Thread: [SQL Error 1064 on private message](#)

S-Hax0 - January 13, 2016, 9:38 am

I have a new forum setup on mybb 1.8.6

When I click on any pm, I receive the following sql error:

Quote:MyBB has experienced an internal SQL error and cannot continue.

SQL Error:

1064 - You have an error in your SQL syntax; check the manual that corresponds to your MariaDB server version for the right syntax to use near " at line 1

Query:

SELECT tid FROM TF_posts WHERE pid =

Please contact the MyBB Group for technical support.

I am unable to figure anything out. Please help!

Here is the screenshot of the error:

(I can't post images

Have you tried to change anything, is your server really running mariaDB?

Sorry but I am a noob in this. I just ran a sql query in the past. One was to change the show image option in ucp.

How to know if I am using mariaDB?

You're probably doing. What was your request, in very strange that this problem occur if you have not touched anything at the code or in the database.

Thanks for replying...

I ran the following two sql queries till now:

Code UPDATE TF_users

SET showimages=1
and

Code UPDATE `TF\_users` SET `sourceeditor` = '1' WHERE `sourceeditor` = '0';
