Firstly this method is something I've never seen before and highly unique, and within the subject I'm fairly clued up. The way Jelo explains it and set it out not only makes is aesthetically pleasing but it's also easy to read and follow. You're not going to become a millionaire like op says however it is a good way to make an extra £1/200 at then end of the month, and not only that if you played your cards right you could get some pretty nice things for free. The method would take a good length of time to complete and you won't be making money from the minute you start and will take time to come in. This is brilliant for anyone because it doesn't require any start up capital or investments. If you set aside half an hour each night at the end of the week you'd be doing pretty well and making good money however the hardest bit is actually making the money after you follow the method. Overall for \$20, it's defiantly worth it and I'd be happy if I paid for it.

I have received some Amazon products at a very large discount, and some were even free (didn't even need to pay shipping). The e-book explains everything you need to do in good detail. This is a REALISTIC method for how to earn some extra side cash, not some bullshit "Earn £1000 a day auto-pilot shit". I'd definitely say that it's worth doing, it doesn't take much time at all and you can easily re-sell the items you get for free or at a large discount for a profit.

And this DOES work for many other countries, not sure why OP says UK only but it also works for .com and others :)

Some more info:

Spoiler [\(Click to View\)](#)

This method is not one of those £5000/day methods. This is a real method that really works. You will definitely benefit from knowing this method. I have been using this method for 2 months and have made almost £1.5K from it. 1.5K in 2 months doesnt sound like a lot right? Its not, but all i had to do was spend half an hour each night to use this method. I only use this method when im in bed and on my phone.

This would be great for people who have jobs or are at college or uni. You do not need to invest a lot of time or money to get it to work.

Sent you a vouch copy.

Giving out a couple more vouch copies to trusted members. Make sure you meet the requirements for this method before contacting me!

Bearded - January 13, 2016, 11:33 am

I will probably buy this if some more vouchers come in.

I meet all the requirements, but we all know what online methods are like.

Just a question with your 30 min a night how much do you make in 1 single night?
Another question is after the 30 min a night you spend, straight after do you have the money and you are able to spend it or do you have to wait a day or more to be able to see and spend your money?

Are you guaranteed to make money with this method?
Any re-compensation of some sort if you don't?

Yep.

If you do not make back the money you invested within a month of using the method, I will refund you what you paid for the eBook.

If you are having any trouble just send me a PM. It's pretty straightforward and very easy, no one has had any issues or asked me for help so I assume everything is good.

Does this method require contacting the sellers directly on Amazon saying you'd do an exchange for a review etc...
