You may be waking up to an email(s) claiming to be from Cryptsy saying that it's closed due to theft of bitcoins.

Before you go rushing in to things and start panicking, it's a SCAM.

You shouldn't be clicking on links in emails anyway but no doubt someone is going to. You've been warned.

People are already on alarm since september!

That's why i say , You should keep your pRIVATE KEY WITH YOU AND NOT WITH ANY ONLINE ARBITRAGE website or wallet.
