Thread: [What to do with a pedo?](#)

altr3v - January 12, 2016, 9:50 am

Hey guys, a few moments ago, one guy said that a "friend of him" like younger girls, i told him my ewhore is 18. No more to say.

So what to do? Milk him with fake pictures or just block him. I know dealing with that can be a real problem even in the shitty country i live.

Thanks for the advice

I would say milk him lol, when e-whoring you just have to be absent of what is going on tbh

You are e-whoring, man the fuck up or stop doing it.

Milk him then cease to contact him any further

That should motivate you to milk the shit out of him.

Just milk him... if you really feel the urge to, I guess reporting him wouldn't hurt, but I would be wary of that
