Thread: [Kik fake camera for iOS](#)

Beatles - January 15, 2016, 7:47 pm

hey guys, does anyone know how i can get an older version of kik on a jailbroken iphone running ios 8.4? I just need it to be old enough for the fake camera tweak from cydia to work

CyberneticTitan - January 15, 2016, 7:53 pm

You can try the tweak AppAdmin to do this.

Go here for more help: <https://www.reddit.com/r/appadmin>

Tryout app admin if not their was another tweak that allowed you to do this straight from the AppStore but you had to modify .plist files I believe. I haven't used it myself but i do remember seeing two tweaks that could this not to long ago.

You can also use AppCake to get an older version.
