/bad karma and I loved the games. SuckerPunch has great games imo.

When I started off with high school, I also got a laptop from my dad for Microsoft Office use. I played ehum don't judge me Habbo.. then I started off playing CS 1.6/1.7. I ended up buying a high end PC and playing CS:GO, sometimes Minecraft, BO1 (Repz), FIFA etc etc.

My grades are still doing well. I finish everything in the lessons so I can game all day without worrying about homework. Of course I don't have like 13 hours to play after school, but I have a free space of 5/6 hours which I fill up with gaming.

Current Favourite Games:

CS:GO, inFamous 2, Beyond Good & Evil and BO1&2. I like everything I guess.

Currently Played Multiplayer Games:

CS:GO, BO1&2, SA:MP and GTA V.

Alright, here we go. I am 20 years old. For a majority of my high school and middle school life, I was spending my time trying to learn how to do things on the computer. When there were friends that wanted to hang out, which was rarely, I would always go but would be awkward. I didn't get along much with people my age which was the weirdest part. I typically get along with people +3/-3 years older/younger than me. Because of this I spent, even more, time on the computer then I should of BUT because of that, I ended up getting a job straight out of high school which was great. I became a PHP developer for a company in California. I moved there but ended up moving to another state with a few friends simply because the money situation was better. To date, I am still working as a PHP developer. In my free time, I try to play games. I find a bunch of fun in getting ahead legitly in games (without buying my way through). I will admit, I used to like pay to win games, but as time passed, I started to learn that those types of games just put me down after staying so long sitting in the same place just being the best. Games aren't always about being the best. It's about making sure that you have a good time, which is why I now try to avoid games like that. I'll admit. I still fall

into money traps now and then but it is not nearly as bad as it used to be.

I have seen some great Fusion members, and I want just to be able to talk and play with high-quality members. Since you guys only recruit the best of the best :)

What can you bring to Fusion?

I am hoping I can bring the best of the best. Now I know that sounds just kind of bland but I mean it. I will always try to bring the most I can to any group I join but to be specific for fusion; I want to bring it on. I want to bring the games to life and have a damn very good time with others. I want to be able to share my best experiences. I want to be able to talk to others about fun/great/cool/weird things that happen in games. I want to be able to share what I can when I can.

I played competitively in my later time playing. Recently for the past year I've been into Destiny PVP, but as of last week I got the newest CoD to give it a go. I'm looking for people play with for fun, or on a more serious level.

Tell us a little about yourself:

23 Years old, currently reside in Texas and I hate it. There aren't very many "gamers" where I'm from, I maybe know one person from school who plays, and even he isn't very consistent anymore. Being from Texas, you'd probably assume I'm a country fan, truth is I don't listen to anything other than old school hip hop, strange I know. I have 2 pet birds, named after Marty and Doc from Back to the Future. I love graphics work, and do it whenever possible for anyone I can.

Current Favourite Games:

League of Legends is where it's at for me, it's like a drug. I LOVED a game which is no longer popular anymore, named Gunbound it was very addictive. Most people think it looks bad, but you can't base a game off of it's looks. It was a side-view game kind of like worms, if only it was popular I'd probably be playing it right now.

Currently Played Multiplayer Games:

League of Legends, Guild Wars 2(off and on), and Minecraft.

Throwback Favourites:

Fuzion Frenzy was one of my favorites growing up, along with Crash Bandicoot, and Spyro.

Why do you wish to join Fusion?

I think it's time to pop my group cherry since I've been here since 2010, seems like a good group for

gamers to play with other avid gamers. I'm always looking for people who enjoy it as much as me. I strive on being as good as I can when it comes to gaming, as I think it's much more fun being a hardcore player than just a casual, and I think that rubs off when I try to help people, the best for them is also the best for me.

What can you bring to Fusion?

I try to help as best I can, wherever possible. I offer my time to anyone who needs it, and expertise when asked for, if I can. I am ALWAYS available, whether on League/Skype/Facebook or any kind of app, I can always be reached. I can help people in League looking for help, my last free boosting service I did is [here](#).

Extras:

I would really like to start doing stuff for the League section to get it more active and better quality, instead of scripting threads and such. Maybe a few 1v1, 5v5, Aram tournaments to get it going again, for RP of course. Any help with this from a group or not would be highly appreciated as I'm sure it's going to take some work, but looking forward to doing it.

Tell us a little about yourself:

My name is Devin. I'm a 22-year-old Canadian student finishing my 3rd year of BsN (Bachelor of Science Nursing). After finishing my bachelor's and getting a few years of work experience, I hope to pursue a MSN (Master of Science Nursing) and become a nurse practitioner.

I began playing console videos games when I was approximately 8. My grandparents bought me a Sega and I would play Sonic the Hedgehog. As I grew up I played pretty much everything, whether on the PS1/PS2, Gamecube, Xbox Original, Gameboy Advance SP etc. I began to take gaming a bit more serious when I got my Xbox 360. I began playing Halo 3 all the time, and was eventually a 5-star general with 6 50s (hated swat lol) and an avid Gamebattles player by the time Halo Reach was released. I became the #1 overall ranked GB player for Halo Reach for the first 7 or so months before slowing down. I continued to play Gamebattles, and amassed the overall records displayed in my signature, in addition to other top teams that I do not have the URLs for. I continued to play Halo 4, but due to time constraints related to my university workload at the time, I stopped playing as much. I also grinded the crap out of MW3 after its released and maintained a top 50-60 position in FFA until Christmas break was over.

In regards to PC games, I was at one point an avid Runescape player. I have maxed melee on two separate accounts, one being my main that I do not currently have access to. I maxed melee on the account that I currently own, and I do maintain membership on it and use it occasionally.

Though the aforementioned may portray me as a cocky try hard, that is absolutely not the case. I love grind that comes with competitive gaming; however, my demeanor is no different than a casual player. I enjoy playing with anybody regardless of skill level or knowledge about the game. These

days, I play more casually and am usually on Halo 5 running big team battle, skilling on Runescape or on Destiny fooling around.

Current Favourite Games:

Halo 5, Halo MCC, Halo 3, Halo 4, Halo: Reach, Runescape, Destiny

Currently Played Multiplayer Games:

Halo 5, Halo MCC, Halo 3, Halo 4, Halo: Reach, Runescape, Destiny

Throwback Favourites:

Halo 2, Halo 3, Halo: Reach, Sonic Adventure 2 Battle, Sonic, Spyro, Super Mario Sunshine, Star Wars Battlefront 2, Metal of

Why do you wish to join Fusion?

I wish to join Fusion because I am passionate about gaming, and this is a group that embodies gaming. I was previously a member of Respawn prior to changes within the group, and I really enjoyed my time there. I would like to be given the opportunity to have access to a subgroup of people who share the similar interest towards gaming that I do. I want to be part of the discussions, group activities, guides, and public forum activities that goes with being part of a user group. I would also like to be given the opportunity to learn from others who have experience with games that I am not familiar with or games that I never gave a chance due to a lack of understanding.

What can you bring to Fusion?

I believe that my history of gaming evidenced in my about me paragraphs, in addition to my in-depth understanding of the Halo series and Runescape, would serve as a great asset to this user group. My signature contains some records to as a testament to my understanding of Halo.

Thank you for taking the time to review my application,

Tell us a little about yourself: I go by Telstra here on the forums, I am an avid Marketer and in my spare time I love to play Video Games. I have had a love for video games my whole life, I do not remember a time when I did not have a console of choice to play one. From the humble days before I even started school playing Donkey Kong Country on my SNES as well as other games I thoroughly enjoyed as a youngster such as The Lion King, Jungle Book and Pinocchio.

From there I went on to get a Sony Playstation 1 and my love for gaming only progressed. I remember coming home from school and playing Crash Bandicoot or Digimon after completing my homework. My dad was also a very avid gamer, playing Counter Strike when it was only new and winning tournaments in Sydney in his mid 20's. From there I got a PS2 in probably grade 2, and my love for gaming only increased. If there was a count for how many hours I spent on that thing playing games like Ratchet & Clank to begin with, the Jak series, and then as I got older the GTA series.

I owned that up until about grade 8 when I finally got an Xbox 360 for Christmas. I remember my first time playing online, Call of Duty 4 it was mindblowing! I then went on to mainly play GoW on that console, I joined clans and once GoW3 came out my team was top 3 in Australia. Since then my competitiveness in regards to clans etc. hasn't really stuck with me. I more like playing with friends in a lounge room environment, and the occasional online game of CoD BO3 on my PS4 and also UFC 2.

I will mention in between these periods I had many handheld consoles such as Gameboys and DS' and LOVED the Pokemon games, I always will. Still to this day crack out the 3DS every now and then and load up Omega Ruby.

Current Favourite Games: My current favourite games are 2k and UFC 2. I enjoy playing BO3 online also.

Currently Played Multiplayer Games: I occasionally launch up a round of CS:GO, and Black Ops 3 on PS4

Throwback Favourites: Ratchet & Clank, GTA:SA, Pokemon, Jak Series, ANY MARIO GAME!

Why do you wish to join Fusion? I would like to join Fusion to discuss games with some fellow peers, a lot of my conversations with friends currently are based around it and I would love to participate more in Gaming conversation here on the forum.

This seems like a perfect group for me, I play a lot of games. I love to play Counter Strike, Destiny, Call of duty, Minecraft, and sports games. Always willing to try new games.

Why do I wish to join Fusion?

I would love a community of people to meet and try to play new games with, or even meet new people who currently play the same games as I do.

What can I bring to Fusion?

Well, I'm a very competitive person. I have won a few trophies over the years of playing Call of Duty. I'm currently a supreme nearly global on counter strike, and I also go 9-0 just about every weekend on destiny. Hope you take the time to read this, and I do thank you for your time.

First game I started to play decently was CS 1.6. I was at the same time an admin for PGL. (Professional Gamers League). This lasted for about 2 years when CS1.6 started collapsing and CSGO became famous. I have been playing it ever since, reaching a maximum of Legendary Eagle Master.

I currently play on PlayStation and Xbox platforms on a multitude of games of which I play at a competitive level. Region of Residence [NA/EU/OCE/CN/Other]:

North American/NA Tell us a little about yourself:

High school student. I have a fairly large family so that pretty much breeds competition. Whether it be sports or video games, I constantly find myself competing to be better than my brothers. So as long as I can remember, I've been a competitive gamer. That kind of family atmosphere is what I seek in a group like this. I'm really chill and mainly like to talk about stuff outside of games when playing. It gives me a chance to really warm up to people I play with. That's just how I am. If I'm not developing a friendship with anybody I play, then I don't see the point in playing. So I'm a very open person in that aspect. I'm extremely competitive. Losing isn't my forté, but I don't mind losing when I'm having fun with the people I've built a bond with. Current Favourite Games:

Street Fighter V
Mortal Kombat X
Destiny
Overwatch
Black Ops 3
Star Wars: Battlefront
NBA 2k16
Madden 16

These are the games I play at a competitive level. All the others I just play casually, but I don't care to list them otherwise it'd be too long. Plus, my collection of favorite of games are constantly growing. If my friends play it, I'll most likely pick it up as well. Currently Played Multiplayer Games:

[Everything I listed above + anything with multiplayer in it]

Not a particularly big fan of playing by myself, so any game without multiplayer I wouldn't play. Like I said, I'd pick up any game as long as I'm having fun with friends. Whether it be casually or competitively. Throwback Favourites:

Grand Theft Auto: San Andreas
Grand Turismo
Mortal Kombat II
Street Fighter II
Mario Party
Mario Kart
Super Smash Bros.
Crash Bandicoot
Final Fantasy
Megaman
Metal Gear Solid 2 & 3
SOCOM: Fireteam Bravo 1-3
Phantasy Star
Sonic the Hedgehog

Why do you wish to join Fusion?

I love what it stands for and the environment it presents. I'm constantly around the HF community trying to contribute as much as I can; Especially in the marketplace. This activity both on the forum and in video games is an environment I'd personally love to be in. I'm already familiar with a few members of the group so I feel like I'd fit right in. Just having other like-minded players to constantly socialize with while contributing to the site that established the very foundation of the group itself is something that I would love to be apart of. What can you bring to Fusion?

Personally, I'd want Fusion to be more than just a group on HF. I want it to be more than just a group of people. I want it to be a family. An atmosphere where we could truly be ourselves. I feel that I could bring not only lots of activity (I feel that is pretty much mandatory) but I could bring a competitive aspect to the group itself when it comes to competitive multiplayer. There are players like myself that enjoy playing games at a competitive level, but they just don't know anyone they

could socialize and legitimately team with. I'm that player that can bring this edge to the group. I'd be more than happy to help anybody in the group with any wagers or online events (or even host some myself on behalf of the group) so that people -- not just on HF -- can see how tight the environment is. I feel that adding these aspects to the group will not only increase activity and popularity of the group itself, but also tremendously increase the brotherhood among the players in said group. This is more of a family than just a group on HF.

I hope to be considered. Thank you.

- Nick

A place where I could get more involved into Hack forums in general. I would like to be able to spread my knowledge and even gain knowledge from fellow users, and to gain further friendships through this group to chat and game with.

What can I bring to Fusion?: I could bring passion for video games into this group and maybe even kindness haha. I could help with projects with the best of my ability and to be active above all! I could attempt to be an Entrepreneur for all members who may need help but also I'm a very active listen and a group leader if needed. I might be able to bring my skills to the group but I'm not confident about that. Last of all one thing I wouldn't bring to this group would be embarrassment. Thanks for considering my application, have a nice day!

Tell us a little about yourself: I'm an avid gamer and user of HF. If I am online I am doing one of those two things. I really enjoy multiplayer games and I always strive to improve my team as well as myself because in team based game, you can only do so much if your team isn't on par. Communication and synergy are two very important things for me.

Current Favourite Games: Overwatch, Gmod, The Culling, The Forest, Damned, And maybe Rocket League.

Currently Played Multiplayer Games: Overwatch, Gmod, The Forest, Damned, Rocket League, Arma 3, Arma 2, CS:GO, CS:S.

Throwback Favourites: Mariokart double dash, Super Metroid for the SNES, and Resident Evil 4 are a few of my older favorites.

Why do you wish to join Fusion? I want to connect with like minded gamers and people that use HF along with gaming. It's very hard for me to find people that both care a lot about HF and videogames, usually you have to take one or the other but Fusion looks like the best of both worlds.

What can you bring to Fusion? I tend to be very competitive when I play games, and I plan on going very far with HF, so I will be sticking around. On top of that, I am always willing to try new things and I tend to be very open-minded and goal oriented.

Thanks.

Aside from being an avid gamer willing to share my knowledge on certain topics pertaining to games I enjoy, I've also been in plenty of groups and understand how they operate.

I've formerly been a part of The Writers, first as a co-writer of Notable Threads with Trust before being moved to 1st Editor. Being a part of the Hack Forums News Team was one of my favorite experiences on this forum and one that I hope to resume shortly. I've also been in various other groups such as Nexus, Void, Nightfall, Titans, and others that are escaping me right now.

I'm a website developer but also an avid gamer. I've been gaming since I was around 3-years-old and have a passion for kicking back and playing some games.

I work part time and also attend college. I would say I'm rather chill and tactical when playing games. Teamwork over free-for-all in my eyes.

Age of Empires

Fallout

Call of Duty

Battlefield

Currently Played Multiplayer Games

Call of Duty

Battlefield

Throwback Favourites

Lord of The Rings: Battle for Middle Earth II

This game required you to be a tactical individual which is why I loved the game so much.

I love games that require patience, concentration and being a tactical opponent.

This game had it all for me when I was playing solo or with a member of family.

Why do you wish to join Fusion?

I think it would be great to meet other gamers who have a similar interest as me and would rather work as a team than as an individual.

Would be great to hear the stories and learn other members gaming ways. It could lead to a team or two being formed.

What can you bring to Fusion?

I would happily share my ways of gaming and try to build a team within the group and maybe even be able to transform and bring the group together in competitions.

I'm a gamer. I have been playing League of Legends for quite a while now, since early season 2. I know a lot about the game because i have been playing it so long and always have been following the pro scene. Around season 4 i have been in multiple small communities and played in some LAN tournaments. I was really active in the community and always tried to make schedules for the team and gave them some of my ideas.

My LoL achievements:

Season 2 - Gold

Season 3 - Platinum / 3v3 team was also Diamond

Season 4 - Diamond / 5v5 team was also Diamond / 3v3 team was also Diamond. Some online tournaments top 4. LAN tournaments 2/2 out of groups (once won first round after that)

Season 5 - Platinum (the year I took a 6 months break and played HS. Got to diamond early season)

When I took some breaks on League, I was mainly playing Hearthstone, every season I played I got pretty high/legend and also used to be in a "team" we shared our ideas and invented new decks/strategies.

Hearthstone achievements:

LAN tournament 128 people+

first time: Top 8

second time: Top 16

Current Favourite Games: League of Legends.

Currently Played Multiplayer Games: League of Legends

Throwback Favourites: Hearthstone, Mario Kart, Super Smash Bros, Dofus.

always have been following the pro scene, so i know almost all of it. I would like to help newer members to learn them the basics of the game, older players to get better or i can answer all the league related questions and I could coach a team.
