Thread: [Paid Packs Vs Free Packs](#)

Dcypha - January 16, 2016, 12:49 pm

Guess I got lucky with my free pack, what can I say boys ;)

1.5k+ pics, verification is good, BDSM, lingire, bath, shower, dildo, different hair colours +more -in my free pack. Some people arent as lucky, I understand this now...LOL

Hey guys Dcypha here and I'm going to quickly tell you the pros and cons of paid and free packs.

Before I start this i'd like to share that i've earned well over \$350 in 7 days with just 1 free pack with over 1.5k pics. You DO NOT need a paid pack to earn big money ewhoring.

Paid Packs

Cons:

Although they say unsaturated they are not. Example:

<https://gyazo.com/bb8da22c26275bb9d5a8120ec486f313> I'm guess more than 100 people have bought this pack and sorry to bring up the dark but I'm guessing atleast 1 has shared it or even "leaked it". ARE THEY less saturated? Probably, but still saturated.

You don't know wat ur getting (u don't know wat kind of pics, verifications, quality etc). You get 1 preview pics and that's it.

Pros:

Less saturated although still used by many

Better quality [probably never bought one]

FREE PACKS:

CONS

More saturated

Less verifications

Pros

More Pics

Possibly less used as people have multiple free packs

I'll finish this thread later im tired

CONCLUSION: If you are very good at SE, You dont need paid packs. It just depends on your own SE skills. If you disagree tell me why

Horrible, horrible thread, lol.

If you are making an effort in something like this, at least do it properly.

well, it depends on the packs tbh..

I agree, you dont need to have a paid back to earn big, i've just started ewhoring a week ago and i made \$300, (on the first 2 days i only made 45), and i managed to get some clients.

Today i bought a pack for \$20, went through my client list, and quickly sold videos and pics to this one guy for \$50. I made the money back + \$30, and now i've got a bigger pack with videos of the girl.

Can't say if i'm making more money with the paid pack yet, but i surely dont regret buying it because i've already gotten back the money i spent on it haha

xXMultiModZXx - January 16, 2016, 12:54 pm

Try to earn as much money as you can with e-whoring. After you got the money, you can buy them :D. Quallity is what you pay for dude.

I'll tell u something, I bought one of the biggest paid packs on Fliix thread and I have to said you can't compare it to any free pack.

Pics are HQ, tried many images on tinyeye and Google reverse image search and found only one match of the kik user that someone uses this pack.

It's true that some paid packs that have less pics could be worse than some free packs, but if you buy the right, unsaturated one, then it's a big difference.

How much what?

If you mean pics and vids: 2k pics and 250 vids

If you mean money \$30 bcs it was on sale

How many others bought it.

Not sure, but he puts it down after he sells pack few times (not sure how many, I think around 20).

Not sure, but he puts it down after he sells pack few times (not sure how many, I think around 20). saturated, seems overpriced. 30 for 2k pics. the vids make up for it but I hardly ever get asked for vids.

Most vids you'll need it 10.

Enzio - January 16, 2016, 1:48 pm

Yeah...No... No one bought my packs more than 100 times O_o ?

There are 2 other sellers who have sold waye more. I'm the one with the less buyers xD.

You don't know what you are talking about.

Saturated if 20 people has it? When I barely see other saturated packs on websites.
I mean I see them, but not a lot, never saw mine on any website yet and you call it saturated?
Also 2k pics and 250 vids for \$30 overpriced? Even without videos it's cheap for being unsaturated and HQ.
Also you said you don't know how someone can ewhore without 600 pics and you barely get asked for vids?
I sold someone already over 50 vids, he likes them more than pics, and few other guys as well.

I think that paid packs that have many pics are much better than free packs, many others think that as well.

Fliiix guaranteed to not sell more than 25 times (checked on Skype).
If that is true what he says (probably is since I barely see his girls on website) then it's worth buying them.

Let's stay on topic. It's paid packs vs free packs.
If you have same SE skills with good paid pack vs free pack, you earn more.

Ok lets look at this your way.

Paid packs: 20 people using same site. Maybe, but they probably don't post at the same time since it's only 20 of them, so they don't talk to same people.

Free packs: 200 or more people using same site. Since it's lots of them, they usually post on website almost at the same time and get same people.

Who wins? Again paid packs ?

Totally agree with you.

I'm done with this thread, good luck with your 7k earnings with free pack.

hickyfinnt - January 16, 2016, 2:04 pm

I don't know why people are even giving this sad piece of work the attention he is whoring for.

This guys earnings are faker than his free packs ability to make decent money.

He recently went online with a newbie and tried to scam him for one of Squalo's packs. I have the proof that he sent me :)

He's a mentally unstable little git who literally can't grasp simple concepts and hates on people for selling packs because he wants to justify the fact that he can't be bothered to buy an HQ pack.

With that being said, Squalo's packs are absolute garbage and people should go for something more HQ like Fliix or even PJ.

OP, go crawl back into your little hole and go back to making fun of suicide like last time.

I'm personally against buying packs because packs are very easy to make on your own and using a paid pack does not make you better at ewhoring.
