Thread: [\[Discussion\] Your favorite Anime/Manga girl hairstyle?](#)

Aura - January 11, 2016, 2:53 pm

We have 10,000 waifu threads, but I don't think we have one with this specific question. To sum it up, what is your favorite hairstyle for a girl in an Anime and/or Manga, and why?

Personally, I find myself falling for every girl that have a high ponytail (I have no idea if that's how you call it, but still).

I don't know what's with the hairstyle, and I'm sorry I can't think of more at the moment but it seems that girls with that kind of hairstyle in the Anime/Manga always have something more over the other girls: sense of responsibility, maturity, strength, etc. They have something that makes them stand out. I don't know how to explain it.

Alright weaboos, let's say if there's anyone else here that agrees with me or you'll all shit on me for my personal preference.

2,1,3 and three are the best in my opinion and in that order

I'd have to agree with you, I like the look you are referencing in the OP a lot.
I also like just the long straight hair look that almost everyone has lol.

If blonde, pony tail. If black/blue hair, long with two strands over shoulders.

See profile pic.

Fluffy twintails or just mid-long hair length that's let down.

severos - January 12, 2016, 12:04 pm

Well, it's a hard question, long/short hair, pony, twin tail, but if I had to pick one... damn I can't pick one D: but for now I'm sticking with this:

No explanation of why rather than just simple but elegant I guess. She definitely pulled this off on the character in this anime.
