Thread: [HackerCraft](#)

**Omniscient** - January 14, 2016, 12:18 pm

Almost a year ago now HackerCraft was ruined and taken offline. I continue to get requests to open a new server or allow others to do so.

I am seriously considering it.

However, if I was to allow HC to return I would do so under the following conditions.

- 1) A server admin/creator cannot profit in any way. That means zero paid upgrades or paid moderators or any such nonsense. (FYI this means I will not profit either)
- 2) Server must be under a subdomain other than play.hackercraft.net.
- 3) Server must have at least 20 slots.

If you're interested in hosting or starting a HackerCraft server please PM me. I would need to know your credentials, experience, and plan to open an official HackerCraft Minecraft server.

Unsure if this will work but I also miss playing HC with members.

**~Tom~** - January 14, 2016, 12:19 pm

Would love to see this come back.

**Griev?us** - January 14, 2016, 12:20 pm

Damn, I miss HackerCraft. Sadly I only played during the second version of it with Robust when it was ran rather awful.

Hopefully someone can take up the opportunity here and make something great out of it.

Welp, fingers crossed for a comeback! ?

**The Illusionist** - January 14, 2016, 12:20 pm

I hope HackerCraft can return, I really liked playing it.

**The GRim** - January 14, 2016, 12:21 pm

Let's hope someone reliable comes forward.

**JASON AND MEDEA** - January 14, 2016, 12:21 pm

I wasn't around to see what HackerCraft is or was, but would love to get see what it would be like!

**?Creative** - January 14, 2016, 12:21 pm

I hope hackercraft comes back this would be amazing. HCF server maybe?

**Pentester™** - January 14, 2016, 12:22 pm

This sounds like a great idea in all honesty, If hosting is a legitimate issue I could help.

**Scymo** - January 14, 2016, 12:22 pm

I would gladly provide hosting for free for HC

**reBELLYus** - January 14, 2016, 12:23 pm

This forum had their own version of Minecraft for members to play? Wow. I am impressed. Posting here to stay up-to-date on the progress.

**Scymo** - January 14, 2016, 12:24 pm

If you deem me worthy Omni, i could see about getting a revival of the server going.

**Silent Storm™** - January 14, 2016, 12:29 pm

I played HC for a bit on version two. Hopefully the new one that comes out will be better than ever. If it needs any moderators or staff I'm happy to contribute. I have a lot of experience with server management.

**Granny Bacon** - January 14, 2016, 12:29 pm

I actually own a Faction server right now with 100 slots and it is up and running.

But I would need to order a new domain for HC if hosting was an option for me in the future.

120gbit/s DDoS Protection, 100 slots server, plugins are already setup.

Minecraft client version, 1.8.X.

I could be a moderator for the HC server if needed.

**Inserenity** - January 14, 2016, 12:31 pm

Heard a lot about Hacker Craft although I was never around early enough to play it.

Would love to give it a shot and check it out though if it were to make a return.

**J?son** - January 14, 2016, 12:32 pm

Does this mean the HackerCraft awards will be available again?

**Jordana Brewster** - January 14, 2016, 12:32 pm

Seeing where this goes, I don't have the fine expertise to run it all by myself but if anyone needs a voluntary/non paid as wanted by Omni then i am more than happy to apply for a moderator or likewise position and help run the server with whoever is deemed chosen by Omni.

Can submit experience via PM if you require it.

**Katarina Du Couteau** - January 14, 2016, 12:35 pm

**c x y k** - January 14, 2016, 12:38 pm

If you're hosting it or shit, I could sure run it.

Lots of experience with it, also done plugin dev and custom server dev for years so quite the experience.

It doesn't matter what the public think. Omni needs to see your experience and skills. Got a portfolio? Do you know how to manage a server? Have you ran a MC server before?

All I see is a gay ass brony. ? <3

**240sx** - January 14, 2016, 12:48 pm

Damn that would be dope if this came back never got to really join it once it got taken down I'd totally join the server.

**Phreakdaline** - January 14, 2016, 12:51 pm

This would be a pretty incredible thing to see happen. I would love to get involved.

**Thornzzz** - January 14, 2016, 1:02 pm

Hell yeah! I loved HackerCraft, I really enjoyed being a Moderator on the 2nd HackerCraft and an active member on the first.

**minimalist** - January 14, 2016, 1:11 pm

Honestly I see this as being the turning point.

HC was great but it was because the community was working towards the goal of getting awards. Without the incentive there will not be as nearly as many players.

Maybe that's just my opinion but I was a mod in v2 and a frequent in v1 and I really only played for the award in the first one.

Was a minecraft server for HackForums.

Could be cool if this would actually come (back)!

That seems pretty interesting to be honest, even though i have made my Minecraft activity very little, it'd be a pleasure playing with Hackforum members.

I never played Minecraft before hackercraft. It was just funny because I'd annoy Omni and he'd block me into a room. Lolz.

Being a newer member here, I've read and heard a lot about HackerCraft. As a 4+ year Minecraft player, I have to say I'd be more than willing to play a part in its revival.

I am willing to pay a Dedicated Server if there is any team I can join. Specs will be at least 64 GB RAM and an E5.

**ZerFallen** - January 15, 2016, 2:19 pm

I've messaged you regarding the matter. ?

**Turtle** - January 15, 2016, 2:21 pm

I remember when omni tpd into my base and started trolling me

**Brendan** - January 15, 2016, 5:06 pm

Sick, I could make another strip club.

Might be the only reason I play MC again.

**Jon Snow.** - January 15, 2016, 6:00 pm

I think it would be really cool to have a HF MC Server again, but I would want to try make sure it's secure as possible, so it can't get hacked, taken offline etc., like the other major servers out there.

You could add a lot of security easily. As for DDoS, that's fishy..

I truly miss this server because it was the only MineCraft server I actually played and did factions with other users on here.

**MysticParadox** - January 15, 2016, 9:34 pm

Would love to but I'm in a tight financial situation. Wouldn't want to screw things up for everyone.

**gavvy24601** - January 16, 2016, 5:06 am

I'm guessing this is like an official mc server or something?

**DontQQSoMuch** - January 16, 2016, 5:08 am

Can you still get the reward by playing it?

**Chubs™ aka badman** - January 16, 2016, 6:29 am

I'd love to help out with this. I've been playing minecraft for around 6 years now and I have ran multiple servers In my time of playing minecraft.

From my understanding thus far, the server will be based off having fun, and adding to the bond of the community. So, with that being said I don't see an award coming out of this. After all, if you're just playing for an award you're more like to attempt to get it by any means necessary, and from that I see confrontation arising.

If he decides to give it a shot later on and things go down hill he can just

cut it. I don't see him starting off with it though.

Last time it was just people set up gigantic farms and went AFK waiting for them to grow.

Right, and I think the goal of this server is more steered towards fun with the community. Awards and other valuables take away from that genuine experience.

Please no more new contacts about this. Already working with a small team to get something running. Please stay tuned.
