Subscribed. But please... please... please.... Do something about your SEO on YouTube. On this way you won't grow really quick. Just saying.

Begin with optimizing your description.

Just repeat your keywords a lot of times.

Welcome to "CHANNEL NAME" on this channel we upload: "KEYWORD 1", "KEYWORD 2 etc.

Then information about the song, such as styles etc. Do not forget to repeat the song name and the channel name in it.

End with something like: "Also do not forget to follow "CHANNEL NAME" On social media:

Etc etc.
