Thread: [Send a 'live vid' over Kik](#)

U MIRIN - January 13, 2016, 3:38 pm

Hello, I am using old kik + Fake Camera, and I have a video file.
How can i send it?

waraffiliate - January 13, 2016, 4:01 pm

Send via email. There is no way for us to send video over kik/bluestacks.

That sucks so much

James Burnham - January 13, 2016, 4:11 pm

Indeed it sucks. Sending a live vid would be really helpful.

Sora1539 - January 13, 2016, 4:13 pm

You can send the video from your phone, where you have installed a new version of kik, to your kik account with the older version. From there you can "share" the video with your victim. It will look for him, like you would send the video.

But i don't know any possible way to send a video file as a "live video".
