Ye I know, that was a long time ago, but that doesn't change anything, he didn't finish what was paid for.

Chargeback on him. Make sure to call PayPal and let them know he's fraudulent to get his account locked.

Edit: just realized it's been way over 180 days

Hopefully you can get his figured out

Lol that's so sad. Should've paid Dan Smith the 250 or so he charges and got the job done properly in the first place.
