It's when you squeeze an animal or humans tits and milk comes out.

Basically getting someone to pay more than once.

That's what I've interpreted it as anyway.

Milking means to get double the money via means of Wrong Email, or creating another account as your other ewhores "friend"

That is double-dipping.

Milking is consistently getting someone to pay, generally more than 3 or 4 times.

That's not what milking means. That is double dipping. Milking is selling the same guy more and more shit for more and more money.

My understanding of the term as far as ewhoring goes is that milking is the word used when you get a person to pay twice by social engineering them (for example "The payment isn't going through, could you try sending it again?").

That is double-dipping not milking. You heard something wrong :)

People really fall for that now a days? Damn I can't wait till its survival of the fittest for realz.

Oddissee - January 14, 2016, 2:29 pm

Milking is getting someone to fall in love with your eWhore and trying to get the MOST out of them.
Just like a cow.

Dipping (Whether it's double, triple, etc...) It's where you get someone to send the payment multiple times.

reBELLYus - *January 14, 2016, 2:31 pm*

The act of squeezing a cow's gutters to produce milk.
