Thread: [PayPal Claim/Chargeback](#)

Wø1Fy - January 10, 2016, 6:24 pm

So I was whoring around and I found some guy and milked him for like 200\$ total. I gave him everything I promised. Now he wanted his money back from paypal. How do I stop this?

grady - January 10, 2016, 6:25 pm

What type of claim is it?

Wø1Fy - January 10, 2016, 6:26 pm

Reason was that he didn't receive it.

I am not so familiar with paypal. The only thing that says in the report is that he didn't receive his stuff and wanted his money back. Before it happened I moved the money on that paypal account to a second one so my ewhore account is now like -200\$

Edit: All my details on the paypal account where fake. I only used a real email.

so he has opened a case on ur paypal, asking for a refund? tell me more

If it's through PayPal and it's a claim for unauthorized access you will win, lesson learned don't spend all your money as soon as you get it

What do you need to know then? I mean I've put 1day in that guy milking him for 200\$ So I am just pissed that he made a case of it. I delivered my goods

Well, from what I understand, you can simply create a new E-Whoring PayPal if the money is in your main account.

Wø1Fy - January 10, 2016, 6:37 pm

I don't like keeping money on the account they send it to. I always put it somewhere else

Light - January 10, 2016, 6:39 pm

So you have a negative balance?

Wø1Fy - January 10, 2016, 6:40 pm

Yes I have a negative balance

Vigil - January 10, 2016, 6:41 pm

well buddy i had the same problem a guy paid me on PayPal, we had the deal done regularly, but he opened a case for 'unauthorized access to his account'. pretending like i hacked his PP account and sent payment to my account... PP asked me for my business information and if i had shipped or delivered his items.i had nothing to do but step the fuck back and give that douch his refund..idk about ur situation here tho :/

Wø1Fy - January 10, 2016, 6:43 pm

I guess I will refund this douche. Ugh. Any way to prevent this in the future?

Vigil - January 10, 2016, 6:48 pm

well since the moment i got this case i ask only for amazon. if they dont have one i try to convince them to open a new one. if they still don't, then i just accept paypal. so try to accept amazon as much as u can. try to prevent getting cases like that, soon ull get under review from paypal and very likely, they will get u limited :/

Wø1Fy - January 10, 2016, 6:51 pm

The only problem is that amazon is useless here. So I have to exchange my AGC to paypal/BTC and I am even earning less then

Vigil - January 10, 2016, 6:54 pm

well its up to you buddy if u wanna risk it then do it, ur choice. amazon is just a safer way. but u can also try to stay on the same way. remember:no risk, no success ;) ?

\$200 haha XD

Whats the worst thing that can happen if your paypal is negative?

Vigil - January 10, 2016, 7:06 pm

in fact its a bit dangerous, as there are rules and policies from the USA government, and if ur in violation with them shit's going to get serious, but i dont think it ll go all the way to the court haha xd

just dont be scared man keep it up ;)

Bobby Trill - January 10, 2016, 7:12 pm

I don't know much about pp since i don't use it anymore but you have to show some type of proof so you don't get limited.

Wø1Fy - January 10, 2016, 7:22 pm

I am not from the usa xD so the rules don't count for me :P
